About this Budget Paper	i
Chapter 1: Overview	
1.1 Overview	1 - 3
1.2 The Essential Infrastructure Plan to build a better New South Wales	1 - 7
1.3 Delivery of essential school infrastructure, hospitals, transport and roads.....	1 - 11
1.4 Four-year capital program	1 - 17
1.5 Australian Government contributions to the State capital program ..	1 - 18
1.6 Existing assets and maintenance program	1 - 19
Chapter 2: Infrastructure investment supporting essential services, housing and communities	
2.1 Climate Change, Energy, the Environment and Water	2 - 2
2.2 Communities and Justice	2 - 7
2.3 Creative Industries, Tourism, Hospitality and Sport	2 - 13
2.4 Customer Service	2 - 16
2.5 Education	2 - 18
2.6 Health	2 - 28
2.7 Planning, Housing and Infrastructure	2 - 35
2.8 Primary Industries and Regional Development.....	2 - 38
2.9 Transport	2 - 42
2.10 Treasury (including Infrastructure NSW)	2 - 58
Chapter 3: Infrastructure investment delivered across New South Wales	
3.1 Key infrastructure delivered	3 - 1
3.2 Climate Change, Energy, the Environment and Water	3 - 1
3.3 Communities and Justice	3 - 2
3.4 Creative Industries, Tourism, Hospitality and Sport	3 - 3
3.5 Customer Service	3 - 3
3.6 Education	3 - 3
3.7 Health	3 - 4
3.8 Planning, Housing and Infrastructure	3 - 7
3.9 Premier	3 - 7
3.10 Primary Industries and Regional Development	3 - 8
3.11 Transport	3 - 8
3.12 Treasury	3 - 10
Chapter 4: General Government Sector projects	4 - 1
Chapter 5: Public Non-financial Corporations projects	5 - 1

About this budget paper

Purpose and scope

Budget Paper No. 3, *Infrastructure Statement*, provides details of the Government's infrastructure investment program over the next four years. The objectives of this Budget Paper are to:

- provide a clear account of the State's planned capital program, including new works and works in progress
- detail the allocation of resources to infrastructure projects in the current budget and across the forward estimates for both the general government and public non-financial corporation sectors
- demonstrate how infrastructure investment supports the Government's priorities and service delivery objectives, including the underpinning policies and strategies.

The infrastructure investment program includes all projects that create or enhance NSW Government Assets across the State, this includes Property, Plant and Equipment, Leases and Information, Communication and Technology Assets.

This Budget Paper provides project level detail of infrastructure investment by agencies that are material to the general government and public non-financial corporation sectors. The Budget Paper also provides the total planned investment across all minor works for each agency.

An overview of agency classifications by sector is provided in Budget Paper No. 1, *Budget Statement*. A more detailed glossary is included in *How to Read the Budget Papers*.

Details of the infrastructure projects listed in this Infrastructure Statement are [available online](#), with functionality to sort projects and view them through a geospatial presentation.

Structure of Budget Paper No. 3

Chapter	Description
1. Overview	Chapter 1 summarises the State's infrastructure investment across the budget and forward estimates.
2. Infrastructure investment supporting essential services, housing and communities	Chapter 2 presents key infrastructure projects in delivery and projects that are under development.
3. Infrastructure investment delivered across New South Wales	Chapter 3 details key infrastructure projects that have been delivered.
4. General Government (GG) Sector projects	Chapter 4 lists major infrastructure projects and minor works for each group of general government agencies. Project level information is treated as commercial-in-confidence for some parts of the sector and is not reported in detail.
5. Public Non-Financial Corporations (PNFC) projects	Chapter 5 lists major infrastructure projects and minor works for each public non-financial corporation, grouped by industry sector. Project level information is treated as commercial-in-confidence for some parts of the sector and is not reported in detail.

Agency disclosures

Capital program definitions

Program	Definition
Major Works	Projects with an estimated total cost of \$1 million or above, split into new projects (approved to begin in 2026-27) and works in progress (commenced before 2026-27 but not yet completed).
Minor Works	Projects with an estimated total cost below \$1 million, such as minor plant and equipment or annual provisions for replacements.
Leases	Projects related to accounting standard <i>AASB 16 Leases</i> .

Project level information

Item	Description
Project description	Name of the infrastructure project.
Location	The location where the infrastructure/project/asset will be built. 'Various' is noted for projects occurring across multiple locations.
Start	The calendar year when construction began or will begin. For planning works, it is the year that planning appraisals and related activities began or will begin.
Complete	The project's expected calendar year of completion. Residual expenditure may occur after the physical completion of the project.
Estimated total cost (ETC)	The current cost estimate of planning, procuring and delivering the infrastructure/project/asset. The ETC is the complete project cost which can include funding in prior years and outside of the forward year estimates. The ETC may change as more detailed planning is undertaken and further information on market conditions becomes available. Large infrastructure acquisitions may be split into several projects, including planning, land acquisition and stages of construction. Due to commercial sensitivities, the ETC for some major works is not included.
Allocation 2026-27	The amount of projected capital expenditure in the 2026-27 Budget for each infrastructure project or total minor works.

Notes

- The budget year refers to 2026-27, while the forward estimates period refers to 2027-28, 2028-29 and 2029-30. 'Four years' refers to the period 2026-27 to 2029-30 unless otherwise stated.
- Aggregated numbers are reported on an eliminated basis. Individual agency reporting is done on an uneliminated basis unless otherwise stated.
- Figures in tables, charts and text have been rounded. Discrepancies between totals and the sum of components reflect rounding:
 - estimates under \$100,000 are rounded to the nearest thousand
 - estimates midway between rounding points are rounded up
 - percentages are based on the underlying unrounded values.
- Capital profiles may differ between Budget Papers due to differences in time periods described.
- For the budget balance, a negative sign indicates a deficit while no sign indicates a surplus.
- One billion equals one thousand million.
- The following notations are used:
 - n.a. means data is not available or is not disclosed for commercial reasons
 - N/A means not applicable
 - no. means number
 - TBC means to be confirmed
 - 0 means not zero, but rounded to zero
 - ... means zero
 - '000 means thousand
 - \$m means millions of dollars
 - \$b means billions of dollars
 - () means a negative number when enclosing a number in a table.
- Unless otherwise indicated, the data source for tables and charts is Treasury.

1. Overview

- The 2026-27 Budget is improving services across New South Wales with an infrastructure investment program of \$116.7 billion over the four years to 2029-30.
- Despite global headwinds, the NSW Government is locking in a sustainable long-term infrastructure plan to support our growing communities, lift productivity and create jobs.
- Investment in infrastructure is expected to exceed \$30 billion in 2026-27, equating to average expenditure of \$82.7 million a day on building the roads, schools, hospitals, water infrastructure and public transport for today while preparing for the housing and jobs needed tomorrow. The 2026-27 Budget includes:
 - \$9.2 billion over four years to support the delivery of more than 260 new and upgraded schools, co-located with early learning, which will provide more than 1,400 brand new classrooms and 18 new schools expected to open in 2026-27
 - \$11.9 billion over four years for health infrastructure to deliver a modern, resilient and accessible health system that meets both current and future demand. This includes the first new hospital in Western Sydney in more than 40 years at Rouse Hill and the largest hospital redevelopment underway in New South Wales with \$2.0 billion for Bankstown Hospital
 - \$6.6 billion over four years in Western Sydney roads
 - \$4.5 billion is allocated to Metro expansion in 2026-27 alone
 - \$2.4 billion in new investment for Parramatta Light Rail Stage 2 to support housing and employment growth and improve connectivity between Parramatta CBD and Camellia, Ermington, Melrose Park, Wentworth Point and Carter Street. Procurement has commenced for Parramatta Light Rail Stage 2a, which will provide light rail services between Parramatta CBD and Wentworth Point
 - \$365.0 million over four years in partnership with Australian Government for roads connecting communities to the Rouse Hill Hospital, the first new Hospital in Western Sydney in more than 40 years — first promised in 2015 but now with construction started in 2025.
- Record annual investment in heavy rail maintenance of \$2.1 billion for signalling systems, maintenance and station upgrades to improve services on the existing Sydney Trains and NSW Trains network.
- A 10-year pipeline of investment to deliver thousands of new electric buses and electric bus depots, plus new and upgraded fire trucks for the Rural Fire Service, will provide certainty for domestic manufacturers to invest in New South Wales while creating and retaining new manufacturing jobs.
- The infrastructure investment program, which was 83 per cent debt funded in 2022-23 Budget, will be 53 per cent debt funded over the forward estimates.
- Despite global uncertainty, rising interest rates and capacity constraints, the \$116.7 billion over the four years maintains a steady ongoing capital program, including an 8.4 per cent increase compared to the 2025-26 Budget in transport infrastructure investment over the next four years.
- The NSW capital program maintains historic levels of investment while moderating debt and without increasing costs for households through privatisation.

- The State's infrastructure program includes substantial investment in infrastructure to support new homes including:
 - \$60.2 billion over four years in transport infrastructure projects which will improve connectivity, unlock opportunities for new housing and support access to jobs and services for NSW residents
 - over \$2.0 billion in major North West Treatment Hub upgrades of water resource recovery facilities at Rouse Hill, Castle Hill, Richmond, Riverstone and Quakers Hill. This will accommodate expected population growth across Sydney's North West
 - the delivery of 8,400 new social homes and upgrades to existing homes to assist vulnerable people including women and children escaping domestic violence, Aboriginal people and their families, older Australians, those living with disability and young people without family support.

1.1 Overview

The 2026-27 Budget provides an infrastructure investment of \$116.7 billion over the four years to 2029-30. This will deliver the infrastructure and services that communities need to flourish, while investing at more sustainable levels of around 2 per cent of gross state product (GSP) over the forward estimates.

The investment in this Budget builds on the State's already extensive infrastructure program. It supports the delivery of essential community services across education, health, housing, water and energy. It also strategically invests in priority large-scale city shaping transport projects, such as the Parramatta Light Rail Stage 2.

The Government is committed to increasing housing supply. The Budget supports housing delivery through planning reforms that will focus development around existing major transport infrastructure through the Government's Transport Oriented Development sites. It also delivers investment to expand social and affordable housing for vulnerable and essential worker households.

The NSW Government Essential Infrastructure Plan is built on three pillars designed to support housing growth and new communities that were neglected for too long:

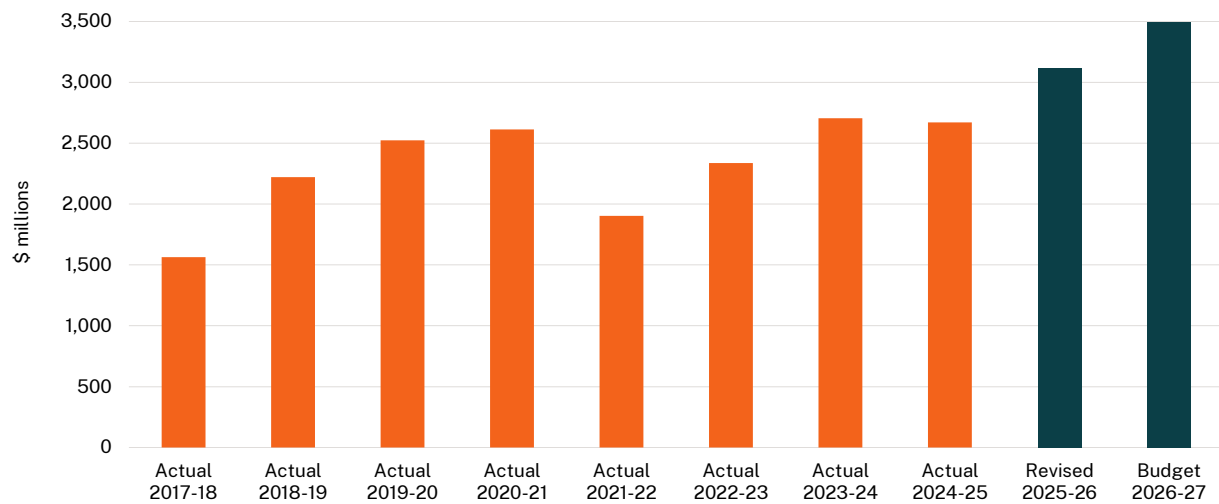

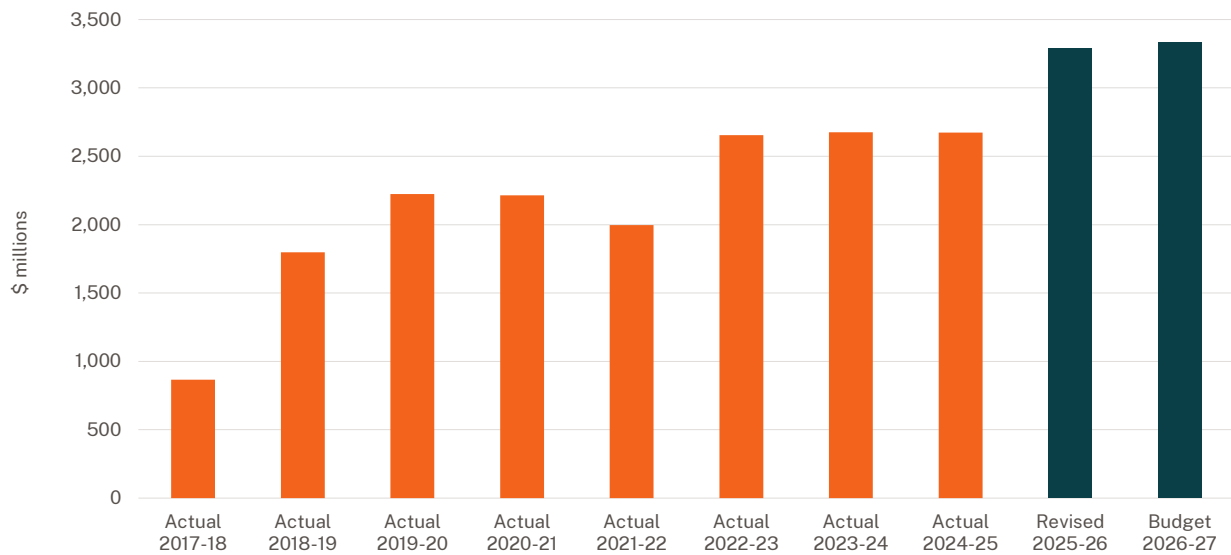

1. Investment in essential schools and hospitals
2. Deliver a steady pipeline of transport infrastructure
3. Supporting job opportunities.

Investing in essential schools and hospitals

The 2026-27 Budget delivers investment to target persistent gaps in community infrastructure with prioritised investment in the following areas:

- schools, with \$9.2 billion over four years to support the delivery of more than 260 new and upgraded schools, with more than 1,400 new classrooms in progress to be delivered
- the health system, which will benefit from \$11.9 billion over four years to deliver 32 new and upgraded hospitals and more than 2,500 additional beds and treatment spaces across the State.

Health and Education continue to be foundational infrastructure priorities for the Government. Charts 1.1 and 1.2 outline the continued investment in health and education infrastructure between 2017-18 and 2026-27. In line with the NSW Government's commitment to support rapidly growing communities, the Budget continues to deliver new and upgraded schools in priority growth areas and precincts, and new and upgraded hospitals and health facilities. This includes the first new hospital in Western Sydney in more than 40 years at Rouse Hill and the largest hospital redevelopment underway in New South Wales with \$2.0 billion for Bankstown Hospital.

Chart 1.1: *Health capital expenditure 2017-18 to 2026-27***Chart 1.2:** *Education and skills capital expenditure 2017-18 to 2026-27*

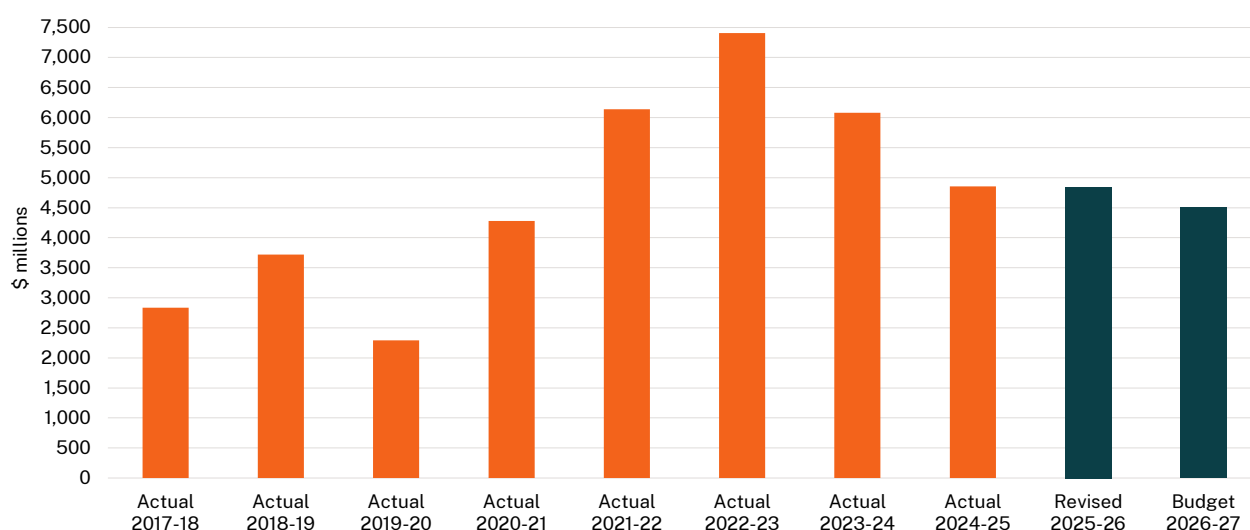

Delivering a steady pipeline of transport investment

This Budget will deliver \$60.2 billion over four years in transport infrastructure projects which will improve connectivity, unlock opportunities for new housing and support access to jobs and services for NSW residents. The four year transport investment is an 8.4 per cent increase from the 2025-26 Budget.

The NSW Government has committed \$16.1 billion over four years for the delivery of Sydney's metro projects. These projects play a vital role in connecting people and communities, making journeys safer, easier and more reliable.

Chart 1.3 shows the ongoing investment in the Sydney Metro program between 2017-18 and 2026-27. Sydney Metro was established in July 2018, prior Metro investment formed part of broader transport network investment. Expenditures reflect the progress and timing of works across the Metro projects, including completion of the North West (M1) line (opened in 2019), the new section of the M1 line from Chatswood to Sydenham (opened in August 2024) and the Southwest, West and Western Sydney Airport lines under construction.

Chart 1.3: Sydney Metro capital expenditure 2017-18 to 2026-27

While metro projects continue, investment in the existing rail network has not been ignored. The 2026-27 Budget includes a record annual investment in heavy rail maintenance of \$2.1 billion for signalling systems, maintenance and station upgrades. The Rail Reliability Plan will establish a new incident response capability within the Rail Operations Centre while upgrading signal and electrical infrastructure to reduce incidents and delays.

Building on the record pipeline of new transport projects, progress continues with a new \$2.4 billion investment in Parramatta Light Rail Stage 2 which will support housing and employment growth and improve connectivity between Parramatta CBD and Camellia, Ermington, Melrose Park, Wentworth Point and Carter Street. Procurement has commenced for Parramatta Light Rail Stage 2a, which will provide light rail services between Parramatta CBD and Wentworth Point.

Supporting jobs

Despite global economic and geopolitical constraints, the NSW Government remains focused on the creation of more skilled jobs and enabling new opportunities for local workers. New local content requirements and the creation of the Local Jobs First Commission will support these efforts.

The Government is also making investments in job creation, including:

- a commitment to deliver thousands of new and fit for purpose electric buses, to replace the ageing bus fleet and underpin a revival of domestic bus manufacturing. The \$6.5 billion New Electric Bus Program will focus on locally manufactured buses, creating and retaining manufacturing jobs in New South Wales
- investing a further \$225.0 million to create more local jobs in domestic manufacturing and help NSW businesses build the products and materials needed for the low-carbon industries of the future
- promoting modern manufacturing initiatives to relieve cost pressures in the construction industry and which are expected to play a crucial role in meeting the growing demand for housing in New South Wales by delivering quality social homes faster than traditional onsite builds
- enhancing local employment through the work of the Local Jobs First Commissioner to promote the use of local suppliers and workers in Government procurement, and building domestic manufacturing to protect against global shocks and market volatility
- streamlining building approvals and removing duplication to save industry time and money
- maximising employment opportunities at the new Western Sydney International Airport with new roads, support for Bradfield City and new bus services that will connect Penrith, Oran Park, Campbelltown, Liverpool, Mount Druitt, and Leppington
- supporting the delivery of Renewable Energy Zones which will benefit New South Wales with \$77.0 billion in private investment in renewable energy creating more than 11,000 jobs in the regions including 6,970 direct jobs during construction and 4,450 ongoing direct jobs.

Box 1.1: Promoting Modern Manufacturing

This Budget supports the development of Modern Methods of Construction (MMC) in New South Wales by directly investing in the industry and by reducing regulatory barriers to its uptake. This includes:

- seeking expressions of interest to establish a MMC Innovation Facility in New South Wales. The Facility will use MMC techniques, technology and processes to produce prefabricated and modular components suitable for housing and other buildings, cutting construction times, easing cost pressures and reducing reliance on interstate and overseas suppliers
- supporting the creation of a new regulatory framework for MMC, which is fully integrated with the new national certification scheme. A pilot will commence in New South Wales from the second half of 2026
- promoting modern manufacturing, particularly MMC, directly supports delivery of the Essential Infrastructure Plan (EIP) by accelerating housing supply and reducing system-wide cost pressures
 - enabling parallel factory and site works, MMC cuts build times, lifting delivery rates across the housing pipeline.
 - improving productivity and reducing reliance on constrained onsite trades, addressing labour shortages that delay infrastructure delivery.
- standardising and repeatable processes to drive economies of scale, improving cost certainty and lowering per-unit costs over time supporting more efficient allocation of EIP investment
- delivering factory-based production, higher quality with safer outcomes and less waste
- targeting MMC investment that enables the Essential Infrastructure Plan to deliver more homes, faster and at lower cost.

1.2 The Essential Infrastructure Plan to build a better New South Wales

The 2026-27 Budget provides \$116.7 billion in capital expenditure over four years to 2029-30 for investment in essential infrastructure, to tackle the housing crisis and invest in water and power systems.

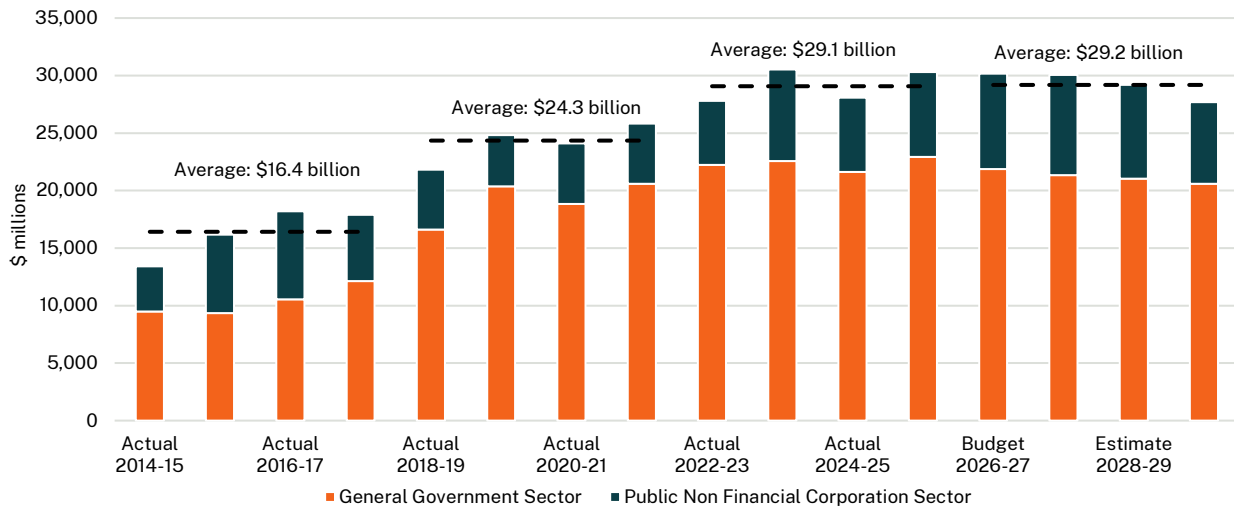

The NSW Government is delivering the Essential Infrastructure Plan while stabilising gross debt at around 20 per cent of GSP.

The average estimated infrastructure investment of \$29.2 billion per annum over the next four years is significantly higher than the average four-year investment of \$24.3 billion across the four years to 2021-22. This level of investment has been committed without privatisation and with lower levels of debt funding.

The infrastructure investment program, which was 83 per cent debt funded in 2022-23 Budget, will be 53 per cent debt funded over the forward estimates. This has been supported by improvements in the cash operating surplus and achieved without a reduction in the capital program.

Chart 1.4 shows the projected growth in the State's capital program from 2014-15 to 2029-30.

Chart 1.4: Infrastructure program from 2014-15 to 2029-30

Significant projects continuing or commencing as part of the 2026-27 Budget include:

- \$60.2 billion over four years for transport infrastructure, including:
 - \$12.9 billion over four years for Sydney Metro West
 - \$6.5 billion over four years in Western Sydney roads
 - \$2.3 billion over four years for Western Harbour Tunnel Upgrade
 - \$2.2 billion over four years for Sydney Metro-Western Sydney Airport
 - \$1.4 billion over four years for the Parramatta Light Rail Stage 2
 - \$988.3 million over four years for Sydney Metro City and Southwest.
- \$11.9 billion over four years for health infrastructure to deliver new and upgraded hospitals and health facilities (estimated total costs shown below), including:
 - \$2.0 billion for New Bankstown Hospital
 - \$1.0 billion for Nepean Hospital and Integrated Ambulatory Services Stages 1 and 2
 - \$940.0 million for Royal Prince Alfred Hospital Development
 - \$890.0 million for John Hunter Health and Innovation Precinct
 - \$880.0 million for Liverpool Health and Academic Precinct.
- \$11.3 billion over the four years for education and skills infrastructure, including:
 - \$9.2 billion over four years to support the planning and delivery of new and upgraded schools.

Tackling the housing crisis, reducing the cost of living and delivering more housing for vulnerable communities

The NSW Government is committed to providing the homes that young people, families and workers need. Housing is the biggest cost-of-living issue people are facing in New South Wales today.

To accelerate delivery of housing for NSW residents, the NSW Government is undertaking the following initiatives:

- implementing the Transport Oriented Development program informed by a land use planning approach that encourages sustainable and mixed-use development around transport hubs, which will create vibrant and walkable communities
- implementing the Low and Mid Rise Housing Policy which allows for greater density around centres and transport nodes
- establishing the Housing Delivery Authority to accelerate approvals by cutting through planning regulations holding back housing supply
- investing in the urban redevelopment at Bays West, which will transform industrial land into a well located new suburb delivering up to 8,500 homes, including a minimum of 10 per cent affordable and essential worker housing
- investing in the establishment of a new train station at Woollahra. This will support the delivery of up to 10,000 new homes through a state-led rezoning around the new Woollahra station and the existing Edgecliff station
- supporting active transport with the Inner West GreenWay, a new shared path next to the newly opened M12, and commencing design and early works to deliver a continuous pedestrian and cycling link adjacent to the Southwest Metro rail corridor that will feature extra footpaths, new separated cycleways, shared zones and designated pedestrian and cyclist road crossings
- delivering new housing directly including 8,400 new and replacement social homes to be delivered through the Building Homes for NSW Program by 2031, with the assistance of reforms designed to streamline planning approvals and expedite major housing developments.

Box 1.2: Sydney's first major new inner-city suburb in decades

In May 2026, the NSW Government announced the transformation of Bays West, which will deliver the following outcomes:

- up to 8,500 well-located homes, including a minimum of 10 per cent affordable and essential worker housing
- a new suburb located just minutes from the Sydney CBD and connected to a world-class metro, walking and cycling links and a future ferry wharf
- new public open space and improved access to the waterfront
- improved connectivity and active transport links including across Glebe Island Bridge
- White Bay Power Station strengthened as a cultural and community destination at the heart of the new suburb.

Detailed planning is underway including the upcoming launch of an international design competition which will guide the development of the suburb.

Water infrastructure to support new homes

The delivery of water infrastructure underpins the Government's housing plans. Large investment in water infrastructure is needed to support a growing population with additional homes and employment precincts.

This Budget will prioritise infrastructure projects and programs which will provide long-term water security and improved access to quality water supplies.

Following the Independent Pricing and Regulatory Tribunal's (IPART) Final Determination for Sydney Water in September 2025, Sydney Water updated its five and ten-year Capital Investment Plan (CIP) to align with the determination's capital expenditure envelope and NSW Government priorities. The revised CIP prioritises increased investment to support housing growth, maintain regulatory compliance, and renew ageing infrastructure.

Key projects currently underway include:

- over \$2.0 billion in major North West Treatment Hub upgrades of water resource recovery facilities at Rouse Hill, Castle Hill, Richmond, Riverstone and Quakers Hill. This will accommodate expected population growth across Sydney's North West
- the \$1.2 billion Upper South Creek Advanced Water Recycling Centre (Stage 1) which will be completed in line with the opening of the Western Sydney International Airport in 2026. As well as servicing the new airport, the centre will provide reliable wastewater services to 400,000 people in South West Sydney by 2056
- over \$1.0 billion for works at the Liverpool and Glenfield water resource recovery facilities to upgrade the Malabar wastewater system
- approximately \$1.0 billion being invested in the Upper South Creek Networks program. This services 130,000 new dwellings and will create 217,000 new jobs by 2056 across the catchments stretching from North Luddenham in the north, Catherine Fields in the south, Badgerys Creek in the east and Duncans Creek to the west.

Energy infrastructure for a more reliable and affordable electricity supply

The Government is investing \$2.5 billion over four years via the Transmission Acceleration Facility to drive the energy transition to support productivity, investment and long-term economic resilience.

Access to reliable and affordable energy supply enables growth and supports industry. The transition to renewable energy will ensure reliable, affordable and secure electricity is available for households and businesses. Investment in enabling infrastructure will support the timely delivery of renewable generation and reduce long-term energy costs through a once-in-a-generation transformation of NSW's power system, to keep the lights on and put downward pressure on prices as coal-fired power stations retire.

The transition to renewable energy will also support employment and economic activity in regional communities, including through the delivery, operation and maintenance of new energy infrastructure. The transition will also create additional demand for workers in local manufacturing, retail, transport and the supply of goods and services.

Over time, this investment will strengthen energy security and support productivity across the State.

1.3 Delivery of essential school infrastructure, hospitals, transport and roads

The NSW Government is delivering a significant pipeline of essential infrastructure to support population growth, improve access to services and strengthen communities across the State.

Investment in school infrastructure, metros, hospitals and road networks is ensuring that essential services keep pace with increasing demand, particularly in growing urban and regional areas.

These investments support reliable and accessible transport, expand education capacity, enhance healthcare services and improve connectivity, helping to drive economic activity and improve quality of life for communities across New South Wales.

Table 1.1: Top 10 approved hospitals by ETCs under construction

Project name	Year commenced	Latest Approved ETC \$m
Bankstown Hospital (New)	2026	2,000.0
Nepean Hospital and Integrated Ambulatory Services Stages 1 and 2	2018	1,031.0
Royal Prince Alfred Hospital Redevelopment	2023	940.0
Rouse Hill Hospital	2026	910.0
John Hunter Health and Innovation Precinct	2022	890.0
Liverpool Health and Academic Precinct	2020	880.0
Shellharbour Hospital and Integrated Services (New)	2023	828.9
Fairfield Hospital	2026	630.0
Integrated Mental Health Complex at Westmead	2023	540.0
Ryde Hospital Redevelopment	2023	526.8

Box 1.3: Enhancing network connectivity and helping to deliver more homes in well located areas with delivery of the Sydney Southwest Metro Line and continued construction of the broader Sydney Metro project

The NSW Government will open the Sydney Southwest Metro Line this year. This will become part of the M1 Northwest & Bankstown Line.

The completion of the Sydney Southwest Metro Line addresses one of Sydney's biggest rail bottlenecks and will increase train frequency to 15 trains per hour during peak periods, providing capacity for an additional 100,000 passengers per hour across the broader metro network.

Delivery of the Southwest Metro converted 13 kilometres of century-old heavy rail into a high-frequency, fully automated metro system. The Southwest Metro enhances network capacity, reliability, and accessibility for Southwest Sydney.

This required extensive civil and systems engineering, including the complete modernisation of 11 stations to meet metro standards. By retrofitting all stations with lifts, level access, and modern safety systems like platform screen doors, the project sets a new standard for accessibility and passenger experience on a legacy rail corridor.

The project delivers new, direct, and faster services to key economic hubs such as Barangaroo, North Sydney, Chatswood, and Macquarie Park, seamlessly integrating Southwest Sydney into the city's expanding metro network.

Tough choices have been made by government to get the project delivered faster than would have otherwise been the case, including full closure of the Sydenham to Bankstown line in September 2024. During the conversion period, free pink Southwest Link buses have been providing frequent services running from early in the morning until late at night.

An interim cycleway and pedestrian path between Sydenham and Marrickville stations was fast tracked and has been supporting commuters to get around during the conversion. The path is the first part of a new 17km walking and cycling path along the alignment, set to be completed within around a year of Metro opening to Bankstown.

The Sydney Metro network is Australia's biggest public transport investment and most technically advanced railway.

Sydney's metro network includes the currently operational M1 line from Tallawong to Sydenham and three lines under construction:

- Sydney Southwest Metro extending the existing M1 line from Sydenham to Bankstown
- Sydney Metro West from Westmead to Hunter Street in the Sydney CBD
- Sydney Metro – Western Sydney Airport from St Marys to Bradfield Station at the new Western Sydney International Airport.

The NSW Government will deliver six new metro stations for the Sydney Metro Western Sydney Airport line between St Marys and Bradfield City Centre. This new 23-kilometre railway will link residential areas with job hubs including the new Bradfield Metro Station and connect travellers from the new airport to the rest of Sydney's public transport system.

The Sydney Metro West project, a new 24-kilometre underground metro railway, will double rail capacity between Parramatta and the Sydney CBD. Stations have been confirmed at Westmead, Parramatta, Sydney Olympic Park, North Strathfield, Burwood North, Five Dock, The Bays, Pyrmont and Hunter Street in the Sydney CBD. Sydney Metro West is targeting an opening date of 2032.

These new metro stations form part of the Government's commitment to building more homes in well-connected parts of Sydney, close to jobs, transport and services.

Infrastructure for Western Sydney

Over the next four years, the NSW Government is investing to deliver major enabling infrastructure that will support ongoing population, business and industry growth and improve liveability across Western Sydney. This includes infrastructure for the new international airport, new and expanded metro lines and stations, road upgrades, and cultural facilities.

This strategic investment reflects the Government's commitment to ensuring Western Sydney communities are well connected and have access to the essential services required for people to live, work and raise families close to where they live.

Elizabeth Drive is a key east-west corridor in Western Sydney and is being upgraded to a four lane divided road between the M7 Motorway at Cecil Hills and The Northern Road at Luddenham to improve traffic flow, safety and connectivity. This Budget includes an additional \$200.0 million from the NSW and Australian Governments to deliver additional scope and accelerate the project, bringing the total project funding to \$1.0 billion. The upgraded road will provide direct access to the Western Sydney Airport and future adjacent employment areas as well as connect to north-south corridors that are enabling the growth of nearby areas.

The NSW Government is introducing new bus services to connect Penrith, Oran Park, Campbelltown, Liverpool, Mount Druitt and Leppington with local centres, the Western Sydney International Airport and the emerging Bradfield City Centre.

A free shuttle bus service (WSI Link) will run every 30 minutes between St Marys train station and bus interchange and the Western Sydney International airport kerbside from first passenger flights, giving passengers and workers a public transport connection from day one. The new bus services will commence in July 2026 and aim to connect people to local education and health precincts, employment, retail and leisure centres, and the broader public transport network.

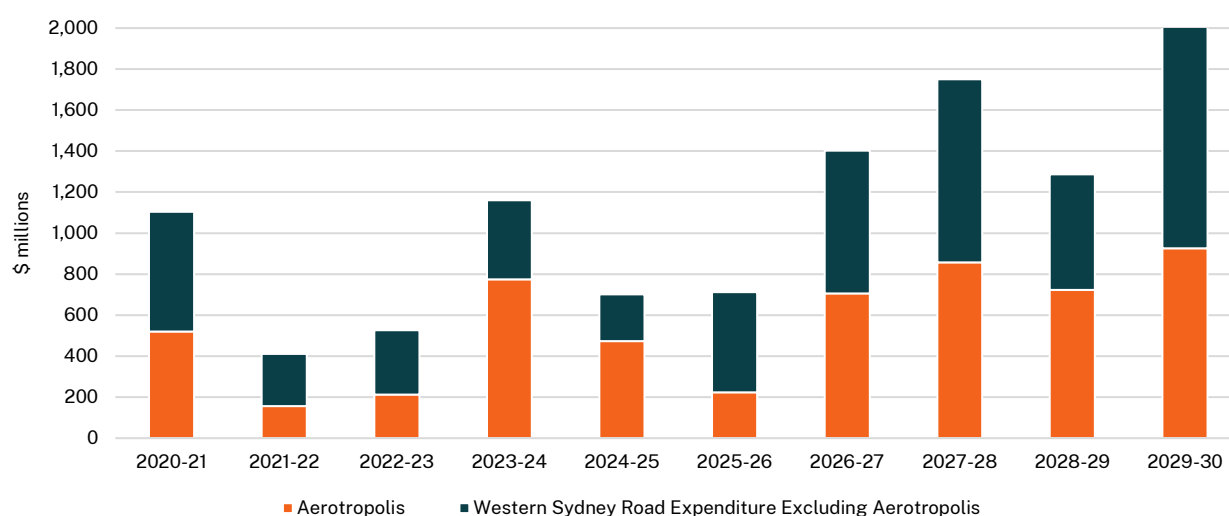

Transport connections in and around North West Sydney will be improved to support the delivery of the first new hospital in Western Sydney in over 40 years – Rouse Hill Hospital. The NSW Government, in partnership with the Australian Government, will invest \$400.0 million (\$365.0 million over the four years to 2029-30) for Windsor Road upgrades at Rouse Hill to improve capacity, reduce congestion and ensure safe access to the new Rouse Hill Hospital.

The NSW Government is also addressing long-standing gaps in education infrastructure in Western Sydney by delivering 12 new and upgraded schools and co-located new and ongoing early learning at 13 public school sites. This will ensure children have access to permanent and high-quality education facilities close to where they live.

Infrastructure investments totalling \$9.2 billion over the next four years will support the delivery of new and upgraded schools in priority growth areas, including \$4.1 billion for Western Sydney. This includes:

- Austral South new primary school
- Austral new high school
- Bella Vista new high school
- Bella Vista West new primary school
- Castle Hill High School Planning (for the long term future)
- East Cobbity new primary school
- Marsden Park South new primary school
- Menangle Park new primary school
- Nangamay Public School Upgrade – Stage 2
- Oran Park North new primary school
- Orchard Hills new primary school
- Rydalmere new high school
- Spring Farm Public School Upgrade.

Chart 1.5: Capital expenditure on Western Sydney roads, including Aerotropolis capital expenditure 2020-21 to 2029-30

Box 1.4: Western Sydney Aerotropolis to transform Western Sydney

The Western Sydney Aerotropolis is an 11,200-hectare economic hub centred around the new Western Sydney International (Nancy-Bird Walton) Airport.

Significant activity is underway ahead of the new Western Sydney International (Nancy-Bird Walton) Airport opening in late 2026. Bradfield City will support the transformation of the NSW economy through the rebuilding of sovereign capability by diversifying industries. As of mid-2026 there is development in the pipeline that will generate 73,000 permanent jobs, and there will be approximately 120,000 permanent jobs by the time the Aerotropolis is fully developed in 2060.

The Aerotropolis Sector Plan released in March 2025 clearly outlined the NSW Government's coordinated sequencing and prioritisation of transport and water infrastructure in and around the Aerotropolis. Since its release, there have been a number of key updates and achievement of accelerated outcomes, including:

- M12: open to traffic - previously due to open by 2027
- Badgerys Creek Road South: Interim safety upgrades complete six months ahead of schedule
- Devonshire Road: New investment provided for the development of the final business case in the 2025-26 NSW Budget: underway and due 2027 – accelerated from 2040
- Devonshire Link Road (Mamre Rd to Devonshire Road and M12 Access): New investment provided for development of the final business case in the 2025-26 NSW Budget and as part of the Australian Government election commitment: underway and due in 2027 – accelerated from 2030
- Elizabeth Drive: Upgrade to 2.2 kilometre of Elizabeth Drive at Western Sydney International Airport completed (includes new onramps to M12 motorway)
- Luddenham Road: New investment provided in the 2025-26 NSW Budget for delivery of intersection upgrade (signalisation) at Elizabeth Drive – due 2027 – accelerated from 2030
- Mamre Road Stage 1: Progress underway and due for completion in 2028 – accelerated from 2030
- Western Sydney Bus Services – Phase 1: Initial services commence mid (July) 2026.

The region is rapidly transforming into a multi-billion-dollar metropolis unlocking opportunities for future focused industries to tap into the world's biggest supply chains including: advanced manufacturing, technology, research, training and education, freight and logistics, the circular economy, agribusiness, and mixed-use development with the new airport and Bradfield City Centre at its core.

This hub of new opportunity in the Aerotropolis will drive innovation and create better paid and highly skilled jobs closer to where people live in Western Sydney, laying the foundations for a brand new world-class city in Western Sydney. The First Land Release will deliver the first 1,400 homes in Bradfield City, as well as commercial opportunities, a university campus next to the Advanced Manufacturing Readiness Facility (AMRF), essential services including childcare and health, a hotel, retail, and a landmark food and beverage venue.

Box 1.5: Delivery of the toll-free M12 Motorway, connecting the Western Sydney airport to the Aerotropolis

On 14 March 2026, the NSW Government opened Western Sydney's new, state-of-the-art motorway.

As a direct gateway to Western Sydney International Airport, the new toll-free motorway is critical to the future of Western Sydney where communities will benefit from reduced travel time, less congestion on local roads, and improved connectivity with the rest of Sydney's road network.

The motorway connects Elizabeth Drive in the east to The Northern Road in the west, delivering an intersection-free, 100 kilometres per hour run straight to the airport. It will serve as the key gateway to the new airport and the Western Sydney Aerotropolis, which is set to become a thriving innovation precinct and create thousands of jobs for the region.

The M12 is designed to seamlessly integrate with the wider road network, improving connectivity for motorists and freight operators across Sydney. The final component – the M7/M12 Interchange at Cecil Hills – opened on 14 June 2026, delivering a motorway-to-motorway and intersection-free connection between the M12 and the M7.

The M12 improves travel time reliability, freight efficiency and global market access for firms locating in the region.

The investment in the M12 also supports the growth of higher-value jobs in industries that rely on advanced skills, technology and global connectivity, such as advanced manufacturing, aerospace, logistics, agribusiness and research-intensive activities.

Box 1.6: \$3.8 billion over four years to deliver vital health services for the growing population in Western Sydney

The NSW Government is continuing to invest in health infrastructure to ensure communities across the State have access to high-quality healthcare closer to where they live. This Budget will support the delivery of much-needed new and upgraded contemporary healthcare facilities for the growing communities of Western Sydney.

The Government is delivering a range of new and upgraded facilities including:

- a new hospital at Rouse Hill. Construction commenced as of early 2026. The new Rouse Hill Hospital will include an emergency department, comprehensive maternity services, inpatient beds, day surgery, short-stay medical assessment, and pathology, pharmacy and medical imaging. It will also deliver outpatient and ambulatory care, including paediatrics and renal dialysis.
- a new hospital at Bankstown. Early work has begun and construction is due to commence in 2027. The new hospital will be built in the Bankstown city centre, located on Chapel Road close to bus and train services, and the new Metro. It will include acute services such as an expanded emergency department, operating theatres and intensive care, services for women and children (including maternity), mental health, and parking.
- upgrades to Canterbury Hospital. The \$400.0 million investment into Canterbury Hospital is the largest upgrade to the hospital in the last 26 years. The upgrade will improve patient care and enhance the hospital's ability to serve the diverse Canterbury community. The project is in its final design stages and will deliver an expanded intensive care unit, new adult inpatient accommodation, an enlarged emergency department, additional theatres, enhanced antenatal facilities, increased outpatient and ambulatory capacity, and upgraded infrastructure to support clinical education, workforce training and research.
- upgrades to Fairfield Hospital. Early works commenced in March 2026. The \$630.0 million redevelopment will include additional campus parking capacity, including a new multi-storey car park, as well as a new clinical services building, which will be built alongside the existing hospital. The clinical services building will include a new and expanded emergency department, intensive care unit, medical imaging, operating theatres and inpatient units. A redesigned main vehicle entry will create separate entry points for visitors, staff and ambulances, and updated main building entrance and drop-off areas will provide easy access to a new main foyer, reception, and existing hospital buildings.
- completion of Stage 2 Redevelopment of the Children's Hospital at Westmead. The newly opened 14-storey Paediatric Services Building at Westmead Children's Hospital features a major expansion of surgical and intensive care facilities and will mean more children can get more complex care, surgery and intensive treatment in one place and closer to home. Forming the centrepiece of the \$659.1 million Stage 2 Redevelopment, the new building brings acute and critical healthcare services closer together to streamline care for children and young people from across the State.

More details of this investment can be found in the *Western Sydney: Supporting families, securing our future* Budget publication.

Delivering for regional communities

The 2026-27 Budget delivers infrastructure in regional and rural New South Wales. Important projects being delivered for regional communities include:

- over the next four years, \$3.0 billion will be invested in new and upgraded health facilities for regional and rural communities across New South Wales, including \$1.1 billion in 2026-27. This includes:
 - new maternity unit at Grafton Hospital worth \$20.0 million
 - \$9.9 million for robotic surgery research and capability at Orange Health Service
 - \$1.0 million to plan for future paediatric oncology service needs for children living in Hunter New England and the North Coast.
- over the next four years, up to \$2.3 billion will be invested to deliver new and upgraded schools across regional New South Wales
- \$910.9 million to restore local and state roads and other essential public assets damaged by natural disasters
- \$209.2 million to improve and expand the Public Safety Network, ensuring reliable communications for emergency services and addressing critical asset, operational and greater coverage across New South Wales
- \$160.9 million to continue the Belmont Desalination Project.

More details of this investment can be found in the *Our Plan for Regional NSW Budget* publication

1.4 Four-year capital program

The Government's infrastructure program is forecast to be \$116.7 billion over the four years to 2029-30. Table 1.2 provides a reconciliation of capital expenditure between the 2025-26 Half-Yearly Review and the 2026-27 Budget.

Table 1.2: Capital expenditure reconciliation

	2025-26 Revised \$m	2026-27 Budget \$m	2027-28 \$m	2028-29 Forward Estimates \$m	2029-30 \$m
Capital – 2025-26 Half-Yearly Review	28,170	28,566	27,701	27,057	n.a.
Variations since 2025-26 Half-Yearly Review	1,939	1,605	2,349	1,962	n.a.
Capital – 2026-27 Budget	30,109	30,171	30,049	29,019	27,503

Breakdown of the capital program

Table 1.3 details the breakdown of capital expenditure by agency group. Approximately half of the program reflects the Government's investment in transport infrastructure, which includes large scale projects such as Sydney Metro City and Southwest and the Western Harbour Tunnel. Significant investment is also proposed for the state-owned water corporations including Sydney Water and Hunter Water. The program also includes on going investment in Health and Education infrastructure over the four years to 2029-30.

More information on individual agency capital programs is provided in Chapter 2.

Table 1.3: Non-financial public sector capital spending by Agency group^(a)

	2026-27 Budget \$m	2027-28 Forward Estimates \$m	2028-29 Forward Estimates \$m	2029-30 Forward Estimates \$m	Four-year total \$m	%
Transport ^(b)	15,242	16,733	15,390	12,859	60,224	51.6
Health ^(c)	3,502	3,084	2,798	2,017	11,401	9.8
Education and Skills	3,339	2,414	2,496	3,025	11,274	9.7
Planning, Housing and Infrastructure	938	972	625	458	2,993	2.6
Communities and Justice	2,266	1,842	1,573	1,607	7,288	6.2
Climate Change, Energy, the Environment and Water	2,050	1,606	614	424	4,693	4.0
Customer Service	330	276	131	136	873	0.7
Creative Industries, Tourism and Hospitality	279	104	79	75	537	0.5
Primary Industries and Regional Development	78	58	34	34	204	0.2
Treasury ^(d)	34	42	37	5	119	0.1
Water Entities (State-owned Corporations) ^{(e) (f)}	3,997	4,021	3,826	3,587	15,431	13.2
Other ^(g)	(1,885)	(1,102)	1,416	3,277	1,705	1.5
Total	30,171	30,049	29,019	27,503	116,743	100.0

(a) Numbers represented in the table are on an eliminated portfolio basis. This table does not align with individual agency reporting elsewhere in these Budget Papers which is done on an uneliminated basis.

(b) Includes Transport PNFC agencies.

(c) Health uneliminated spending on capital is forecast to total \$11.9 billion over the four years to 2029-30, which includes capital expensing. Table 1.3 does not include \$117.1 million in 2026-27, \$117.1 million in 2027-28, \$117.1 million in 2028-29, and \$117.1 million in 2029-30 for capital spending for the construction of health capital projects which fall below a capitalisation threshold and are not reported as capital expenditure.

(d) Excludes infrastructure expenditure classified as inventory in accordance with Australian Accounting Standards

(e) Comprised of WaterNSW, Sydney Water Corporation and Hunter Water Corporation.

(f) The capital expenditure profiles for Water utilities are based on IPART's final price determinations issued in 2025.

(g) Comprised energy and property PNFC agencies. 2026-27 budget allocations are set out in Chapter 5. Also includes provisions and slippage forecasts not allocated to an agency.

1.5 Australian Government contributions to the State capital program

Australian Government funding

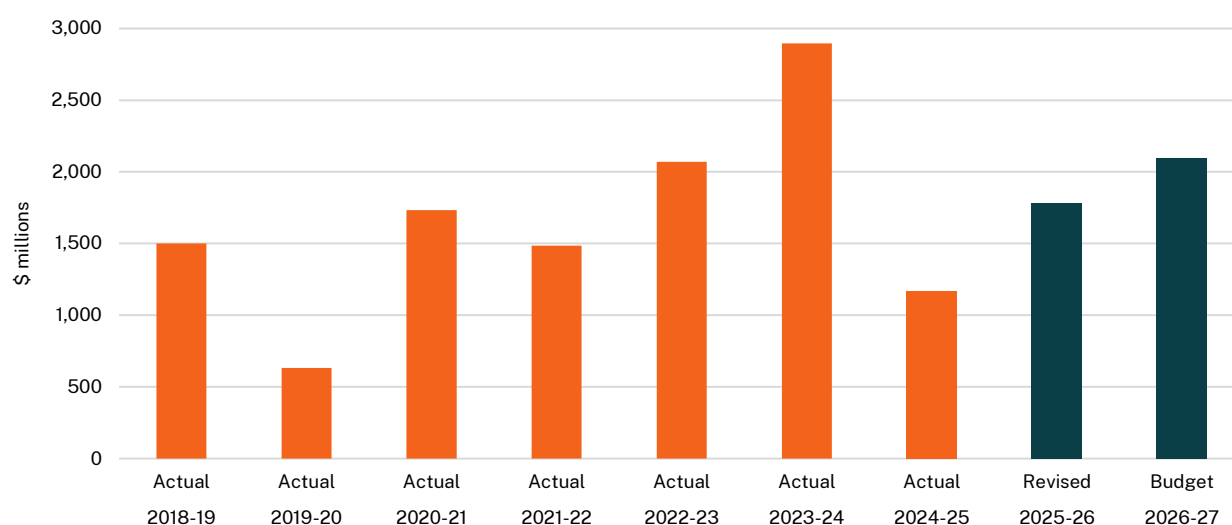

The Australian Government co-funds selected infrastructure projects across New South Wales and is forecast to contribute \$10.2 billion to NSW's infrastructure program over the four years to 2029-30.

The Australian Government is making contributions to key projects including:

- \$700.0 million to upgrade Fifteenth Avenue in Western Sydney, connecting Western Sydney International Airport, the Aerotropolis, Bradfield City Centre and Liverpool. This will enable faster and easier travel and improve liveability for people living in Liverpool and nearby areas
- \$250.0 million for the Mona Vale Road upgrade
- \$115.0 million to upgrade Terrigal Drive
- \$110.0 million to progress the next stage of upgrades to Henry Lawson Drive
- \$45.0 million for upgrading M1 Pacific Motorway between Wahroonga and Beresfield.

Chart 1.6 shows the Australian Government's contribution to the total state capital program over the years between 2018-19 and 2026-27.

Chart 1.6: Australian Government contribution to the State capital program, 2018-19 to 2026-27 based on actual and revised project timeline

The 2026-27 Australian Government Budget announced that New South Wales will receive \$3.7 billion in infrastructure funding in 2025-26 and \$11.7 billion over the four years to 2029-30.

This equates to 22 per cent of total Australian Government infrastructure funding in 2025-26, a decrease from 26 per cent in 2024-25, and averages 18 per cent across the four years to 2029-30. NSW's forecast average share of the national population is around 31 per cent.

The figures in Chart 1.6 may not align with the aggregate funding profile announced in the Australian Government budgets which reflect proposed project profile.

1.6 Existing assets and maintenance program

Existing assets

The upkeep, upgrade and maintenance of the State's existing assets is vital to the ongoing delivery of uninterrupted public services. It maximises value for taxpayers and avoids costly future remediation. Proactive upgrades and maintenance extend infrastructure lifespan, supports community resilience and avoids unexpected asset failures.

Table 1.4 shows how the State's asset base will grow with the support of Government's ongoing infrastructure investment.

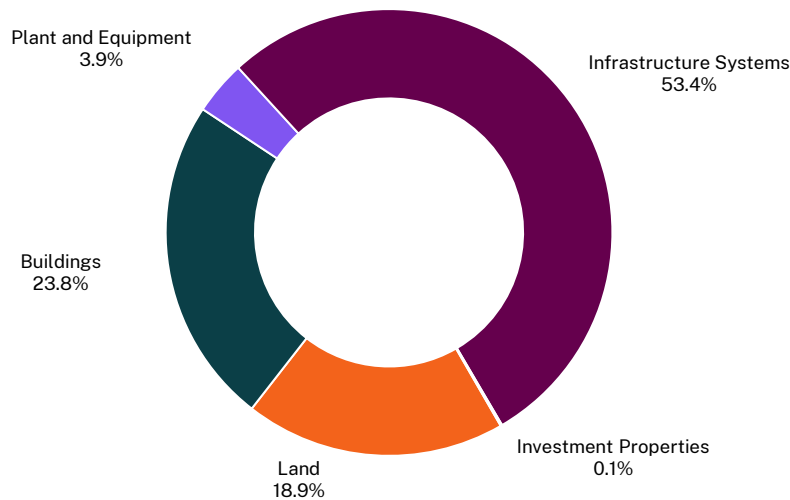

Table 1.4: State owned physical assets: value by sector^{(a)(b)}

As at 30 June	2023 Actual \$m	2024 Actual \$m	2025 Actual \$m	2026 Revised \$m	2027 Budget \$m
General Government Sector	349,717	378,870	399,073	416,838	428,393
Public Non-Financial Corporations	138,836	174,373	182,310	188,168	195,079
Total^(c)	488,600	553,765	582,131	604,973	623,422

(a) Net of accumulated depreciation.

(b) Includes investment properties.

(c) Consolidated total may not equal the sum of the individual sectors due to differences in classification between the individual sectors and the consolidated sector.

Chart 1.7: State owned physical assets: value by type, as at 30 June 2025

Infrastructure systems are assets that comprise public facilities and provide essential services to the community and businesses. They also enhance the productive capacity of the economy, including roads, bridges, and water infrastructure and distribution works.

Infrastructure maintenance

Agencies maintain their physical assets to support the delivery of high-quality services. Ongoing maintenance of these assets is vital to ensure the State's asset base can provide the services people need.

Table 1.5 shows the forecast maintenance expenditure estimates for the general government and public non-financial corporations sectors across the four years to 2029-30.

Table 1.5: Maintenance expenses^(a)

	2025-26		2026-27	2027-28	2028-29	2029-30
	Budget \$m	Revised \$m	Budget \$m	\$m	Forward estimates \$m	\$m
General Government Sector	2,886	3,071	3,016	3,117	3,247	3,335
Public Non-Financial Corporations	3,011	3,083	3,323	3,172	3,180	3,192
Total	5,916	6,129	6,314	6,264	6,398	6,497

(a) Total spending may not equal the total of general government and PNFC expenditure due to intra-sector purchases.

2. Infrastructure investment supporting essential services, housing and communities

The NSW Government continues to invest in infrastructure to improve the delivery of essential services across housing, health, transport, education and other key portfolios. In the 2026-27 Budget, the focus remains on delivering essential infrastructure that supports growing communities, improves productivity, supports employment and strengthens liveability across New South Wales.

This Budget continues the disciplined delivery of the State's infrastructure program while responding to ongoing financial and delivery challenges, including elevated construction costs, labour and supply chain pressures and inflationary impacts.

The total infrastructure investment includes new projects, updated project delivery timeframes, reprioritisation and cost management to ensure infrastructure delivery remains aligned with capacity, need and prevailing economic conditions.

Highlights of the NSW Government's current infrastructure pipeline include:

- \$60.2 billion for public transport, roads and infrastructure, supporting improved connectivity, capacity and reliability across metropolitan and regional networks
- \$11.9 billion for health infrastructure, delivering new and upgraded hospitals and health facilities to meet increasing demand for services as our population grows
- \$11.3 billion for schools and skills infrastructure, providing new and expanded education facilities to support enrolment growth and high-quality learning environments
- \$4.7 billion for the climate change, energy, the environment and water infrastructure portfolio, supporting the transition to a cleaner energy system, environmental resilience and long-term water security.

2.1 Climate Change, Energy, the Environment and Water

The Department of Climate Change, Energy, the Environment and Water leads the NSW Government’s response to climate change, the transition to a cleaner energy system and the protection of the State’s natural and cultural environment.

\$4.7 billion	Capital Expenditure to 2029-30
\$2.1 billion	Capital Expenditure 2026-27

The NSW Government is advancing the transition to a net zero economy by supporting the delivery of affordable, reliable and clean energy, while strengthening resilience to climate impacts. It is also working to conserve and protect the State’s natural environment, including managing the NSW National Park Estate and safeguarding biodiversity and First Nations cultural heritage for future generations.

The NSW Government is responsible for the sustainable management of water resources across New South Wales, balancing the needs of the environment, communities and industry to ensure long-term water security.

This Budget includes capital investment of \$4.7 billion in Climate Change, Energy, the Environment, Heritage and Water Portfolio entities over the four years to 2029-30. Sydney Water Corporation, Hunter Water Corporation, and WaterNSW are also planning to support new housing by delivering major new capital infrastructure and renewing ageing assets. Additional information can be found in the public financial corporations’ project listings in Chapter 5 of this Budget Paper.

Box 2.1: Energy Projects

The 2026-27 Budget includes the following renewable energy related capital projects to support the transition to a cleaner, more affordable and reliable energy future:

- \$224.8 million for the South West Renewable Energy Network Infrastructure project which will support delivery of the full 2.5 Gigawatts of network transfer capacity in the South West Renewable Energy Zone (REZ). This project will enable the connection of four renewable energy projects which will unlock over \$17.0 billion of private investment in the region.
- an additional \$39.0 million over four years for projects funded through the Transmission Acceleration Facility to enable development of the next set of network upgrades required for NSW energy security, taking the total investment to \$4.7 billion. This investment will enable planning and development of future renewable energy network infrastructure upgrades to meet the increasing demand for energy.

Table 2.1: Key new Climate Change, Energy, the Environment and Water projects commencing in 2026-27 included in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
South West Renewable Energy Network Infrastructure Project		
This project accelerates delivery of key network infrastructure to enable the full 2.5 Gigawatts of network capacity by 2029 for the four wind, solar and battery projects that have been granted access rights.	\$224.8 million	\$224.8 million
Threatened Species Conservation – Land Acquisition		
Acquisition of important refugial and breeding habitat for inclusion into the National Parks estate to strengthen the long-term protection and management of threatened species and ecosystems and prevent further extinctions.	\$40.9 million	\$40.9 million
Australian Bushland Program		
The Australian Government component of the Australian Bushland Program to grow protected and conserved areas by 150,000 ha to support progress towards the 30 by 30 target and the vision of Australia's Strategy for Nature.	\$22.8 million	\$22.8 million
Plan for Nature – Land Acquisition		
Acquisition of high value biodiversity land into the National Parks estate for sustainable conservation.	\$13.3 million	\$13.3 million
Wildlife Licensing and Conservation Enforcement		
A new ICT-based regulatory platform to modernise wildlife licensing processing and improve compliance procedures under the <i>Biodiversity Conservation Act 2016</i> .	\$6.8 million	\$6.8 million
NSW Coastal and Flood Data Network		
Renewal and upgrades of critical infrastructure across the NSW Coastal and Flood Data Network including flood and estuary water level stations, rainfall stations, tide gauges and offshore waverider buoys, which provide data for emergency weather warnings, natural hazard and disaster modelling, climate change adaptation, land use planning and infrastructure design.	\$5.1 million	\$5.1 million
Energy Security Intelligence System		
Investment to develop an energy security system to track development of new infrastructure projects.	\$3.5 million	\$3.5 million
Regional Corridors Upgrade Program – Muswellbrook to Armidale Phase 1		
Delivering targeted upgrades to key road corridors.	n.a.	n.a.

Table 2.2: Key Climate Change, Energy, the Environment and Water projects continuing in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Transmission Acceleration Facility The Facility will help fast-track critical energy infrastructure to deliver lower cost and more reliable energy for all New South Wales consumers including: - Central-West Orana Renewable Energy Zone - New England Renewable Energy Zone - Hunter Transmission Project. The Transmission Acceleration Facility is a \$2.4 billion recycling funding facility which provides development funding for projects and early community and employment benefits which is later recovered from private network operators. This replenishes the Facility to support additional projects with final repayments by 2040.	\$4.7 billion	\$2.2 billion
Central West Orana REZ Delivery and Construction Phase The Central West Orana REZ has moved into the delivery phase. While the network operator, ACERREZ, is constructing the renewable energy network infrastructure, EnergyCo has a budget allocation to finalise land acquisitions and the biodiversity offsets required under the planning approvals as well as overseeing delivery by ACERREZ.	\$611.1 million	\$348.9 million
Sustainable Diversion Limit Adjustment Mechanism (SDLAM) An Australian Government funded program improving river flow management, replacing ageing infrastructure and supporting native fish populations in the Murrumbidgee and Murray regions.	\$324.1 million	\$196.6 million
Regional Corridors Upgrade Program - Newcastle to Dubbo – Phase 1 Infrastructure upgrades of regional roads and the Newcastle Port to enable the safe and timely transport of large renewable energy equipment components. The transport of this equipment is necessary for REZ projects and other NSW Electricity Infrastructure Roadmap and Australian Government energy projects in regional New South Wales.	\$181.6 million	\$104.2 million
National Parks Strategic Fire Trail Network Upgrades Upgrade of strategic fire trails in national parks, to support the effective management of bushfires to prevent loss of life, property and biodiversity.	\$177.3 million	\$45.0 million
Improving Access to National Parks Improving access to the natural beauty of New South Wales national parks and supporting local tourism by upgrading and extending walking trails and improving visitor infrastructure and facilities.	\$149.6 million	\$1.0 million
National Parks Visitor Infrastructure Management Investing in National Parks visitor facilities, so they are safe, accessible, open and ensure increasing visitor demand can be managed sustainably.	\$127.2 million	\$53.9 million
Reserve Establishment and Activation Continuing investment to support the establishment and activation of reserves, fill critical gaps in the national parks estate and enhance regional tourism and economic benefits.	\$120.0 million	\$3.0 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Newcastle Port Logistics Precinct Acquisition and construction of a port logistics precinct at the Port of Newcastle to enable temporary storage of oversize overmass components to ensure the safe and steady transportation of these large components to Central West Orana, New England and Hunter-Central Coast REZs.	\$115.5 million	\$93.0 million
Hunter Valley Flood Mitigation Scheme Continued investment in the Hunter Valley Flood Mitigation Scheme will strengthen regional flood resilience through the restoration of critical flood mitigation assets.	\$113.7 million	\$73.1 million
Constraints Alleviation Measure Infrastructure This Australian Government funded program aims to secure up to 40 per cent of the flow corridor in the Murrumbidgee by December 2026, facilitating flows up to the maximum rate permitted under the Water Sharing Plan, with a total expenditure including operational expenditure of \$255.6 million.	\$95.7 million	\$73.5 million
Dorrigo Escarpment Walk and the Arc Rainforest Creating a four-day, three-night walk through World Heritage rainforest and towering eucalypts that will feature dramatic escarpments and scenic waterfalls. Working in partnership with local First Nations groups, capital works include a new visitor centre, elevated treetop walkway and visitor accommodation.	\$56.4 million	\$44.6 million
Northern NSW Fish Passage Removing river constraints to boost native fish populations in northern New South Wales, funded through the Northern Basin Toolkit program.	\$53.5 million	\$31.4 million
Nyngan to Cobar pump station replacement Replacing pump stations along the Nyngan to Cobar pipeline, supporting communities and industries in central New South Wales.	\$48.3 million	\$26.7 million
Georges River Koala National Park The establishment of a new Georges River Koala National Park to protect one of the largest koala populations in metropolitan Sydney. The project includes construction of visitor infrastructure such as walking and cycling paths, amenity blocks and carparks to support recreational activities.	\$47.9 million	\$30.1 million
National Parks and Wildlife Service's Infrastructure Betterment Fund Projects National Parks and Wildlife Service's Infrastructure Betterment Fund projects support the rebuilding of infrastructure in a way that reduces vulnerability to future disasters, provides continuity of essential services and lowers the risk of economic impact due to a natural disaster.	\$41.9 million	\$9.8 million
Wilcannia Water Security Upgrading water security in the Central Darling Shire, as well as delivering job training and enhancing cultural connection through the development of a Community River Place.	\$38.6 million	\$24.0 million
Me-Mel (Goat Island) Remediation Remedial works to clean up and repair Me-Mel Island in Sydney Harbour ahead of transferring ownership back to traditional owners. Works will include the repair of seawalls and buildings, improved wharf access, upgraded services and the removal of contaminants such as asbestos and lead.	\$35.3 million	\$22.6 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Great Koala National Park To preserve large tracts of koala habitat on the Mid-North Coast of New South Wales.	\$28.5 million	\$24.4 million
National Parks Radio Network - Migration to the Public Safety Network Enabling the successful migration of the National Parks and Wildlife Service's radio network onto the NSW Public Safety Network. The Public Safety Network consolidates standalone radio networks of over 70 NSW Government agencies onto one network, as part of the NSW Government's response to the NSW Bushfire Inquiry.	\$22.2 million	\$4.3 million
Air Quality and Environmental Monitoring Program Critical works to expand and maintain the New South Wales air quality monitoring network, and to support essential computing infrastructure enabling real time air quality alerts and forecasting for government, communities and individuals.	\$21.4 million	\$10.3 million
Enabling Frontline Conservation Construction of additional feral predator free areas in Mutawintji and Yathong and a new replacement helicopter for statutory firefighting.	\$15.1 million	\$7.7 million
Biodiversity Offset Scheme ICT systems Development of digital biodiversity offset obligation and authority registers and upgrades to existing systems to maintain security and validity of information.	\$14.6 million	\$12.3 million
Wolli Creek Regional Park Incorporation of additional land within Wolli Creek Regional Park to protect the diverse ecosystem and threatened species within the park. The Park provides valuable open space in the urban environment of inner South-West Sydney.	\$8.8 million	\$7.4 million
Protect Koalas of Southern Sydney The protection of wildlife corridors in Woronora Heights Southern Sydney to support critical koala habitat and the movement of wildlife.	\$6.2 million	\$1.8 million
Lord Howe Island - Marine Infrastructure Providing for the continuation of a marine freight service that meets biosecurity standards for a World Heritage listed site and meets essential community needs.	n.a.	n.a.
Lord Howe Island - Waste Management Facility Upgrade Upgrade to the existing Waste Management Facility on Lord Howe Island to ensure enduring compliance with legislative and regulatory requirements.	n.a.	n.a.

Pages 4-6 to 4-11 of Chapter 4 of this *Infrastructure Statement* list the major capital projects and minor works for the Climate Change, Energy, the Environment and Water agencies, including the ETC, estimated expenditure to 30 June 2026, and 2026-27 allocation.

2.2 Communities and Justice

Communities and Justice agencies deliver services to the community that support a safe, just, inclusive and resilient New South Wales. They operate the State's legal and justice system, provide policing services, increase access to social and affordable housing, protect children and families, respond to domestic and family violence and work to reduce reoffending. The agencies also play a key role in strengthening community harmony, social cohesion and resilience.

\$7.3
billion

Capital
Expenditure
to 2029-30

\$2.3
billion

Capital
Expenditure
2026-27

The infrastructure program supports communities by enabling the delivery of frontline services, improving public safety, reducing reoffending, and supporting stronger, more connected communities.

This Budget includes capital investment of \$7.3 billion in projects across Communities and Justice portfolio entities over the four years to 2029-30.

Box 2.2: Equipping NSW Police Force's Armed Response Command

This Budget commits \$19.2 million in capital investment for IT equipment, vehicle fit outs, surveillance drones and officer equipment for an Australian-first Armed Response Command. This Command comprises 250 police officers with long arm capability, 28 civilian staff and a fleet of high-performance rapid-response vehicles.

A 24/7 Specialist Operations Centre (SOC) will support with tasking, real-time coordination, and surge management – including training, logistics and intelligence to sharpen targeting and prevention.

This reform demonstrates the Government's commitment to protecting public safety and community cohesion as a priority. It will strengthen the NSW Police Force's (NSWPF) handling of major public gatherings and high-risk events, through coordinated intelligence gathering, and increased semi-static and mobile high-visibility patrols.

The Command will closely monitor potential threats, particularly around houses of worship, transport hubs and other high-profile public places.

As part of the expanded capability, the NSWPF will also strengthen community engagement through additional Multicultural Liaison Officers. This reform ensures New South Wales moves beyond short-term surge responses and establishes a permanent, structured capability aligned with global best practice.

Box 2.3: Strategic Investments in Fire and Rescue NSW services

This Budget delivers \$21.1 million in capital investment to strengthen Fire and Rescue NSW's emergency response capability across Western and Southern Sydney.

A new Marsden Park Fire Station and fire appliance (\$11.2 million) will provide permanent 24/7 emergency response capability in the rapidly expanding North West Growth Area, ensuring emergency resources are optimally located closer to emerging communities and employment precincts and critical infrastructure.

\$9.9 million will be allocated to deliver a replacement fire station at Engadine, with design commencing in 2026-27 and construction staged across 2027-29, replacing ageing facilities and providing a modern fit-for-purpose workplace that meets contemporary operational and safety requirements.

This investment supports the NSW Government's housing agenda by enabling essential emergency services infrastructure to be delivered alongside new residential development in high growth locations across Western Sydney and strengthening community outcomes in existing locations.

Together, these initiatives will improve response capability, strengthen community safety outcomes and ensure Fire and Rescue NSW is well positioned to support sustainable growth and housing delivery.

Box 2.4: Upgrades to Corrective Services NSW Audio Visual Link (AVL) Infrastructure and Capability

Since 2017, the use of AVL technology has significantly increased, becoming the primary mode for court appearances and family visits. Continued growth in the inmate population is placing pressure on existing infrastructure and increasing time required for court matters. This \$6.5 million investment will expand AVL suites across regional and metropolitan locations to meet the increasing demand.

Table 2.3: Key new Communities and Justice projects commencing in 2026-27 included in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
NSW Rural Fire Service (RFS) Fleet Reform and Renewal Repairs, upgrades and improvement of the RFS fleet.	\$379.1 million	\$132.0 million
Armed Response Command Technology and equipment to support the additional 250 police officers with long arm capability, 28 civilian staff, a fleet of high performance rapid-response vehicles, and a Specialist Operations Centre will support with tasking, real-time coordination, and surge management – including training, logistics and intelligence.	\$38.0 million	\$19.2 million
RFS Fleet Maintenance Facilities Establishment of a network of fleet maintenance hubs across New South Wales to support firefighter and community safety, delivering an asset lifecycle management model that ensures emergency response appliances are maintained to mandatory safety and compliance standards.	\$29.2 million	\$29.2 million
Rebuilding the NSW Industrial Relations System Additional funding to the Industrial Relations Commission to address increasing Work, Health and Safety prosecution demand following major industrial relations reforms, including accommodation fit-out costs at the Chief Secretary's Building (Sydney CBD) and Smith Street (Parramatta).	\$18.7 million	\$18.7 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Technology Asset Replacement Program 6 NSW Police Force's ongoing Information and Communication Technology infrastructure refreshment program to enhance automation, disaster recovery capability, and cyber resilience, ensuring reliable emergency response and continuity of frontline policing operations.	\$12.1 million	\$12.1 million
Strategic Digital Workplace Optimisation Replace critical NSW Police Force frontline digital and workplace assets, contributing to modern, secure, and reliable technologies that support over 20,000 personnel, strengthen cybersecurity and maintain operational continuity.	\$12.1 million	\$12.1 million
Marsden Park Fire Station Build a new Marsden Park Fire and Rescue NSW fire station and deliver a new appliance to service Western Sydney's growing population.	\$11.2 million	\$11.2 million
Engadine New Fire Station Build a new Fire and Rescue NSW fire station at Engadine to replace the ageing existing station, which is no longer fit for purpose.	\$9.9 million	\$9.9 million
Upgrades to Audio Visual Link (AVL) Infrastructure and Capability Installation of up to 30 AVL suites across regional and metropolitan correctional centres (including remand centres and court escort security sites) to address growing demand.	\$6.5 million	\$6.5 million
Firearms Registry Capability Uplift Firearms registry additional resources and technological advancements in response to the <i>Terrorism and Other Legislation Amendment Act 2025</i> .	\$5.3 million	\$4.7 million
Box Hill Land Acquisition Acquisition of land for a future Fire and Rescue NSW fire station at Box Hill, funded through a grant provided under the Special Infrastructure Contributions (SIC) program, supporting emergency service infrastructure in a high-growth residential area.	\$3.5 million	\$3.5 million

Table 2.4: Key Communities and Justice projects continuing in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Land and Housing Corporation (LAHC) Capital Maintenance Capital maintenance of the existing LAHC social housing portfolio. \$700.0 million of this will be met from proceeds of land transfers from Homes NSW in the Department of Communities and Justice.	\$1.3 billion	\$920.8 million
Replacement of Fire Appliances Program This Fire and Rescue NSW program replaces aged essential firefighting vehicles and supplies additional vehicles to areas of high demand, based on community needs. It ensures the community is consistently supported by operational vehicles that are safe, reliable and incorporate the latest advances in technology.	\$400.4 million	\$68.0 million
Social Housing Accelerator Land and Housing Corporation, using funding from the Australian Government under the Social Housing Accelerator Agreement along with some existing LAHC funding, will deliver 850 new social homes.	\$151.6 million	\$123.3 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Social and Community Housing		
Continuing construction, upgrades and maintenance of social and community housing for First Nations communities through the Aboriginal Housing Office.	\$120.8 million	\$69.6 million
NSW Rural Fire Service Bushfire Inquiry Funding Package		
Significant items in this Rural Fire Service package will provide safety upgrades and new vehicles for bushfire fighting response and additional trucks for crews involved with hazard reduction works across the State.	\$125.4 million	\$32.1 million
Aboriginal Housing Office (AHO) Capital Maintenance		
Capital maintenance and upgrades of AHO's existing social housing stock, including roof replacements, recladding and window replacements, backlog maintenance on dwellings in critical need of repair.	\$105.6 million	\$65.9 million
NSW State Emergency Service (SES) Fleet Replacement of vehicles, boats and trailers		
Investment in replacing the State Emergency Service fleet to ensure reliability and help provide a timely response to communities during floods, tsunamis and rescues.	\$119.2 million	\$18.6 million
Regional Housing Program		
\$70.0 million interest-free debt financing and \$20.5 million from NSW LAHC's own sources to accelerate the delivery of social, affordable and private homes in regional New South Wales.	\$90.5 million	\$90.4 million
NSW Justice Program Stage 1 - Sydney CBD Courts and Vulnerable Persons Hub		
Establish a Remote Witness Hub in the Sydney Central Business District with new digital infrastructure to support remote hearings and therapeutic spaces for witnesses, victims and children. Reconfiguration of the Downing Centre and John Maddison Tower to add ten new virtually-enabled court suites for centralised bail hearings and five new small court rooms.	\$83.9 million	\$78.6 million
Critical Network Program		
The program will deliver critical upgrades to NSW Police Force ICT infrastructure to support and enhance modern digital policing capabilities.	\$60.0 million	\$50.9 million
Upgrade Youth Justice Centres		
Investment to expand Youth Justice Centres and enhance resources in high-priority areas to address rising custody demand, and provision of bed space for higher risk young people with support needs.	\$60.0 million	\$48.8 million
SES Critical Communications Enhancement Program (CCEP) - Stay Safe Keep Operational		
The Stay Safe and Keep Operational program is to safely maintain existing agency front line communications while the enhanced Government Radio Network is being delivered through the CCEP.	\$50.2 million	\$7.4 million
Safe Station Program		
A program to upgrade fire stations across the FRNSW network to meet contemporary work health and safety, privacy and accessibility standards, delivering improved safety, functionality and amenity for frontline personnel.	\$50.0 million	\$14.1 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Intensive Therapeutic Care Asset Strategy Investment in Government owned residential out-of-home care housing. These will be purpose built to deliver safe and stable housing for children with complex needs who are either unable to be supported in foster care or require specialised and intensive supports.	\$49.2 million	\$47.6 million
Replacement of Class 1 Vessel Replacing the Class 1 Ocean Patrol Vessel, the Nemesis, which will ensure the NSW Police Force can continue to conduct extended offshore operations. The vessel will keep the people of New South Wales safe by supporting law enforcement, countering terrorism, and conducting search and rescue operations along the entire New South Wales coastline.	\$46.3 million	\$46.0 million
Enterprise Resource Planning Program¹ The program will replace the NSW Police Force's end of life Enterprise Resource Planning, Human Capital Management, and Workforce Rostering systems to modern, cloud-based solutions.	\$41.1 million	\$36.1 million
SES Response to the 2022 Flood Inquiry Investment in state-wide flood rescue coordination, operational systems, equipment and multi-agency integration to ensure effective multi-agency flood rescue response across New South Wales.	\$38.4 million	\$7.5 million
Response to the independent review of 2021 Flood Events and Facilities Review Establish two new Zone headquarters in Northern and Western New South Wales to appropriately prepare for and respond to the risk of future flood events across the State and provide an uplift to eighteen critical priority unit facilities across the State.	\$26.1 million	\$5.7 million
Paging Network Refresh This project ensures the continuation of vital messaging functionality for the Rural Fire Service and other emergency service organisations responding to critical incidents and disasters across the State.	\$19.9 million	\$7.6 million
Police Marine Vessel Replacement Program Phase 2 A new police vessel fleet to ensure that the NSW Police Force continues to have capability and capacity to deliver crucial services. This is in addition to the new replacement Class 1 Vessel.	\$18.9 million	\$0.5 million
Cyber Security Enhancement Program Phase 2 Enhancing NSW Police Force cyber threat detection and response capability, ensuring the protection of assets and maintaining the integrity of policing operations.	\$15.6 million	\$12.0 million
Integrated Biometric Platform To replace the current outdated system with a multi-modal platform that provides a comprehensive profile of an offender including DNA, fingerprints and imagery.	\$13.8 million	\$4.2 million
National Firearms Register Implementation of the National Firearms Register to enhance the sharing of timely and accurate firearms information to keep police and the community safe. Total cost of project is \$20.8 million jointly funded with the Australian Government on 50:50 basis, of which \$8.5 million is recurrent expenditure.	\$12.3 million	\$8.1 million

¹ Previously referred to as SAP Upgrade.

Project	Estimated total cost	Expenditure over four years to 2029-30
Class 3 Appliance Update for Safe, Reliable and Sustainable Response		
Expanding the Fire and Rescue NSW Class 3 Appliance Renewal program, delivering an additional 10 firefighting vehicles over the next two years. The program accelerates the replacement of ageing pumpers to maintain a target service life of 15 years, thereby helping to keep emergency response vehicles fit-for-purpose.	\$11.5 million	\$6.0 million
Parramatta Precinct Fire Stations Project		
The Parramatta Precinct project is an updated investment strategy for Wentworthville and Parramatta Fire Stations. Wentworthville will receive a new fit-for-purpose station, while Parramatta Fire Station will be expanded to support future growth and meet the increasing operational demands of the area.	\$9.7 million	\$4.1 million
Broken Hill Fire Station		
The new Broken Hill Fire Station will be a modern, purpose-built fire station accommodating the firefighters from the two existing fire stations. The new fire station will be strategically placed to service the whole community.	\$12.1 million	\$9.0 million
Strategic Data Hosting Facility		
This project will deliver digital, and information-based policing systems and technology innovation and provide physical and cyber resilient NSW Police Force Information Technology systems.	\$10.3 million	\$3.2 million
Charlestown New Fire Station		
The station is in a high growth, high demand zone and provides services to a large residential population, bushland urban interface as well as one of the region's major shopping precincts. This new station will incorporate facilities that address privacy, safety and clean fire station principles. Minor works on the site will be completed in 2025-26 with construction to commence in 2026-27.	\$9.8 million	\$8.9 million
Byron Bay New Fire Station		
The replacement station is to be built on an alternative site. It will include two engine bays and provide staff with facilities for adequate privacy, safety and meeting the clean fire station principles.	\$8.2 million	\$7.1 million
Specialist Police Investigation Equipment		
Purchasing critical communications and analysis equipment which will assist in specialist investigations to disrupt crime and keep citizens of New South Wales safe.	\$6.0 million	\$4.6 million

Pages 4-12 to 4-20 of Chapter 4 of this *Infrastructure Statement* list the major capital projects and minor works for the Communities and Justice agencies, including the ETC, estimated expenditure to 30 June 2026, and 2026-27 allocation.

2.3 Creative Industries, Tourism, Hospitality and Sport

The Creative Industries, Tourism, Hospitality and Sport portfolio brings together the State's cultural, tourism, hospitality, sport and entertainment agencies to support economic growth and community vibrancy across New South Wales. The portfolio drives job creation, attracts investment and strengthens the State's visitor economy by supporting creative industries, major events, cultural infrastructure and tourism destinations.

\$537.2
million

Capital
Expenditure
to 2029-30

\$279.3
million

Capital
Expenditure
2026-27

This Budget includes capital investment of \$537.2 million in the Creative Industries, Tourism, Hospitality and Sport portfolio over the four years to 2029-30. This investment supports the delivery of cultural and tourism infrastructure, enhances visitor experiences, and helps position New South Wales as a leading destination for arts, culture, sport and major events, contributing to long-term economic prosperity.

Table 2.5: Key new Creative Industries, Tourism, Hospitality and Sport projects commencing in 2026-27 included in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Mitchell Rooftop Development		
Redeveloping the State Library of NSW rooftop, doubling the area accessible to the public and undertaking critical roof repairs. This will be funded from non-government sources.	\$22.5 million	\$22.5 million
WIN Sports and Entertainment Precinct Redevelopment		
Funding for the next stage of planning for a redevelopment of the Illawarra Sports and Entertainment Precinct.	\$17.0 million	\$16.0 million
Heritage Funding Shakespeare Place Early Works		
Creation of an enhanced public domain at Shakespeare Place as part of the Macquarie Street East Program, including expansion of the State Library of NSW forecourt, new landscaped areas and improved safety, accessibility, signage and lighting. Early works will focus on the western forecourt and comprise landscaping and façade lighting.	\$5.0 million	\$5.0 million
Naala Nura Library Courtyard Garden Project		
Development of an outdoor courtyard garden by the Art Gallery of NSW at the Naala Nura Library to create an accessible, multi-purpose space including a children's story time area, seating and reading zones and landscaped gathering areas. This project is fully funded through philanthropic donations.	\$4.6 million	\$4.6 million
Customer Relationship Management Phase 2		
For the State Library of NSW to increase constituent engagement and operational efficiency, decommission legacy systems and enhance cybersecurity.	\$1.3 million	\$1.3 million

Table 2.6: Key Creative Industries, Tourism, Hospitality and Sport projects continuing in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Penrith Stadium Redevelopment The redevelopment of Penrith Stadium will turn it into a world-class suburban sport, entertainment and community venue. Construction commenced in 2025.	\$309.0 million	\$77.7 million
Powerhouse Ultimo Revitalisation Continuing the heritage revitalisation of the Ultimo Powerhouse Museum. This will ensure fit for purpose spaces that will deliver a dynamic applied arts and sciences program, presenting exhibitions that showcase the Powerhouse Collection and attract international exhibitions and programs that support the visitor and creative industries.	\$300.1 million	\$207.0 million
Morisset Sports Facility Project Following the closure of the Myuna Bay Sport & Recreation Centre, the Office of Sport has committed to construct the new Morisset Sports Facility.	\$40.4 million	\$38.9 million
Collection Enhancement Project The Collections Enhancement Project is a 10-year program to digitise the Australian Museum's priority natural sciences and world cultural collection assets.	\$25.3 million	\$12.4 million
Museums of History Critical Works Program This project will deliver critical capital maintenance across a diverse portfolio of properties under the care of Museums of History NSW, including the Western Sydney Records Centre and a range of heritage-listed sites. The Museums of History NSW will undertake critical works to preserve the structural integrity of these historically significant places — ensuring that they remain safe, secure and accessible for both public and staff and that vital state records and collection items are protected while meeting compliance standards.	\$16.7 million	\$9.5 million
Qtopia Supporting the remediation of the heritage-listed former Darlinghurst Police Station and its transformation into a permanent home for the Qtopia LGBTQI+ museum. Qtopia Sydney is a museum and cultural centre for queer history and culture, comprising multiple buildings across the site.	\$14.1 million	\$12.1 million
Walsh Bay Substructure Remediation Essential remediation works focused on Pier 2/3, Shore Sheds 4/5, and Wharf 4/5 in the Walsh Bay precinct to preserve the structural integrity of these heritage assets.	\$6.0 million	\$2.6 million
Australian Museum Spirit House Critical Works Critical works to address the urgent heating, ventilation and air conditioning required within the Spirit House collections store at the Australian Museum's William Street site.	\$5.4 million	\$2.6 million
Parkes Farmer Wing Asbestos Works Critical building remediation works to remove and contain asbestos contaminated mortar and remedy waterproofing issues on the exterior of the Australian Museum Parkes Farmer Wing.	\$3.7 million	\$0.1 million
Sydney Observatory Heritage Conservation Works Stage two critical works to support the conservation and preservation of the Sydney Observatory.	\$4.2 million	\$2.2 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Australian Museum - First Nations Gallery Redevelopment		
The Australian Museum will create a unique tourism experience for First Nations cultures and histories in New South Wales. The Gallery will be developed using a community centred approach, which will ensure the project will better meet the needs of First Nations communities. The Gallery will focus on truth-telling stories and provide tourists, educators and families with an engaging destination for First Nations history and culture.	\$3.0 million	\$2.7 million
Broken Bay Sport and Recreation Centre Capital Works		
Demolition and removal of the existing swimming pool and the design and construction of a new sport or recreation activity.	\$1.6 million	\$0.8 million

Pages 4-21 to 4-25 of Chapter 4 of this *Infrastructure Statement* list the major capital projects and minor works for the Creative Industries, Tourism, Hospitality and Sport agencies, including the ETC, estimated expenditure to 30 June 2026, and 2026-27 allocation.

2.4 Customer Service

Customer Service agencies deliver accessible, reliable and high-quality services to the people and businesses of New South Wales. They are responsible for customer-centred service delivery, effective and efficient regulation, and the development of secure, modern digital platforms that support the delivery of NSW Government services to the community.

\$873.1
million

Capital
Expenditure
to 2029-30

\$329.8
million

Capital
Expenditure
2026-27

The portfolio leads the delivery of services across in-person, online and phone channels, while strengthening the availability, reliability and cyber security of government systems, data and information. A key focus is enabling a whole-of-government approach to digital service delivery that improves customer experience, supports productivity and drives efficiency across the public sector.

This Budget includes \$873.1 million in capital investment for Customer Service initiatives and projects over the four years to 2029-30, supporting continued investment in digital infrastructure and platforms that underpin service delivery across government.

Box 2.5: Public Safety Network

The NSW Government is investing an additional \$209.2 million over ten years in the Public Safety Network (PSN) to ensure reliable communications for emergency services and to protect communities across the State.

The PSN is the single, mission-critical communications network relied on daily by NSW Police Force, NSW Ambulance, Fire and Rescue NSW, the NSW Rural Fire Service and the NSW State Emergency Service. It replaces multiple legacy systems and provides a secure, interoperable platform that enables frontline responders to coordinate effectively and save lives.

This additional investment will:

- replace critical equipment reaching end of life or end of service
- repair damaged infrastructure from storms, bushfires, vandalism and theft
- ensure sufficient operating funding to maintain a secure and reliable service
- address critical gaps in growing communities.

Table 2.7: Key new Customer Service projects commencing in 2026-27 included in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Public Safety Network		
Investment to maintain, secure and expand the Public Safety Network (PSN), ensuring reliable communications for emergency services and addressing critical asset, operational and coverage risks across New South Wales.	\$209.2 million	\$141.2million
Vehicle Registration – System Upgrades		
System updates by Service NSW to support ongoing vehicle registrations.	\$6.5 million	\$6.5 million

Table 2.8: Key Customer Service projects continuing in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Critical Communications Enhancement Program This program consolidates Government-owned radio networks to facilitate co-ordinated Government response to critical incidents and emergencies.	\$1.3 billion	\$243.2 million
Modern Licensing and Compliance Program Modern Licensing and Compliance Program - Phase 2 Securing the Benefits of Digital Licensing, supporting digital delivery and regulatory transformation for both licence holders and regulators.	\$42.5 million	\$7.8 million
Digital Identity and Verifiable Credentials The Program enables secure, privacy preserving digital verification to reduce identity fraud and cyber risk for businesses and customers.	\$41.7 million	\$11.5 million
Revenue NSW tax system enhancements Delivering modernised, secured and streamlined system capabilities to increase tax compliance, enhancing fairness and integrity in the State's tax system.	\$37.6 million	\$30.4million
Revenue NSW IT enhancements - Fines and debt portal Delivering modernised, secured and customer-centric systems.	\$30.9 million	\$25.1 million
Revenue Collections System (MARS) Technology Refresh Refreshing the underlying software technology that underpins MARS, the core system used to collect State Administered Taxes annually.	\$28.5 million	\$1.3 million
Critical Infrastructure Management and Security program Strengthening the resilience of Public Safety Network (PSN).	\$27.3 million	\$26.2 million
Revenue NSW IT enhancements - Unclaimed Money Delivering enhanced system functionality to enable proactive payments through better capability to match, validate and integrate data with stronger privacy and risk mitigation.	\$9.5 million	\$7.8 million

Pages 4-26 to 4-28 of Chapter 4 of this *Infrastructure Statement* list the major capital projects and minor works for the Customer Service agencies, including the ETC, estimated expenditure to 30 June 2026, and 2026-27 allocation.

2.5 Education

This Budget demonstrates the NSW Government’s commitment to public education and the delivery of world class learning facilities across public schools, TAFE NSW and early childhood education.

\$11.3 billion	Capital Expenditure to 2029-30
\$3.3 billion	Capital Expenditure 2026-27

The 2026-27 Budget includes \$11.3 billion in capital expenditure over the four years to 2029-30 to ensure every student in public education and training has access to a high-quality learning environment. This Budget continues to rebuild TAFE with a \$233.2 million capital investment in campus upgrades, maintenance and revitalisation.

Investments in this Budget are focused on our faster growing suburbs to ensure we meet the growth in South West and North West Sydney as well as regional communities in the Hunter and Illawarra. These projects will ensure families in new and growing suburbs have access to a world-class public school close to where they live.

There are 12 new schools and upgrades in the Budget for Western Sydney. This is part of a total investment in new and upgraded schools in Western Sydney of \$4.1 billion over four years. These projects are focused on new growth areas such as Austral, Oran Park, Orchard Hills, Marsden Park, Menangle Park and Spring Farm as well as areas identified for rezoning such as Bella Vista.

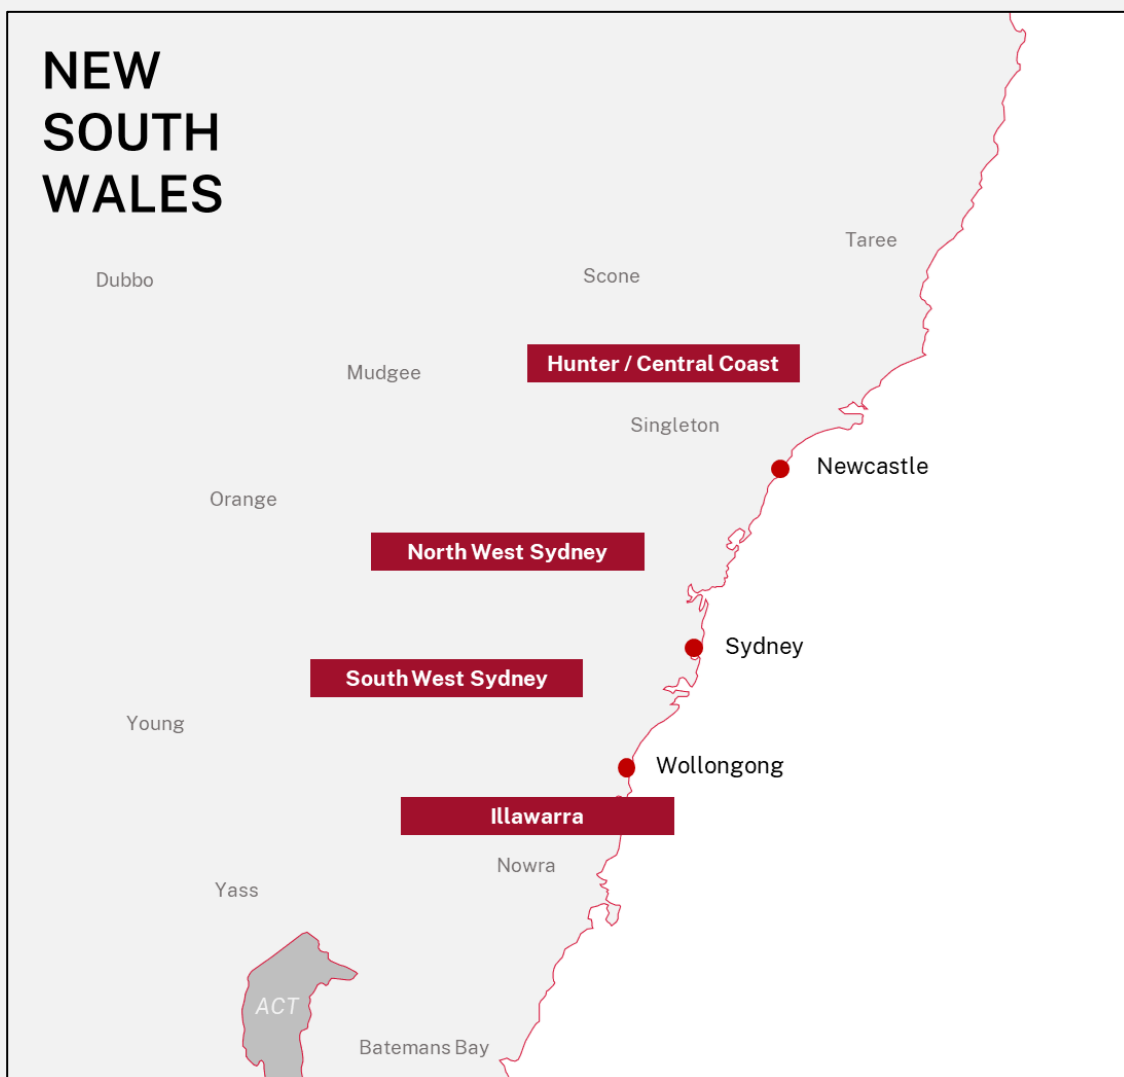

The Government also continues to rebuild public education in regional communities, with more than \$2.3 billion allocated over the four years to improve school infrastructure in regional New South Wales. This includes, in the Hunter, a new primary school in Chisholm and a new high school on a new site for the Maitland Grossmann school community. The Budget also delivers a new high school in Flinders, a new primary school in Googong West and planning for the rebuild of Deniliquin High School.

The Government is continuing to deliver its commitment to building 100 public preschools co-located with primary schools by 2027. In addition to this commitment, this Budget includes funding for new co-located early learning on a further 17 public school sites.

These investments will ensure more children and families across New South Wales have access to quality early learning close to home.

The Government is also investing in TAFE NSW infrastructure through the ongoing rollout of its record investment, which commenced in 2025-26. This includes the Asset Renewal Program and Digital Access Foundation Program, which provide upgrades to physical and digital infrastructure at TAFE NSW campuses across the state.

See Box 2.7 for a list of new projects in this Budget and further information on the Government’s education program.

Box 2.6: New schools for New South Wales priority growth precincts*Figure 2.1: New South Wales priority growth precincts*

New projects announced in the 2026-27 NSW Budget:

- Austral new high school
- Austral South new primary school
- Bella Vista new high school
- Bella Vista West new primary school
- Castle Hill High School – Planning (for long term future)
- Cherrybrook Public School Upgrade
- Chisholm new primary school
- Cooranbong new primary school
- Deniliquin High School – Planning (rebuild after fires)
- East Cobbitty new primary school
- Flinders new high school
- Googong West new primary school
- Maitland Grossmann new high school (relocation)
- Marsden Park South new primary school
- Menangle Park new primary school
- Nangamay Public School Upgrade – Stage 2
- Oran Park North new primary school
- Orchard Hills new primary school
- Pottsville Community Open Space – Stage 1
- Rhodes East new primary school
- Rydalmere new high school
- Spring Farm Public School Upgrade

New and upgraded high schools

- Austral new high school
- Bella Vista new high school
- Castle Hill High School – Planning (for long term future)
- Deniliquin High School – Planning (rebuild after fires)
- Flinders new high school
- Maitland Grossman new high school (relocation)
- Pottsville Community Open Space – Stage 1
- Rydalmere new high school

New and upgraded primary schools

- Austral South new primary school
- Bella Vista West new primary school
- Cherrybrook Public School Upgrade
- Chisholm new primary school
- Cooranbong new primary school
- East Cobbitty new primary school
- Googong West new primary school
- Marsden Park South new primary school
- Menangle Park new primary school
- Nangamay Public School Upgrade – Stage 2
- Oran Park North new primary school
- Orchard Hills new primary school
- Rhodes East new primary school
- Spring Farm Public School Upgrade

Ongoing works - new and upgraded schools

- Austral Public School Upgrade
- Asquith High School Upgrade
- Bayside High School (provisional name) Upgrade
- Bomaderry High School Upgrade
- Box Hill Public School and Box Hill High School - new schools
- Bungendore High School - new high school
- Calderwood new primary school
- Cammeray Public School Upgrade
- Carlingford West Public School Upgrade
- Concord High School Upgrade
- Condell Park High School Upgrade
- Cumberland High School Upgrade
- Dalmeny Public School Upgrade
- Darcy Road Public School Upgrade
- Denison College of Secondary Education Campus Upgrades
- Eagle Vale High School (selective sports stream)
- Edmondson Park new high school
- Emerald Hills new primary school
- Ermington West Public School Upgrade
- Excelsior Public School Upgrade
- Gables new primary school
- Gillieston Public School redevelopment
- Girraween Public School Upgrade
- Gledswood Hills High School - new high school
- Googong new high school
- Grantham Farm new primary school
- Greenway Park Public School Upgrade
- Griffith High School Upgrade – Stage 2
- Heathcote High School new multi-purpose hall
- Huntlee new primary school and high school - new schools
- Jerrabomberra High School Upgrade - Stage 2
- Jordan Springs new high school
- Kingswood Public School Upgrade
- Kogarah Public School Upgrade
- Lennox Head Public School relocation
- Leppington Public School Upgrade
- Leppington/Denham Court new high school
- Lismore South Public School (flood recovery)
- Liverpool High School (provisional name) redevelopment
- Macquarie Park new high school
- Medowie new high school
- Melrose Park new high school
- Melrose Park Public School redevelopment
- Macquarie Park new primary school
- Milton Public School Upgrade
- Murwillumbah East Public School Upgrade
- Narrabeen Sports High School Upgrade
- Newington Public School Upgrade
- Nirimba Fields Public School
- Northern Beaches Secondary College Cromer Campus Upgrade
- Northern Beaches Secondary College Freshwater Campus Upgrade
- Northmead Public School Upgrade
- Nowra East Public School Upgrade
- Orana Heights Public School Upgrade
- Orange Grove Public School Upgrade
- Parkview Public School Upgrade
- Parramatta East Public School Upgrade
- Penrith Lakes Environmental Education Centre Upgrade
- Randwick High School Upgrade
- Richmond Agricultural Centre
- Richmond River High Campus (flood recovery)
- Rouse Hill High School Upgrade
- Rydalmere Public School Upgrade
- Rydalmere East Public School Upgrade
- Shoalhaven former Anglican school site open for public education
- Sir Joseph Banks High School Upgrade
- Sutherland Public School new multi-purpose hall
- Sydney Olympic Park - Carter St Precinct - new primary school
- Tallawong new high school
- Telopea Public School Upgrade
- The Ponds High School Upgrade

Box 2.9: 100 Public Preschools Program

The NSW Government's record investment is continuing through the delivery of the 100 Public Preschools Program, the largest expansion of public preschools in NSW history. This investment continues in the 2026-27 Budget.

Since the 2023-24 Budget, two public preschools have opened for enrolments, including Gulyangarri Public Prechool and Blackett Public Preschool. All remaining preschools are on schedule to be delivered by 2027.

Figure 2.2: 100 new public preschools in New South Wales

Box 2.10: New and ongoing public early learning in New South Wales

The NSW Government is continuing its commitment to building public early learning by delivering co-located early learning on a further 25 public primary schools. This is in addition to the 100 new public preschools already being delivered as part of the 100 Public Preschools Program.

Figure 2.3: New public early learning in addition to the 100 public preschools

Table 2.9: Key new Education projects commencing in 2026-27 included in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Austral new high school New educational facilities to meet strong demand for secondary enrolment in Sydney's South West growth area, including new classrooms and facilities to accommodate 2,000 students.	n.a.	n.a.
Bella Vista new high school This project commits to delivering a new high school in Sydney's northwest corridor to meet strong enrolment growth around Bella Vista and nearby transport oriented development precincts.	n.a.	n.a.
Chisholm new primary school with co-located public early learning This project will deliver a new primary school in Chisholm to align school capacity with housing led growth in the Thornton North urban release areas.	n.a.	n.a.
East Cobbitty new primary school with co-located public early learning The new primary school will include modern classrooms and support teaching spaces as well as core facilities with co-located public early learning.	n.a.	n.a.
Oran Park North new primary school with co-located public early learning This project aims to address the growing population in Oran Park by delivering a new 1000-student public school with co-located public early learning.	n.a.	n.a.
Cherrybrook Public School Upgrade The project supports growth linked to the Cherrybrook metro station precinct. The upgrade will replace demountable teaching spaces with new classrooms and deliver an upgrade across core facilities.	n.a.	n.a.
Cooranbong new primary school (relocation) The project will provide contemporary facilities and permanent capacity for a growing regional community, addressing demand generated by the North Cooranbong urban release area and surrounding housing growth. The project will also deliver co-located public early learning.	n.a.	n.a.
Googong West new public school with co-located public early learning A new primary school with co-located public early learning is underway for the growing community of Googong. The primary school will have the capacity for at least 650 students with three specialist facilities for support classes.	n.a.	n.a.

Table 2.10: Key Education projects continuing in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
100 new government preschools		
Construction is progressing in the 100 public preschools program, including all 12 sites in the Hunter region and at least 8 in the Illawarra. These new preschools will provide high-quality early learning places for up to 1000 local children weekly once complete. The new public preschools will feature state-of-the-art learning areas, staff facilities, a kitchen and landscaped outdoor play areas.	n.a.	n.a.
High Potential and Gifted Education Partner School Program		
This project is investing \$100.0 million to enhance state-of-the-art learning facilities in 33 High Potential and Gifted Education Partner Schools, with upgrades completed in eight high schools ahead of 2026.	n.a.	n.a.
Melrose Park High School		
This redevelopment project will provide new classroom and core facilities to meet the anticipated growth in the Ryde area. The upgrades include 32 new classrooms, three support learning classrooms, new library and staff facilities, a new hall and covered outdoor learning area (COLA).	\$91.0 million	\$45.1 million
Box Hill High School and Box Hill Public School		
The project is delivering a new primary school and high school with new permanent facilities to cater for the growing community in Box Hill to be open by Day 1 Term 1 2028. To accommodate local families and provide access to education sooner, Box Hill Public School and Box Hill High School are both operating from temporary facilities.	n.a.	n.a.
Jordan Springs new high school		
A new high school in Jordan Springs has reached a milestone in its construction with the aim to deliver by Day 1 Term 1 2027. Jordan Springs new high school will accommodate up to 1,000 students and include 51 modern classrooms, three support classrooms, 10 workshops for specialist classes, a large hall and sports field with three sports courts.	\$154.7 million	\$79.6 million
Edmondson Park High School		
This project will deliver a new high school in Edmondson Park by Day 1 Term 1 2027. Edmondson Park High School will accommodate 800 students and include fit-for-purpose classrooms and core facilities to meet enrolment demand.	\$114.9 million	\$9.3 million
Leppington Public School upgrade		
Work is underway to deliver upgrades for Leppington Public School with 20 new permanent classrooms, three new support learning classrooms, a new hall, and covered outdoor learning area. Stage 2 of the project will add additional capacity to the school to accommodate the growing needs of the community and include co-located public early learning.	\$121.4 million	\$77.8 million
Liverpool High School (provisional name) redevelopment		
This project is delivering a new co-educational high school in Liverpool by merging Liverpool Boys and Liverpool Girls High Schools, following extensive community consultation. The new school will offer an expanded range of subjects for students with new facilities to help deliver specialised subjects into health and higher education.	n.a.	n.a.
Nowra East Public School upgrade		
Significant upgrades to Nowra East Public School are underway to ensure growing regional communities have access to world class public education. These upgrades include a new two-storey building, a new Breakfast Club and Mulga Room, air	\$25.0 million	\$18.7 million

Project	Estimated total cost	Expenditure over four years to 2029-30
conditioning upgrades to teaching spaces and car park upgrade. The designs for the new buildings and landscaping will incorporate Connecting with Country and traditional themes.		
Yennora Public School and Verona School upgrade A new multipurpose hall will be built at Yennora Public School to be shared with students at Verona School that will include an indoor sports court, stage, amenities, an active sensory room, a covered outdoor learning area and outside of school hours care facilities.	n.a.	n.a.
Huntlee new primary school and high school To accommodate the future needs of the Hunter region, a new primary school with co-located public early learning and high school are being built in Huntlee and set to open Day 1 Term 1 2028.	\$201.5 million	\$193.0 million
NSW Education Standards Authority's (NESA) Technology Reform Program NESA has initiated a significant technology transformation program to embark upon a modernisation agenda over six years. The program seeks to modernise, elevate and transform current technology platforms, building better resilience and responsiveness and improving user experience. The investment is being used to gradually upgrade core technology systems, uplift cyber security capabilities and reduce risk.	\$59.1 million	\$26.8 million
TAFE NSW Manufacturing Centres of Excellence TAFE NSW is establishing three Manufacturing Centres of Excellence (MCoE) across existing campuses in the Illawarra, Western Sydney and Hunter regions to strengthen manufacturing capability. In 2025, the MCoE commenced delivery of microcredentials and microskills, with over 1,500 online enrolments. This will provide modern facilities to sustain high quality training delivery. In 2026, two fully equipped Mobile Training Units will extend access to regional and remote communities.	\$65.8 million	\$53.7 million

Pages 4-29 to 4-35 of Chapter 4 of this *Infrastructure Statement* list the major capital projects and minor works for the Education agencies, including the ETC, estimated expenditure to 30 June 2026, and 2026-27 allocation.

2.6 Health

The NSW Government is investing in a sustainable and well-managed health infrastructure portfolio to support the delivery of safe, timely and high-quality healthcare services across New South Wales. This includes investment in new and upgraded health facilities, alongside projects to maintain, renew and actively manage the State's existing health assets.

\$11.9
billion²

Capital
Expenditure
to 2029-30

\$3.6
billion²

Capital
Expenditure
2026-27

Health infrastructure investment is prioritised for major hospital and health facility redevelopments across metropolitan and regional areas, complemented by a program of ongoing asset maintenance and renewal works. This balanced approach strengthens asset stewardship, ensuring the State's health portfolio remains safe, functional and fit for purpose across its lifecycle, and supports the delivery of safe, timely and high-quality healthcare to the people of New South Wales.

These investments are guided by careful planning to ensure that services reflect changing health service needs and contemporary models of care, ultimately improving patient experiences and health outcomes for our community.

Over the four years to 2029-30, the Budget provides \$11.9 billion² for health infrastructure. This investment supports a balanced program of new projects and upgrades, as well as the continued maintenance and asset renewal requirements of the NSW Health system. Projects are prioritised and delivered to align with population growth and demand for health services, while ensuring responsible financial management and ongoing sustainability.

Box 2.11: Northern Beaches transition back into public hands

Northern Beaches Hospital has returned to public hands after almost eight years of private ownership, with future privatisation of public hospitals banned. As part of the transition, more than 1,800 Northern Beaches Hospital staff - including nurses, midwives, doctors, allied health professionals and support staff - have now joined the NSW Health team. In addition, the State's first High Volume Planned Surgery Centre will be established which will expand the hospital's role and help reduce surgery wait times across New South Wales.

² This includes \$468.3 million of capital expensing from the Ministry of Health's expense budget over the next four years. In 2026-27, health infrastructure spending includes \$117.1 million of capital expensing.

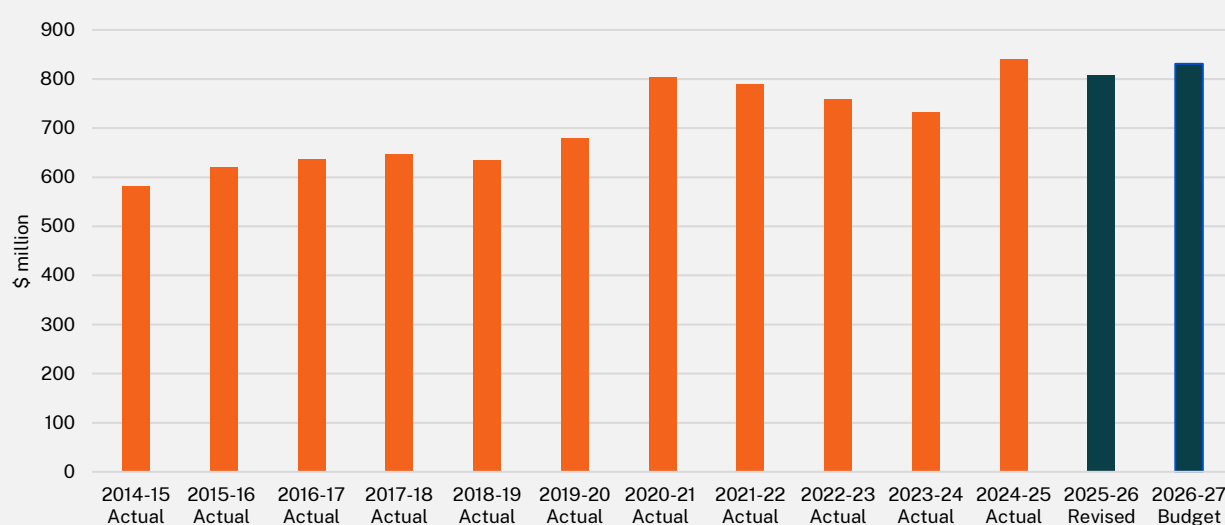

Box 2.12: Health Asset and Equipment Renewal Program

The NSW Government will invest \$400.0 million over four years in a statewide asset and equipment renewal program to replace high-risk, end-of-life medical equipment, critical clinical systems, and essential building fabric, plant and engineering services across the NSW Health asset portfolio.

Over the past decade, the asset base has grown significantly, from \$24.8 billion in 2015 to \$50.5 billion in 2025, with various assets now approaching the end of their economic life.

Maintenance has been managed with the \$122.0 million annual minor works provision, for replacement and repairs under \$1.0 million, through programs such as the \$250.0 million Critical Asset Maintenance Program (funded in 2024-25) and the expense budget. Health's expense budget supports repairs and maintenance (Chart 2.1³), though this new program will enable more major works and complement existing funding to extend the useful life of critical assets.

Chart 2.1: Health maintenance expense (recurrent)⁴

This program will prioritise assets where delayed replacement risks service continuity, statutory compliance and whole-of-life outcomes. For major medical equipment, timely renewal will reduce disruption and protect patient care.

Investment will be centrally governed and risk-based to ensure funds are directed to the highest priority assets, with delivery sequenced according to the likelihood and consequence of asset deterioration.

The program will also address a component of non-routine maintenance and renewal requirements which aim to support the long-term performance, reliability and sustainability of the health infrastructure portfolio.

³ This chart only shows recurrent repairs, maintenance and renewal expenditure which includes employee related maintenance expenses and other non-capitalised expenditure. Capitalised expenditure on maintenance and asset renewal is not included.

⁴ Figures for years 2014-15 to 2024-25 are year-end actuals, 2025-26 is a projection and 2026-27 is the budget.

Box 2.13: Historic investment in major hospital redevelopments

The Government is delivering record new and major upgraded hospitals and over 2,500 more beds and treatment spaces across the State. This includes over 800 more beds and treatment spaces in Western Sydney alone. Major upgrades are progressing at Bankstown, Canterbury, Fairfield, Liverpool, Rouse Hill and Royal Prince Alfred Hospitals. These projects are finally seeing progress after years of delay. Construction has commenced on Rouse Hill Hospital after it was promised three times previously and never delivered. Construction is on track to commence for main Bankstown Hospital in 2027, progressing promises from 2019 that had seen no progress by 2023.

Table 2.11: Key New Health Projects commencing in 2026-27 included in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Health Asset and Equipment Renewal Program		
Investment for high priority assets to ensure patient safety, service continuity, statutory compliance and operational resilience and whole-of-life outcomes are maintained.		
The program will prioritise assets where delayed replacement and upgrade would have significant consequences for patient safety, service continuity, statutory compliance and operational resilience and whole-of-life outcomes and in the case of major medical equipment, timely renewal will also reduce the risk of service disruption and associated loss of activity.	\$400.0 million	\$400.0 million

Table 2.12: Key Health projects continuing in this Budget⁵

Project	Estimated total cost	Expenditure over four years to 2029-30
Bankstown Hospital (New)		
Rebuilding of the Bankstown Hospital on a new site to transform the delivery of healthcare in the area and support the growing health needs of South Western Sydney communities.	\$2.0 billion	\$1.2 billion
The largest single hospital project in New South Wales will deliver state-of-the-art facilities to support the contemporary models of care.		
Nepean Hospital and Integrated Ambulatory Services Stage 1 and 2		
This ongoing major redevelopment at the Nepean Hospital will ensure Western Sydney and Blue Mountain communities are provided with world-class health services in a purpose-built, patient-focused environment designed to meet the growing health needs of the community well into the future.	\$1.0 billion	\$75.5 million
Royal Prince Alfred Hospital Redevelopment		
This significant redevelopment will enhance the world-leading healthcare already provided at Royal Prince Alfred Hospital (RPAH). It will transform the campus to bring together new models of care, enabling technology and physical infrastructure to support service expansion and changes in service delivery.	\$940.0 million	\$444.6 million

⁵ Includes projects with estimated total costs greater than \$200.0 million only.

Project	Estimated total cost	Expenditure over four years to 2029-30
Rouse Hill Hospital The new Rouse Hill Hospital will deliver a new contemporary health care facility for the growing Northwest community of Sydney. The new hospital is expected to include an emergency department and Primary Access Clinic to support urgent and non-urgent care, dedicated inpatient beds, day surgery services, adult and paediatric short stay unit, ambulatory and outpatients care, comprehensive medical imaging services, and prehabilitation and rehabilitation services. It will also include a full range of maternity and birthing services.	\$910.0 million	\$795.7 million
John Hunter Health and Innovation Precinct The redevelopment of the John Hunter and John Hunter Children's Hospitals will deliver enhanced healthcare facilities and provide additional capacity to meet the demands of the Greater Newcastle, Hunter New England and Northern NSW regions.	\$890.0 million	\$154.6million
Liverpool Health and Academic Precinct The Liverpool Health and Academic Precinct will provide a significant boost in health services to South Western Sydney's growing population through an integrated cancer centre, expansion of the hospital's emergency department, neonatal intensive care, maternity and children's services, and ambulatory and outpatient care.	\$880.0 million	\$353.0 million
New Shellharbour Hospital and Integrated Services The New Shellharbour Hospital and Integrated Services project will transform access to healthcare for the Shellharbour community, providing a wide range of modern and expanded health services and reducing the need to travel out of the area for a range of health-related treatments. The project also provides for the transport upgrades including road intersection works.	\$828.9 million	\$385.9 million
Single Digital Patient Record This program aims to unify and integrate various existing electronic health records systems across NSW Health. It will create a centralised, secure, and integrated digital record system for each patient across the NSW Health system. The investment in the Single Digital Patient Record initiative will give clinicians easy and timely access to a holistic record of an individual's medical information. This will include real-time access to medical records resulting in improved health outcomes for patients and empowering clinical teams to make informed decisions promptly regarding patient care, diagnosis and treatment protocols. The initiative will streamline processes and reduce administrative burden on health staff.	n.a.	\$236.1 million
Statewide Mental Health Infrastructure Program This Program delivers the infrastructure required to progress key mental health reforms and strategic priorities across the State for improved mental health care. It will also ensure that the Government's investment meets future demand for mental health services. This includes child and adolescent and older persons services, mothers and baby services, forensic services and facilities to promote recovery and enhance opportunities for people to transition to or receive care within community settings.	\$669.8 million	\$292.0 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Fairfield Hospital Redevelopment The redevelopment will provide the community with new and enhanced integrated health services closer to home. Expanding Fairfield Hospital will deliver more inpatient beds, increase capacity of critical care services, and other hospital and health services.	\$630.0 million	\$455.6 million
NSW Ambulance Infrastructure Program This program will deliver 30 additional ambulance stations as part of the NSW Ambulance Infrastructure Program. It will provide local paramedics with modern, purpose-built infrastructure to better meet the emergency medical care needs of communities across New South Wales.	\$615.5 million	\$421.8 million
Albury Wodonga Regional Hospital A major redevelopment of Albury Hospital will provide enhanced and expanded health care services in contemporary facilities to support Albury, Wodonga and border communities now and into the future. The project will support the region's growing population, provide contemporary models of care and better connectivity across the Albury Hospital campus.	\$558.0 million ⁶	\$412.7 million
Integrated Mental Health Complex at Westmead The new Integrated Mental Health Complex will enable mental health services currently located at Cumberland Hospital West Campus to relocate to a new, purpose-built mental health facility in the Westmead Health Precinct, connected to Westmead Hospital.	\$540.0 million	\$290.9 million
Ryde Hospital Redevelopment The redevelopment of Ryde Hospital in Sydney will build on existing services and include a new emergency department, medical imaging unit, intensive care unit, operating theatres and day-only surgical endoscopy spaces. The Ryde Hospital Redevelopment will transform the delivery of healthcare in Ryde and its surrounding suburbs, ensuring local communities can receive the care they need closer to home in a contemporary health setting.	\$526.8 million	\$296.4 million
NSW Health Pathology Statewide Hub To develop a pathology hub that will support the delivery of local and state-wide clinical pathology, public health, medical research, and specialised support services on the Westmead campus. The project will incorporate the relocation of the Institute of Clinical Pathology and Medical Research (ICPMR) and complement the recently expanded Children's Hospital at Westmead Pathology service.	\$492.0 million	\$32.0 million
Shoalhaven Hospital Redevelopment The redevelopment is a major upgrade of Shoalhaven District Memorial Hospital, aiming to create a regional health hub and improve access to care for the Shoalhaven and surrounding communities. The redeveloped hospital will be named the Shoalhaven Memorial Hospital. The hospital's new name honours the area's important history and ongoing links with the Australian Defence Force and aligns with more contemporary hospital naming conventions. This project includes a new seven-storey acute services building and refurbishment of existing health facilities, with a focus on modernising medical facilities, increasing capacity and addressing issues of access and equity.	\$440.4 million	\$60.7 million

⁶ This includes the Australian Government contribution of \$20.0 million as part of the Albury City Deal.

Project	Estimated total cost	Expenditure over four years to 2029-30
St George Hospital Redevelopment – Stage 3 The redevelopment will deliver a world-class Ambulatory Care Precinct, bringing together a range of ambulatory and out-patient services. It will not only provide the St George and Sutherland community with access to new, state-of-the-art facilities, but also enhance patient outcomes by improving collaboration between multidisciplinary teams.	\$411.0 million	\$69.0 million
Canterbury Hospital Redevelopment The redevelopment will maximise the capacity of existing facilities available at the Canterbury Hospital campus, including the main hospital building and the Canterbury Health Centre. This redevelopment includes a new multi-storey building with enhanced services, extensions and upgrades to existing health facilities, and improved accessibility. The project focuses on improving patient care and enhancing the hospital's ability to serve the diverse Canterbury community.	\$400.0 million	\$380.1 million
Eurobodalla Regional Hospital Redevelopment The new Eurobodalla Regional Hospital will deliver more health services than currently available at both the Moruya and Batemans Bay Hospitals combined. The new hospital will offer a range of expanded and enhanced healthcare services for the entire Eurobodalla Shire community from Narooma to Batemans Bay.	\$330.0 million	\$68.2 million
Port Macquarie Base Hospital Redevelopment The upgrade of Port Macquarie Base Hospital will include the expansion of the emergency and maternity departments, and essential upgrades to the mechanical systems of the existing hospital building. It includes a new four-storey inpatient unit building replacing ageing infrastructure.	\$265.0 million	\$259.7 million
Grafton Hospital Redevelopment The redevelopment will improve health outcomes and meet the growing needs of Grafton and surrounding communities. It includes a new three-storey building with expanded emergency services, medical imaging, and a larger surgery suite. The project aims to enhance capacity, improve models of care and support the needs of the Grafton and Clarence Valley communities.	\$263.8 million	\$211.9 million
Wollongong Hospital and Health Precinct Further planning to support the future expansion and redevelopment of the Wollongong Hospital and Health Precinct. The proposed expansion involves early and enabling works including site investigation, land acquisition and refurbishment works.	\$220.0 million	\$182.9 million
Key Health Worker Accommodation Program The program aims to support the recruitment and retention of over 500 health workers and their families in regional New South Wales by providing a range of new worker accommodations. The program is designed to address the housing predicament in these areas and make it more attractive for healthcare professionals to work in regional towns and communities.	\$200.1 million	\$142.4 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Bathurst Hospital Redevelopment		
The redevelopment will modernise and expand health services for the region, including the surrounding communities of Blayney, Oberon, and Rylstone.		
This project aims to provide patients, staff, and visitors with improved healthcare facilities and expanded healthcare services. The redevelopment includes a mix of new and refurbished areas, including an expanded emergency department, maternity services and a new mental health inpatient unit.	\$200.0 million	\$162.7 million

Pages 4-36 to 4-40 of Chapter 4 of this *Infrastructure Statement* list the major capital projects and minor works for the Health agencies, including the ETC, estimated expenditure to 30 June 2026, and 2026-27 allocation.

2.7 Planning, Housing and Infrastructure

The Department of Planning, Housing and Infrastructure and its affiliated agencies plan for growth and shape places that support thriving, connected and sustainable communities across New South Wales.

They coordinate land-use planning, precinct development and infrastructure delivery, manage public land and property assets, and support the supply of diverse and affordable housing to meet the needs of a growing population.

\$3.0
billion

Capital
Expenditure
to 2029-30

\$938.2
million

Capital
Expenditure
2026-27

The portfolio plays a central role in enabling housing delivery and economic development by aligning planning decisions with infrastructure investment, supporting well-designed public spaces and ensuring land and assets are managed efficiently to maximise community benefit.

This Budget includes infrastructure investment of \$3.0 billion for Planning, Housing and Infrastructure initiatives and projects over the four years to 2029-30, supporting the delivery of housing, precincts and infrastructure that underpin long-term growth and liveability.

Box 2.14: Supporting new and renewed community assets

The Department of Planning, Housing and Infrastructure and its affiliated agencies manage a large asset portfolio across New South Wales, including public parks, recreational facilities, and other land and property assets that support communities. This Budget invests in building new infrastructure, upgrading existing assets and maintaining key community facilities across the State. Key capital initiatives include:

- \$41.0 million to deliver the Gosford Waterfront revitalisation project enhancing the foreshore through public domain improvements and the delivery of a continuous shared pathway
- \$7.8 million to protect Crown land from biosecurity risks and to meet public safety and environmental protection obligations
- \$2.5 million to address critical asset renewal works across the three Botanic Gardens and the Domain
- \$2.0 million to upgrade and maintain the operational fire trail network on Crown land.

Table 2.13: Key new Planning, Housing and Infrastructure projects commencing in 2026-27 included in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Greater Sydney Parklands – Off-park business hubs To deliver off-park business hubs to support revenue streams and provide for capital maintenance and improvements across the parklands estate.	\$67.4 million	\$67.4 million
Land Acquisitions to Support the Development of Western Sydney Growth Areas To undertake land acquisition to support continuation of biodiversity efforts in Western Sydney growth areas.	\$53.0 million	\$53.0 million
Gosford Waterfront To deliver the Gosford Waterfront revitalisation project enhancing the foreshore through public domain improvements and the delivery of a continuous shared pathway.	\$41.0 million	\$41.0 million
Crown land – Critical maintenance To protect Crown land from biosecurity risks and to meet public safety and environmental protection obligations.	\$7.8 million	\$7.8 million
BASIX Tool Upgrade To replace the BASIX system providing faster housing sustainability assessments aligned with NSW Government priorities and housing targets.	\$4.9 million	\$4.9 million
Royal Botanic Gardens and Domain Trust – Critical maintenance To address critical asset renewal works across the Botanic Gardens of Sydney.	\$2.5 million	\$2.5 million
Asset renewal at Sydney Olympic Park To renew and replace critical end-of-life infrastructure at Sydney Olympic Park.	\$2.5 million	\$2.5 million
Strategic fire trails To upgrade and maintain the operational fire trail network on Crown land.	\$2.0 million	\$2.0 million

Table 2.14: Key Planning, Housing and Infrastructure projects continuing in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Bradfield City Centre Stage 1 Enabling Works Early works and site preparation for the Bradfield City Centre, which will be situated on the doorstep of the new Western Sydney International (Nancy-Bird Walton) Airport.	\$870.6 million	\$492.3 million
Advanced Manufacturing Readiness Facility (AMRF) The AMRF will support industry, government and research institutions to collaborate, develop, scale up and commercialise advanced manufacturing technologies by providing specialist equipment and workspaces, and other services.	\$261.9 million	\$237.6 million
Open Space Projects in Transport Oriented Development accelerated precincts To deliver open space projects funded from the Commonwealth's Housing Support Program.	\$218.9 million	\$212.5 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Office Hubs in Dubbo and Coffs Harbour To consolidate existing tenancies and provide modern, efficient office spaces to help attract and retain regional government workers.	\$119.9 million	\$80.2 million
Pymont Bridge Structural Works To complete the structural repairs and restoration of this 100-year-old state heritage listed bridge.	\$87.9 million	\$36.3 million
Moore Park South To deliver new green open space for recreational use at Moore Park South.	\$50.0 million	\$48.6 million
Property and Development NSW Asset Maintenance Program (Tranche 2) Key maintenance across the State's property portfolio.	\$30.9 million	\$5.7 million
NSW Planning Digital Environment To deliver the NSW Planning Portal Customer First Program and embed a new operating model to enable system improvements and delivery of innovation and efficiencies.	\$21.1 million	\$6.8 million
Property and Development NSW Asset Maintenance Program (Tranche 3) Additional funding to support Property and Development NSW to address priority asset maintenance.	\$17.0 million	\$2.0 million
Recreational Improvements at Centennial Parklands To construct new sports and recreational facilities, using funds raised by the Trust.	\$12.6 million	\$7.5 million
Sydney Olympic Park Infrastructure and Asset Maintenance Stage Two Additional investment to support the infrastructure and asset renewal program at Sydney Olympic Park.	\$10.0 million	\$8.3 million
Royal Botanic Gardens and Domain Trust - Asset Renewal Program Additional investment to support the asset renewal program to address priority infrastructure maintenance at the Botanic Gardens.	\$9.0 million	\$5.0 million
Crown Lands - Safer Assets for the Community To deliver upgrades to buildings and infrastructure located on Crown lands.	\$3.6 million	\$1.8 million
Crown Lands - Strategic Fire Trails Upgrade and Maintenance To upgrade and maintain the operational fire trail network on Crown lands.	\$1.0 million	\$0.5 million

Pages 4-41 to 4-46 of Chapter 4 and 5-12 and 5-14 of Chapter 5 of this *Infrastructure Statement* list the major capital projects and minor works for the Planning, Housing and Infrastructure agencies, including the ETC, estimated expenditure to 30 June 2026, and 2026-27 allocation.

2.8 Primary Industries and Regional Development

Primary Industries and Regional Development agencies support strong regional economies and resilient communities across New South Wales. They work to grow primary industries through sustainable land-use practices, support regional employment and productivity and promote the responsible management and use of natural resources, including mining and resource development.

\$451.2
million⁷

Capital
Expenditure
to 2029-30

\$193.2
million⁷

Capital
Expenditure
2026-27

The portfolio also plays a key role in planning and overseeing the delivery of significant infrastructure projects across regional New South Wales, supporting economic diversification, improved connectivity and long-term regional development.

This Budget includes \$451.2 million in capital investment across the Primary Industries and Regional Development portfolio over the four years to 2029-30, supporting sustainable industry growth and infrastructure that underpins regional prosperity.

Box 2.15: Facility upgrades safeguarding our food security

The NSW Government, through the Department of Primary Industries and Regional Development (DPIRD), undertakes scientific research to enhance the productivity of plant and livestock systems.

It has recently unveiled a seed vault and plant growth facility at the Wagga Wagga Agricultural Institute, strengthening the State's ability to protect valuable crop genetics and support the development of more resilient grain varieties.

The \$1.1 million state-of-the-art facility will securely store thousands of unique grain seed lines in a climate-controlled environment, preserving critical genetic resources for future generations and safeguarding Australia's food security.

The facility also includes purpose-built Plant Pathology Growth Rooms, part funded by the Grains Research and Development Corporation (GRDC), which will enable DPIRD scientists to accelerate research into disease resistance in key winter grain crops.

It demonstrates the importance of the NSW Government's investments in research facilities that support scientific advancements that lead to economically valuable productivity improvements. These investments include:

- \$58.2 million to remediate and upgrade critical research facilities to enhance visitor safety and improve the efficiency of managing the Primary Industries asset portfolio. This is funded through the Restart NSW program
- \$19.3 million for a Research and Development Partnership with the GRDC that will enhance productivity of plant and livestock systems
- \$12.5 million for upgrades of research stations to transition research and development in line with government priorities, including upgrades to field sites to ensure facilities are fit-for-purpose for modern research practices.

⁷ Includes infrastructure expenditure classified as inventory in accordance with Australian Accounting Standards.

Table 2.15: Key new Primary Industries and Regional Development projects commencing in 2026-27 included in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Soil Conservation Service Heavy Machinery The Soil Conservation Service Heavy Machinery Project will replace end-of-life bulldozers, excavators and other heavy plant equipment to support the continued delivery of bushfire and flood mitigation, drainage, dam construction, land rehabilitation and infrastructure work across regional New South Wales.	\$6.0 million	\$6.0 million
Coldwater Pollution Mitigation Pindari Dam – Solar Project This project will mitigate the impacts of cold-water pollution on downstream river systems from Pindari Dam. The project will deliver a bubble plume destratification system to improve water temperature regulation, supported by a solar array and battery system to enable sustainable operation. Together, these measures will enhance aquatic ecosystem health and improve water quality outcomes for downstream users.	\$6.0 million	\$5.4 million

Table 2.16: Key Primary Industries and Regional Development projects continuing in this Budget (capitalised)

Project	Estimated total cost	Expenditure over four years to 2029-30
World-Class Food and Fibre (Stage 1 and 2) Enhancements to research stations (including glasshouses, exotic disease diagnostic instruments and on-farm sensors and data technology) will help boost agricultural productivity and support world class food and fibre production. Additional funding will contribute to the Insectary Laboratory upgrades at the Elizabeth Macarthur Agricultural Institute in South-West Sydney.	\$110.5 million	\$9.4 million
Research Services Critical Infrastructure Upgrades The project includes capital upgrades at priority sites and remediating sites surplus to requirements to meet workplace health and safety, and legal obligations, protect the safety of visitors and more efficiently manage the Primary Industries asset portfolio. Major works include building remediation and demolition to support increased asset utilisation and operating efficiency.	\$58.2 million	\$42.0 million
Local Land Services Future Fund To improve Local Land Services (LLS) core services to farmers, land managers and regional communities including the upgrade of critical assets which are degraded and not fit-for-purpose. This will address growing work, health and safety risks and improve the State's ability to respond to natural disasters and biosecurity emergencies. This investment will also deliver upgrades to bait and vet facilities, water security assets, emergency response assets and regional office spaces.	\$45.4 million	\$20.3 million
R&D partnership with the Grain Research and Development Corporation The Research and Development Partnership with the Grains Research Development Corporation is a 10 year contracted partnership that will enhance productivity of plant and livestock systems.	\$19.3 million	\$2.0 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Research Station Upgrades The project will transition research and development in line with government priorities and statutory responsibilities and includes a capital uplift across sites to meet future research and development priorities. The project will also enable strategic workforce planning to ensure the NSW Government retains areas of critical capability.	\$12.5 million	\$12.5 million
Snowy 2.0 Gaden Trout Hatchery The project will expand the Gaden Trout Hatchery capacity to produce up to 20 tonnes of additional fish to stock the Tantangara Reservoir and Lake Eucumbene with salmonid fish. This will address potential risks to the trout fishery from the translocation of Redfin perch due to the Snowy 2.0 project. The project will also build resilience into the existing populations of both Macquarie perch and Stocky galaxias and help the long term survival of both species within the upper Murrumbidgee Catchment, should a new incursion of pest fish occur.	\$5.3 million	\$0.4 million
Lower Darling Fish Passage Phase 2 Construction and commissioning of a new fishway at Burtundy Weir in the Lower Darling River in Western New South Wales. The project is part of the Commonwealth's Lower Darling Fish Passage Program established in response to the fish deaths in the 2018-19 summer in the Lower Darling River. Burtundy Weir is located 133 kilometres upstream from the confluence of the Lower Darling River and the River Murray and is the first barrier experienced by fish heading upstream from the Murray River junction.	\$5.0 million	\$4.0 million
Marine Estate Management Strategy – Stage 3 The Strategy aims to improve water quality, estuary health and other biodiversity and environmental metrics. Stage 3 of the Strategy builds on the progress of Stages 1 and 2, which have already delivered strong outcomes and received state, national and international acclaim, and will continue the delivery of the strategy, improving sustainable fish stock metrics while maintaining recreational fishing use metrics.	\$3.4 million	\$1.2 million

Box 2.16: Supporting economic growth in the regions

The NSW Government is investing across regional New South Wales to support regional job creation and economic growth. Major investments include:

- \$332.2 million to transform Parkes into a national freight and logistics hub
- \$212.2 million for Wagga Wagga to support existing and new companies to do business, including in renewables, recycling, advanced manufacturing, agribusiness and logistics
- \$196.3 million in the Snowy Mountains region to support the delivery of mixed housing supply and grow the region into a year-round tourism destination
- \$138.3 million to develop a new business hub in Moree specialising in horticulture, agrifood processing, freight logistics and renewable energy
- \$45.0 million to support farmers and agribusinesses adopt digital technology and on-farm connectivity solutions to improve resource management, productivity and water security.

Table 2.17: Key Primary Industries and Regional Development projects continuing in this Budget (inventory)

Project	Estimated total cost	Expenditure over four years to 2029-30
Parkes Special Activation Precinct The precinct takes advantage of Parkes' proximity to the Inland Rail Project and Trans-Australia Railway to establish an efficient freight and logistics hub and facilitate establishment of recycling and resource recovery, critical mineral processing, food manufacturing and renewable energy industries.	\$273.9 million	\$50.3 million
Wagga Wagga Special Activation Precinct The precinct capitalises on the Inland Rail Project, existing Bomen Business Park, attracting renewables and recycling, advanced manufacturing, agribusiness, innovation and education and freight and logistics industries.	\$159.0 million	\$85.5 million
Moree Special Activation Precinct The precinct capitalises on the region's existing agricultural industry, secure water resources and transport access by providing Moree with a new business hub, specialising in high value horticulture, agrifood processing, freight logistics and renewable energy. The project scope has been reduced following agreement with Moree Plains Shire Council.	\$114.0 million	\$72.3 million
Snowy Mountains Special Activation Precinct The precinct will support a diverse mix of housing and grow the region into a year round tourism destination, focusing on tourism, recreation and public amenity, while preserving and maintaining the important environmental and heritage values of the Snowy Mountains.	\$64.3 million	\$39.5 million

Pages 4-48 to 4-49 of Chapter 4 of this *Infrastructure Statement* list the major capital projects and minor works for the Primary Industries and Regional Development agencies, including the ETC, estimated expenditure to 30 June 2026, and 2026-27 allocation.

Page 4-61 Chapter 4 of this *Infrastructure Statement* list the major capital projects accounted for by delivery agencies as inventory, including the ETC, estimated expenditure to 30 June 2026, and 2026-27 allocations.

2.9 Transport

Transport agencies plan, deliver and operate the networks that connect people, communities and businesses across New South Wales. An integrated transport system – encompassing roads, rail, metro, bus, ferry, light rail, walking and cycling – supports economic growth, productivity and liveability, while enabling access to jobs, services and opportunities.

\$60.2
billion

Capital
Expenditure
to 2029-30

\$15.2
billion

Capital
Expenditure
2026-27

The portfolio focuses on delivering safe, reliable and efficient transport infrastructure that supports growing cities and regions, improves connectivity, and contributes to the development of vibrant precincts and places.

The Transport infrastructure program includes \$60.2 billion in investment over the four years to 2029-30. This includes major investment in Sydney's transformational Metro projects, as well as upgrades to regional roads and rail fleet, supporting improved transport outcomes across the State.

Table 2.18: Key new Transport projects commencing in 2026-27 included in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Regional Corridors Upgrade Program – Muswellbrook to Armidale (Phase 2) Delivering targeted upgrades to key road corridors.	n.a.	n.a.
Regional Corridors Upgrade Program – Euston to Tocomwal Delivering targeted upgrades to key road corridors.	n.a.	n.a.
Regional Corridors Upgrade Program – Newcastle to Dubbo (Phase 2) Delivering targeted upgrades to key road corridors.	n.a.	n.a.
M1 Tweed Heads and Byron Bay Investigating upgrades to key interchanges on the Pacific Motorway between the Gold Coast Highway connection near the Queensland border and Tweed Coast Road at Chinderah and planning for network improvements at the M1 Pacific Motorway and Ewingsdale Road interchange to provide safer and more efficient access into Byron Bay (NSW and Australian Government funded).	n.a.	\$30.0 million
M1 Pacific Motorway Upgrade between Wahroonga and Beresfield Upgrading M1 Pacific Motorway between Wahroonga and Beresfield with crossovers and associated Intelligent Transport Systems (ITS) infrastructure at priority locations to support safety and resilience by improving the network's ability to manage planned and unplanned incidents (NSW and Australian Government funded), noting funding is not scheduled to commence in 2026-27.	n.a.	\$30.0 million

Box 2.17: M1 Pacific Motorway Upgrade between Wahroonga and Beresfield

The M1 Pacific Motorway is a critical transport corridor connecting Sydney to the Central Coast and Hunter region and forms part of the National Land Transport Network. Between Wahroonga and Beresfield, the motorway carries up to 90,000 vehicles per day and supports regional connectivity for commuter, freight and recreational traffic. The safe and efficient operation of the corridor is essential to providing reliable and resilient access to major housing and employment areas and critical freight supply chains in the Central Coast and Hunter.

The M1 Pacific Motorway Upgrade between Wahroonga and Beresfield (jointly funded by the NSW and Australian Governments) will upgrade the motorway with crossovers and associated Intelligent Transport Systems (ITS) infrastructure at priority locations to support safety and resilience by improving the network's ability to manage planned and unplanned incidents.

The project will include delivery of new and upgraded median crossovers and associated ITS infrastructure to enable better management of planned and unplanned incidents on the motorway. The identified upgrades would support safer and more efficient contraflow operations being implemented during planned and unplanned incidents on the M1 Pacific Motorway as well as other upgrades to improve road user and worker safety, and network resilience.

The key outcomes the project is expected to deliver include:

- improved safety for all road users, including road workers and emergency services
- improved operational and incident management, including reduced incident clearance times
- improved network reliability and resilience during planned and unplanned incidents.

Table 2.19: Key State-wide Transport projects continuing in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Road Safety Investment		
Continuing the Government's commitment to the Road Safety Action Plan to deliver targeted and proven initiatives to improve road safety in New South Wales. The Towards Zero Safer Roads Program and Australian Government funded Road Safety Program builds on existing investment in thousands of kilometres of audio-tactile line markings, wide centre lines, school safety infrastructure works, crash barriers in regional NSW and other life-saving infrastructure across the State (NSW and Australian Government funded).	n.a.	\$1.1 billion
New Electric Bus Program		
The New Electric Bus Program will deliver thousands of new electric buses and electric bus depots to reduce our reliance on foreign fuels, meet the needs of the growing community and provide a cleaner and greener way to travel.	n.a.	\$2.4 billion
New Buses to Cater for NSW Services		
Procuring new buses to deliver reliable services across New South Wales.	n.a.	\$450.0 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Urban Roads Fund (URF)		
Improving capacity on key road corridors in Sydney to support housing uplift and flood resilience (through Western Sydney Flood Resilience, which is part of URF) and smaller projects to reduce congestion on roads in local communities, including: \$66.3 million to duplicate sections of Heathcote Road \$14.3 million for the Driftway Roundabout at Londonderry \$1.9 million for traffic lights at Bank Street.	n.a.	\$82.4 million* *Excludes projects that are partly funded through URF and are separately featured
Regional Roads Fund (RRF)		
The Regional Roads Fund allocates funding for new roads in rural and regional areas, including: \$30.7 million for the planning and design of Gosford Bypass \$11.3 million for the Alphadale Crossroads intersection on the Bruxner Highway to improve driver safety \$12.1 million for the Speers Point intersection and network improvements \$3.1 million for the southern left-hand slip lane at Tuross Head Intersection at the turnoff from the Princess Highway into Tuross Head \$31.8 million for signalising at the Yass, Bungendore, and Ellerton Drive roundabout intersection.	n.a.	\$89.2 million* *Excludes projects that are partly funded through RRF and are separately featured
Pinch Points		
Continuing NSW and Australian Government funded investment in small scale traffic improvements that provide big benefits to customers, including reduced congestion and travel times.	n.a.	\$103.5 million
RegStar Program		
Continuation of the RegStar Program into the next phase of delivery; commencing the establishment of the foundational platform needed to replace the ageing DRIVES system and to reduce cyber and operational risks.	n.a.	\$111.0 million
Opal 2.0		
To deliver the next generation of public transport ticketing by enhancing the existing Opal and contactless ticketing products, introducing new digital options, and delivering a modern, resilient ticketing system.	\$731.6 million	\$594.8 million
Bus Transport Management System (BTMS)		
To deliver improved data quality and tracking of buses, real-time customer information, passenger counting and driver assistance for 5,000 buses in Greater Sydney and Outer Metro.	n.a.	\$63.8 million
Maritime Infrastructure Upgrades		
Upgrading ferry wharves to improve accessibility and continue ongoing maintenance and upgrades to various regional maritime assets.	n.a.	\$39.8 million
Active Transport		
Developing and delivering projects that expand connected cycleway networks, which increase opportunities for cycling and walking in and around connected centres. Active Transport projects encourage more people to choose walking and cycling as modes of transport.	n.a.	\$95.7 million

Box 2.18: New Electric Buses

The NSW Government will invest \$6.5 billion over ten years for thousands of new electric buses and electric bus depots to reduce our reliance on foreign fuels, meet the needs of the growing community and underpin a revival of domestic bus manufacturing. The New Electric Bus Program will support domestic manufacturing in NSW by providing pipeline certainty with \$6.5 billion to build new electric buses and bus depots over ten years.

The New Electric Bus Program will deliver new and fit-for-purpose electric buses to upgrade the ageing bus fleet. The Program will focus on locally manufactured buses, creating and retaining manufacturing jobs in New South Wales. The program is being delivered in stages to allow industry to build capability.

The New Electric Bus Program includes the conversion of 17 existing depots to support the new electric fleet and the delivery of five new depots, including at Macquarie Park, in Western Sydney and at the Aerotropolis.

The replacement of the NSW bus fleet with electric vehicles is a critical part of the NSW Government's electrification agenda, which is even more important in the wake of the global fuel crisis.

Box 2.19: RegStar Program – Modernising Licensing and Registration Services

The Government is progressing the RegStar Program, a major investment to modernise Transport for NSW's licensing and registration system, which underpins road safety, compliance, regulatory outcomes and essential customer services across the State. An investment of \$89.0 million will enable a continuation of the RegStar Program into the next phase of delivery, commencing the establishment of the foundational platform needed to replace the ageing DRIVES system and reduce cyber and operational risks.

Full RegStar Program delivery will occur over phases across approximately four years and future funding cycles, establishing core technology foundations before transitioning high volume licensing and registration services and ultimately decommissioning the legacy platform. This staged approach ensures service continuity while progressively reducing operational and technology risks.

The full RegStar program will deliver a modern, modular platform that will replace the current legacy system, enabling more reliable, secure and customer centred services. It will improve road safety outcomes through stronger compliance controls, enhance policy agility, and support more efficient, integrated operations across government.

Customers and communities will benefit from more seamless digital services, greater flexibility in how they access licensing and registration services, and improved accessibility for regional and vulnerable groups.

Box 2.20: Opal 2.0

Opal 2.0 introduces a new account-based ticketing system providing a flexible, simple to use and enhanced ticketing system for the Opal network.

It will upgrade more than 25,000 readers across trains, buses, ferries, light rail and metro services, and enhance real-time data and communications across the network. These upgrades will enable more accurate service information, better tracking of services, and improved reliability across the transport system.

For customers, the upgrade will deliver more convenient and flexible ways to pay, including bank cards and digital ticketing options, physical cards and new barcode ticketing as well as improved travel information and personalised notifications to support journey planning. It will also enable automated fare adjustments and improved accessibility features, delivering fairer and more inclusive travel outcomes.

The program will be delivered progressively with benefits realised as upgrades are rolled out across the network. Full implementation is expected by mid-2029.

Table 2.20: Key Sydney Metropolitan Transport projects continuing in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Sydney Metro West Delivering a new metro line connecting Greater Parramatta with the Sydney CBD.	n.a.	\$12.9 billion
Sydney Metro - Western Sydney Airport Delivering six new metro stations to service the future Western Sydney International (Nancy-Bird Walton) Airport and the Western Sydney Aerotropolis, interchanging with the T1 Western Line at St Marys (NSW and Australian Government funded).	n.a.	\$2.2 billion
Sydney Metro City and Southwest Delivering the final stage from Sydenham to Bankstown, an extension of the M1 Line (formerly known as the Metro North West Line) from Chatswood, under Sydney Harbour, through new CBD stations and southwest to Bankstown.	\$22.3 billion	\$988.3 million
Sydney Metro - Western Sydney Airport - Northern extension - Business Case Developing a business case for a potential future rail connection between St Marys and Tallawong.	\$40.0 million	\$10.0 million
South West Sydney Rail Planning - Business Case Developing a business case for potential future rail connections between Bradfield and Leppington/Glenfield, and between Bradfield and Campbelltown/Macarthur (NSW and Australian Government funded).	n.a.	\$19.8 million
Western Harbour Tunnel Upgrade Continuing the delivery of the first stage of tunnelling works for a new crossing of Sydney Harbour. The first package will include construction of 1.7 kilometres of mainline tunnels from Rozelle to Birchgrove. The second package includes construction of northern tunnels from Birchgrove, through Sydney Harbour and onto North Sydney, the marine work and all the tunnel fit-out.	\$7.4 billion	\$2.3 billion
Warringah Freeway Upgrade Continuing upgrades of the Warringah Freeway for surface roads, bridges and interchanges along 4 kilometres of the freeway corridor.	n.a.	\$17.8 million

Project	Estimated total cost	Expenditure over four years to 2029-30
M6 Extension Stage 1		
Continuing the extension works, which aims to remove more than 2,000 trucks a day from surface roads, enable motorists to bypass up to 23 sets of traffic lights on the Princes Highway and enhance pedestrian and cyclist safety through shared pathways.	n.a.	\$505.7 million
M5 Motorway, Moorebank Avenue and Hume Highway Intersection Upgrade		
Delivering the M5 Westbound Traffic Upgrade to provide a new two-lane bridge over Georges River and rail line, and a new underpass at Moorebank Avenue. These upgrades will reduce congestion and improve travel times, accessibility and connectivity of road networks (NSW and Australian Government funded).	\$380.0 million	\$245.0 million
New Richmond Bridge and Traffic Improvements		
Providing a new bridge over the Hawkesbury River between Richmond and North Richmond. The project will deliver journey time reliability, safer connections along the road corridor and improve flood resilience (NSW and Australian Government funded).	\$658.0 million	\$563.2 million
Mamre Road Stage 1 - M4 Motorway to Erskine Park Road		
Widening 3.8 kilometres of Mamre Road, between the M4 Motorway and Erskine Park Road, from a two-lane undivided road to a four-lane divided road, with provision for two additional lanes in the future. This upgrade will provide a safer and higher capacity link.	\$290.0 million	\$121.2 million
Richmond Road Upgrade between Elara Boulevard and Heritage Road, Marsden Park		
Upgrading a section of Richmond Road, north of Elara Boulevard. The upgrade will provide safer and improved access to fast growing residential developments in the Marsden Park precinct and future commercial and residential developments in the Marsden Park North precinct (NSW and Australian Government funded).	\$150.0 million	\$139.6 million
Epping Station Bridge Replacement		
Replacing the Epping Road Bridge over rail near Epping Train Station to provide additional westbound lane, central median and wider footpaths (NSW and Australian Government funded).	n.a.	\$123.9 million
Hill Road Upgrade (at Sydney Olympic Park and Lidcombe)		
Upgrading Hill Road between Parramatta Road and Old Hill Link Road to improve connectivity to Carter Street Precinct, Sydney Olympic Park and surrounding areas.	\$140.0 million	\$53.4 million
Homebush Bay Drive and Australia Ave Intersection Upgrade		
Upgrading the intersection of Homebush Bay Drive, Australia Avenue and Underwood Road. The project will ease congestion, increase safety and improve travel times to Homebush and Sydney Olympic Park (NSW and Australian Government funded).	n.a.	\$181.1 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Connecting Sydney Roads		
Upgrading the Sydney road network to support population and employment growth in Sydney. Key projects include:		
• \$816.2 million for Mamre Road Stage 2 - Erskine Park Road to Kerrs Road (NSW and Australian Government funded) • \$976.6 million for Elizabeth Drive Upgrades (NSW and Australian Government funded) • \$471.4 million for Richmond Road Upgrade between M7 Motorway and Townson Road, Marsden Park (NSW and Australian Government funded) • \$191.4 million for Mulgoa Road Stage 2 – Glenmore Parkway to Jeanette Street (NSW and Australian Government funded) • \$265.6 million for Mona Vale Road West - McCarrs Creek Road to Powder Works Road (NSW and Australian Government funded) • \$289.1 million for Garfield Road East (NSW and Australian Government funded) • \$153.4 million for Appin Road Upgrades (NSW and Australian Government funded) • \$170.3 million for The Horsley Drive, M7 Motorway to Cowpasture Road (NSW and Australian Government funded) • \$98.9 million for Western Sydney Long Term Strategic Transport Corridor Preservation • \$61.7 million for Wakehurst Parkway.	n.a.	\$3.5 billion ^(a)
(a) Note figure excludes projects that are featured in other tables: Epping Station Bridge Replacement; Western Sydney Heavy Vehicle Rest Area; Hill Road Upgrade; Homebush Bay Drive and Australia Ave Intersection Upgrade; Mamre Road Stage 1 - M4 Motorway to Erskine Park Road; New Richmond Bridge and Traffic Improvements; Picton Bypass (Planning); Richmond Road Upgrade between Elara Boulevard and Heritage Road, Marsden Park; Garfield Road West (Planning); Townson and Burdekin Road Upgrades (Planning); Richmond Road Corridor Upgrade (Planning); Francis Road Rail Overpass at Rooty Hill (Planning); Devonshire Link Road and Bradfield Metro Link Road (Planning); Devonshire Road (Planning); Flushcombe Road & Bungaribee Road Intersection Upgrade (Planning).		
Macquarie Park Precinct and Bus Interchange		
Upgrading the bus interchange and precinct that creates a place for people to enjoy, meet and connect. Connecting people to Macquarie University, Macquarie Centre, Macquarie Business Park and residential and commercial areas.	n.a.	\$91.8 million
The upgrade will improve travel efficiency and connectivity, making it easier for people to move safely into and around Macquarie Park (NSW and Australian Government funded).		
Pitt Town Bypass		
Upgrading the bypass to reduce traffic through the town centre, improve safety for road users and enhance flood resilience for local residents.	\$110.0 million	\$48.1 million
Fifteenth Avenue Upgrade		
Planning and delivering a new Fifteenth Avenue Upgrade, which is a vital east-west connection along Fifteenth Avenue between Liverpool and Bradfield (NSW and Australian Government funded).	n.a.	\$1.0 billion
Parramatta Light Rail Stage 2		
Extend Stage 1 at Camellia for the next phase of construction works to Wentworth Point.	n.a.	\$1.4 billion
Safe, Accessible Transport Program		
Continuing to deliver and develop upgrades to stations to achieve Disability Standards for Accessible Public Transport (DSAPT) compliance, improving amenity, access and safety.	n.a.	\$428.5 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Rail Service Improvement Program		
Continuing the program to simplify and modernise the rail network and integrate Sydney Metro City and Southwest with Sydney's train network. Customers can expect more frequent train services with shorter wait times and reduced crowding, including additional services on the Illawarra, Airport and South Coast lines.	n.a.	\$1.1 billion
New Bus Services for Western Sydney		
Delivering new bus services, which will connect Liverpool, Penrith and Campbelltown to the Western Sydney International Airport and Bradfield City Centre (NSW and Australian Government funded).	n.a.	\$277.0 million
Eastern Ring Road and Badgerys Creek Road South (Planning)		
Planning for the priority roads, which form part of the Western Sydney Airport Precinct Road Network. This will improve access to new jobs and housing in the Aerotropolis (NSW and Australian Government funded).	n.a.	\$22.3 million
South West Sydney Roads (Planning)		
Planning for the South West Sydney Roads program, which will identify critical road upgrades needed to support growth areas including the Greater Macarthur, South West Sydney and Wilton areas (NSW and Australian Government funded).	n.a.	\$52.0 million
Western Sydney Roads (Planning)		
Planning for the key corridors in Western Sydney to support housing growth by ensuring that road infrastructure can keep pace with the current and future transportation needs of the rapidly expanding population of Western Sydney (NSW and Australian Government funded).	n.a.	\$26.0 million
Western Sydney Freight Line and Intermodal Terminal (Planning and Development)		
Continuing planning for the Western Sydney Freight Line and Intermodal Terminal, which will provide the missing link in NSW's freight rail network connecting Port Botany and Western Sydney (NSW and Australian Government funded).	n.a.	\$49.5 million
Tangara Fleet Life Extension		
Extending the life of the Tangara Fleet to operate until 2036, beyond the extended design life in 2028, to resolve obsolescence, ageing, safety and customer experience issues. This will enable a longer term replacement to come online with more than 50 per cent local manufacturing content.	\$447.4 million	\$396.3 million
Future Fleet Program (Planning)		
Delivering a Full Business Case for the Future Fleet Program to seek an investment decision for a long-term domestic rolling stock pipeline with a 50 per cent local content target, to design a modern, fit-for-purpose double-deck suburban passenger train to replace the Tangara, with consideration of the Millennium and OsCAR fleets. This includes associated infrastructure and asset upgrades to support the new fleet deployment.	n.a.	\$151.6 million
Western Sydney Heavy Vehicle Rest Area		
Delivering a new heavy vehicle rest area at Eastern Creek, to provide space for a range of heavy vehicles, including oversize overmass, that will provide truck drivers a safe and accessible area to rest and manage fatigue as part of their journey (NSW and Australian Government funded).	n.a.	\$54.8 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Devonshire Road (Planning) Delivering a business case for Devonshire Road to Mamre Road link with M12 access. This vital link will connect Mamre Road precinct, reducing travel times and improving freight access and connectivity.	n.a.	\$13.5 million
Richmond Road Corridor Upgrade (Planning) Delivering a business case for upgrade of Richmond Road Corridor between M7 Motorway and The Driftway. The project will help finalise planning on the Richmond Road Corridor to inform a future investment decision for construction (NSW and Australian Government funded).	n.a.	\$41.0 million
Garfield Road West (Planning) Continuing planning and pre-development activities to support the upgrading of a 3.2 kilometre section of Garfield Road West between Richmond Road, Marsden Park and Denmark Road, Riverstone. The upgrade will increase road capacity to accommodate growing traffic demand, improve safety and provide more efficient public transport services with bus priority signals and more dedicated traffic lanes (NSW and Australian Government funded).	n.a.	\$13.1 million
Townson and Burdekin Road Upgrades (Planning) Continuing planning and pre-development activities to support the upgrading of 1.6 kilometres of Townson Road between Richmond Road and Jersey Road, delivering two-lanes in either direction, separated by a raised median (NSW and Australian Government funded).	n.a.	\$13.2 million
Francis Road Rail Overpass at Rooty Hill (Planning) Delivering a business case to assess construction of a new two-lane bridge over the railway to accommodate a dual carriageway.	n.a.	\$1.7 million
Devonshire Link Road and Bradfield Metro Link Road (Planning) Delivering a business case for Devonshire Link Road and Bradfield Metro Link Road (NSW and Australian Government funded).	n.a.	\$23.4 million
Flushcombe Road and Bungarribee Road Intersection Upgrade (Planning) Planning to upgrade the roundabout at the intersection of Bungarribee Road and Flushcombe Road, Blacktown to improve road safety, travel times and pedestrian accessibility.	n.a.	\$0.5 million
Airport Precinct Safety and Access Program (APSAP) Planning and delivery of short-term safety and access improvements within the Western Sydney Airport Precinct.	n.a.	\$44.2 million
Western Sydney International Airport Wayfinding Delivering an integrated wayfinding and signage transport solution for Western Sydney Airport Precinct. This will provide improved connectivity for passengers and customers through integration of state-wide customer information and signage.	n.a.	\$28.7 million
Windsor Road Upgrade at Rouse Hill Developing a business case and commence delivery of road capacity and safety improvements along Windsor Road, including the intersection with Commercial Road to support the new Rouse Hill Hospital (NSW and Australian Government funded).	n.a.	\$365.0 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Sydney Fish Markets Ferry Stop Delivering a passenger wharf at the New Sydney Fish Markets, including a berth for public ferry services and additional berths for recreational and multi-purpose vessels, to support expected patronage and tourist demand.	n.a.	\$26.8 million
Safe, Accessible Transport Upgrades Planning and delivery of upgrades to public transport infrastructure to achieve Disability Standards for Accessible Public Transport (DSAPT) compliance, improving amenities, access and safety for locations including Wentworth Park Light Rail stop.	n.a.	\$38.7 million
Henry Lawson Drive Upgrade Stage 1B Upgrading 1.8 kilometre section between Auld Avenue and the approach to the M5 Motorway. Widening of Henry Lawson Drive from two lanes to four lanes, intersection upgrades at Bullecourt Ave and Pozieres Ave, provision of new link roads between Auld Ave, Keys Parade, and Raleigh Road, and shared paths and footpaths (NSW and Australian Government funded).	n.a.	\$233.7 million
Spring Farm Parkway Stage 2 (Planning) Planning to complete the key east-west link between the suburbs of Menangle Park and Spring Farm to support the Greater Macarthur Growth Area (NSW and Australian Government funded).	n.a.	\$9.1 million

Box 2.21: Elizabeth Drive Upgrade

The NSW and Australian Governments are progressing the Elizabeth Drive upgrade to improve safety and support growth and connectivity around the Western Sydney Airport precinct. This Budget includes an additional \$200.0 million from the NSW and Australian Governments to deliver additional scope and accelerate the project, bringing the total project funding to \$1.0 billion.

The Elizabeth Drive upgrade will provide two lanes in each direction with landscaping and paths for walking and cycling between the toll free M12 Motorway and Devonshire Road.

The additional investment will enable delivery of the full Elizabeth Drive Upgrade between Martin Road and Badgerys Creek Road, unlocking a critical east-west freight and commuter corridor that will connect Western Sydney communities to the new Western Sydney Airport and Aerotropolis precinct. New funding will also fast track construction to this year.

Completing the full scope now avoids future rework, reduces long-term construction and disruption costs, and ensures the corridor can safely and efficiently manage the significant traffic growth expected from the airport's opening. Importantly, the Martin Road intersection upgrade is essential to unlocking more than \$1.0 billion in adjoining employment lands, catalysing jobs and economic activity.

Box 2.22: Parramatta Light Rail Stage 2

Parramatta Light Rail Stage 2 will extend light rail services between Parramatta CBD and Sydney Olympic Park, expanding the existing Parramatta Light Rail Stage 1 network. The project will support housing and employment growth by improving connectivity between Parramatta CBD and the precincts of Camellia, Ermington, Melrose Park, Wentworth Point and Carter Street. It will enhance access to major employment hubs, health facilities, transport interchanges, community amenities and major event destinations, particularly within Sydney Olympic Park.

Parramatta Light Rail Stage 2 comprises approximately 10 kilometres of new light rail track, 14 new stops, new river and road bridges, an expanded stabling and maintenance facility, new light rail vehicles, active transport links and public domain upgrades.

The project is being delivered in stages. Stage 2a will provide light rail services between Parramatta CBD and Wentworth Point.

Transport has commenced procurement for Stage 2a, which will deliver 4.5 kilometres of track, nine new stops, two new bridges over the Parramatta River and Silverwater Road, expansion of the Stage 1 stabling and maintenance facility, additional light rail vehicles and public space upgrades.

Construction of the enabling works commenced in October 2025. This phase includes delivery of the first 1.3 kilometres of new alignment, including an active and public transport bridge between Wentworth Point and Melrose Park.

Box 2.23: New Bus Services for Western Sydney

Western Sydney is growing at an unprecedented pace — and demand for fast, reliable public transport is accelerating just as quickly. High-frequency bus services linking Penrith, Campbelltown, Liverpool, Camden, Mt Druitt, Leppington, Bradfield and the Western Sydney International Airport are now essential infrastructure.

The NSW Government has already laid the foundation: investing in new bus services for Western Sydney, acquiring new electric buses, upgrading depots for charging, resurfacing Badgerys Creek Road, delivering the Bradfield Interchange and Layover, and commencing services ahead of airport opening. Building on this investment by expanding services now will ensure equitable access to employment, education and health precincts, unlock economic growth, and enable Western Sydney to operate as a truly connected, accessible metropolitan region.

Additionally, to support this expansion, the NSW and Australian Governments have jointly funded the critical enabling infrastructure including the Aerotropolis Bus Depot Electrification. Currently, there is no state-owned zero-emission bus depot located near these growth areas, while existing privately owned depots are already operating at capacity and unable to accommodate additional fleet. Planning is now underway to deliver a modern facility ensuring a sustainable, scalable transport solution for the region's future.

Box 2.24: Windsor Road Upgrade at Rouse Hill

The Windsor Road Upgrade at Rouse Hill jointly funded by the NSW and Australian Governments includes widening Windsor Road and Commercial Road with improvements to intersections, and public and active transport connections which will support growth in the North West Growth Area (NWGA) and the future hospital operations.

The upgrades are essential to mitigate existing and projected congestion in the NWGA and the future Rouse Hill Hospital located at the corner of Commercial Road and Windsor Road. The upgrades will support access for patients, staff and visitors and emergency services. The road upgrades are required to be completed to support the hospital critical services and cater for the broader NWGA.

Table 2.21: Key Regional and Outer Metro Transport projects continuing in this Budget

Project	Estimated total cost	Expenditure over four years to 2029-30
Princes Highway Corridor Upgrade		
Continuing investments for priority projects with expenditure over four years including:		
\$38.4 million for Jervis Bay Road Intersection upgrade, to improve safety, reduce congestion and improve access to local roads (NSW and Australian Government funded) \$340.9 million for Jervis Bay Road and Hawken Road (NSW and Australian Government funded) \$788.5 million for Milton-Ulladulla Bypass to improve safety, journey times and freight efficiency (NSW and Australian Government funded) \$75.6 million for Princes Highway Safety and Freight Productivity upgrades.	n.a.	\$1.2 billion
Pacific Motorway, Extension to Raymond Terrace		
Continuing main works construction of the upgrade to connect the M1 Pacific Motorway and the Pacific Highway (NSW and Australian Government funded).	\$1.9 billion	\$390.5 million
Pacific Highway Corridor - Coffs Harbour Bypass		
Continuing construction of the Pacific Highway upgrade program to improve connectivity, road transport efficiency and safety for local and interstate motorists (NSW and Australian Government funded).	\$2.2 billion	\$227.3 million
New England Highway Duplication Goonoo Goonoo		
Continuing planning and commencing delivery of the New England Highway corridor (Goonoo Goonoo Road) (NSW and Australian Government funded).	n.a.	\$35.0 million
New England Highway Corridor - Muswellbrook Bypass		
Continuing early works activities and commence construction on the Muswellbrook Bypass to improve travel times for long-haul freight movements and safety for all road users on the New England Highway (NSW and Australian Government funded).	n.a.	\$258.2 million
New England Highway Corridor – Singleton Bypass		
Continuing main works construction of the bypass for Singleton to improve traffic flow, travel times and safety for motorists (NSW and Australian Government funded).	\$700.0 million	\$119.1 million
Newell Highway Corridor Upgrade		
Continuing the delivery of priority projects including:		
\$29.9 million for new Dubbo Bridge (NSW and Australian Government funded) \$163.6 million for North Moree heavy duty pavement upgrades (NSW and Australian Government funded) \$31.8 million for the intersection upgrades at Hargraves Lane and Federation Street connecting the Newell Highway, Oxley Highway and Castlereagh Highways in Gilgandra (NSW and Australian Government funded) \$77.3 million to develop and deliver flood mitigation solutions on the Newell Highway between West Wyalong and Forbes (NSW and Australian Government funded).	n.a.	\$302.5 million
Wyong Town Centre		
Finalising planning and commencing construction for the upgrade of the Pacific Highway through Wyong Town Centre (NSW and Australian Government funded).	n.a.	\$331.6 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Central Coast Highway, Tumby Road Intersection Upgrade Continuing construction of the Central Coast Highway, Tumby Road Intersection upgrade (NSW and Australian Government funded).	\$65.5 million	\$31.9 million
Mandalong Road Upgrade Completing planning and commencing construction for the Mandalong Road upgrade (NSW and Australian Government funded).	n.a.	\$42.5 million
Bells Line of Road Upgrade Program Continuing development and delivery of safety upgrades to enable a safer journey on the scenic route between the Central West, Blue Mountains and Richmond (Australian Government funded).	n.a.	\$98.4 million
Newcastle Inner City Bypass from Rankin Park to Jesmond Completing construction of the final stage of the Newcastle Inner City Bypass between the Pacific Highway at Bennetts Green and the final stage of the Pacific Highway at Sandgate (NSW and Australian Government funded).	\$481.9 million	\$38.8 million
Barton Highway Improvements Continuing duplication of the Barton Highway to improve road safety while enhancing tourism, driving economic growth and creating vibrant regional spaces (NSW and Australian Government funded).	n.a.	\$126.3 million
Hume Highway Upgrade Continuing pavement surface upgrades on the Hume Highway at Marulan.	\$35.0 million	\$11.0 million
Mount Ousley Interchange Continuing major construction of the interchange to replace the existing intersection of the M1 Princes Motorway and Mount Ousley Road at the base of Mount Ousley (NSW and Australian Government funded).	\$390.0 million	\$186.1 million
Picton Road Upgrade (Planning) Continuing planning the upgrade of Picton Road to improve safety and connectivity as a key link for the Illawarra Region, South Coast, Sydney, Canberra and Melbourne (NSW and Australian Government funded).	n.a.	\$66.4 million
Waterfall Way Upgrade Continuing works along Waterfall Way including flood immunity projects to improve reliability and safety.	\$50.0 million	\$22.1 million
Marshall's Creek Bridge Continuing construction to widen the Sturt Highway to four lanes over Marshall's Creek Bridge to improve safety and ease congestion on the highway through Wagga Wagga.	\$30.0 million	\$14.4 million
Fixing Country Rail Program Providing improved capacity, access, efficiency and reliability of the regional rail network, as well as delivering a highly functional transport network for moving freight in and out of regional areas.	n.a.	\$42.1 million
Regional Rail Fleet Delivering a modern Regional Rail Fleet to replace the ageing XPT, XPLOER and Endeavour trains and improve travel.	n.a.	\$844.2 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Mariyung Fleet (New Intercity Fleet) Delivering a new, state-of-the-art fleet and associated power supply upgrades to provide a new level of comfort and convenience and improve accessibility and safety for customers who travel between Sydney, the Central Coast and Newcastle, the Blue Mountains and the South Coast.	n.a.	\$746.0 million
Hume Highway Corridor Strategy (Planning) Continuing to deliver a corridor assessment and management strategy for the full length of the Hume Highway from Marulan to the Victorian Border (NSW and Australian Government funded).	n.a.	\$8.5 million
Swan Hill Bridge Replacement Continuing planning for a new bridge at Swan Hill and carry out staged maintenance work to maintain operational capacity and heritage significance (NSW and Australian Government funded).	n.a.	\$59.0 million
Nowra Bypass and Network Improvements (Planning) Continuing planning, as part of the Princes Highway Upgrade Program, that aims to provide improved safety, better connected communities, eased traffic congestion and support regional economies through the NSW South Coast (NSW and Australian Government funded).	n.a.	\$100.8 million
Picton Bypass (Planning) Continuing planning for the Picton Bypass that would provide an alternative route for heavy vehicles by linking Thirlmere and Tahmoor with the Hume Motorway via Picton Road (NSW and Australian Government funded).	n.a.	\$10.8 million
Avoca Drive, Central Coast Commence delivery of the upgrade of Avoca Drive to improve traffic flow through Kincumber (NSW and Australian Government funded).	n.a.	\$39.2 million
Nelson Bay Road - Williamtown to Bobs Farm Continuing work on the duplication of Nelson Bay Road from Williamtown to Bob's Farm (NSW and Australian Government funded).	n.a.	\$87.4 million
Pacific Highway - Harrington Road Intersection Upgrade, Coopersnook Finalising planning and commencing construction on the Pacific Highway Harrington Road Intersection upgrade (NSW and Australian Government funded).	n.a.	\$47.5 million
Terrigal Drive Upgrade Delivering essential road infrastructure to improve safety, reduce congestion, and enhance transport efficiency (Australian Government funded).	n.a.	\$108.2 million
Tichborne and Harris Gates Grade Separation Road Interface Continuing development and for the delivery of grade separation road interfaces at Tichborne (Newell Highway south of Parkes) and Harris Gates (Olympic Highway near Illabo). This project will improve safety and reduce delays where Inland Rail intersects the Newell and Olympic highways (NSW and Australian Government funded).	n.a.	\$234.4 million
M1 Princes Motorway Entry and Exit Ramps at Dapto Continuing planning for new south-facing entry and exit ramps on the M1 Princes Motorway at Dapto, to improve access to the motorway for residents and reduce journey times and congestion on local roads (NSW and Australian Government funded).	n.a.	\$21.9 million

Project	Estimated total cost	Expenditure over four years to 2029-30
Hillsborough Road, Warners Bay to Charlestown (Stage 1)		
Upgrading Crockett Street intersection, including the installation of traffic lights and duplication of 700 metres of the road at this location.	\$36.9 million	\$20.0 million

Box 2.25: Princes Highway - Jervis Bay Road to Hawken Road

The Princes Highway upgrade jointly funded by the NSW and Australian Governments is from Jervis Bay Road, Falls Creek to Hawken Road, Tomerong. The proposed upgrade will provide two lanes in each direction for six kilometres of the highway, separated by a median barrier. There will also be an intersection upgrade at Hawken Road, Tomerong.

The upgrade will connect to the Princes Highway and Jervis Bay Road intersection upgrade which is currently under construction. Other features of the project include access roads for local residents to access the highway, fauna connectivity measures to reduce the impact on wildlife and a bus stop and shared paths at the Hawken Road intersection.

The project benefits include improved safety, traffic efficiency, freight access and network resilience.

The project is currently in development. Transport has released the environmental assessment and concept design of the proposed upgrade to the public for feedback in May 2026.

Figure 2.4: Proposed upgrade of the Princes Highway and Hawken Road intersection at Tomerong, New South Wales

Box 2.26: M1 Pacific Motorway, Extension to Raymond Terrace

The NSW and Australian Governments are funding the 15 kilometre M1 Pacific Motorway extension to Raymond Terrace project with a commitment of \$1.9 billion. The extension will boost the regional economy and improve connectivity, road transport efficiency and safety for local and interstate motorists.

The project addresses a key national motorway ‘missing link’ between Sydney and Brisbane as the existing M1 Pacific Motorway, New England Highway and Pacific Highway carry some of the highest traffic volumes across the Hunter.

The 15 kilometre extension of the motorway will feature: removal of five sets of traffic lights and cutting nine minutes from travel times during peak periods. It will also deliver a 2.6 kilometre viaduct over the Hunter River and floodplain, the Main North Rail Line, and the New England Highway. Additionally, there will be new bridge crossings over local waterways at Tarro and Raymond Terrace, and an overpass for Masonite Road at Heatherbrae.

The upgrade will:

- improve connection between the M1 Pacific Motorway and the Pacific Highway
- improve traffic flow for motorists and freight for more reliable travel times
- improve accessibility to the surrounding road network
- improve safety for all road users.

Pages 4-50 to 4-56 of Chapter 4 of this *Infrastructure Statement* list the major capital projects and minor works for the Transport agencies, including the ETC, estimated expenditure to 30 June 2026, and 2026-27 allocation.

2.10 Treasury (including Infrastructure NSW)

Treasury and portfolio agencies support the NSW Government's economic and financial management by providing policy advice, managing the State's finances, and investing in systems that underpin effective public financial management. The Treasury capital program includes investment in core financial management systems that support budgeting, reporting and fiscal oversight across government.

Capital
Expenditure
2026-27

Infrastructure NSW supports the delivery of a strong and sustainable infrastructure program by providing independent advice and assurance on the identification, prioritisation and delivery of critical public infrastructure. It also leads the development of selected priority projects and precinct transformations, helping to ensure infrastructure investment delivers long-term value for the people of New South Wales.

Table 2.22: Key Treasury (including Infrastructure NSW) projects continuing in this Budget (capitalised)

Project	Estimated total cost	Expenditure over four years to 2029-30
Barangaroo Precinct		
Continuing the transformation of the Barangaroo precinct including the coordination of the Central Barangaroo development including the delivery of a 1.85 hectare foreshore public park on Sydney Harbour.	\$725.0 million	\$90.9 million

Table 2.23: Key Treasury (including Infrastructure NSW) projects continuing in this Budget (inventory)

Blackwattle Bay Urban Redevelopment		
Progress the revitalisation of Blackwattle Bay through precinct planning to support future development and delivery of a public park in Bank Street.	\$75.2 million ⁹	\$34.5million

Pages 4-57 to 4-58 of Chapter 4 of this *Infrastructure Statement* list the major capital projects and minor works for the Treasury agencies, including the ETC, estimated expenditure to 30 June 2026, and 2026-27 allocation.

Page 4-61 Chapter 4 of this *Infrastructure Statement* list the major capital projects accounted for by delivery agencies as inventory, including the ETC, estimated expenditure to 30 June 2026, and 2026-27 allocations.

⁸ Includes infrastructure expenditure classified as inventory in accordance with Australian Accounting Standards.

⁹ The Blackwattle Bay Urban Renewal project is in the process of being transferred to the Bays West Delivery Authority, with detailed arrangements to be confirmed. There is \$3.8 million of capital expenditure reclassified to operating expenditure.

3. Infrastructure investment delivered across New South Wales

3.1 Key infrastructure delivered

In 2025-26, a projected \$30.1 billion is been invested in the delivery of key infrastructure across New South Wales, supporting high-quality essential services and improving connectivity and liveability. This investment has enabled the continued delivery of major projects across transport, health, education, housing, energy and community infrastructure in metropolitan, regional and rural areas.

Major infrastructure delivered in 2025-26 includes:

- the toll-free M12 Motorway, improving access to Western Sydney International Airport and strengthening east-west connectivity across Western Sydney
- the New Sydney Fish Markets opened in January 2026, delivering modern public facilities that support the seafood industry, boost tourism and improve waterfront access
- the Sydney Children’s Hospital at Westmead, a purpose-built 14-storey building providing new and enhanced critical care and acute healthcare services for children
- the Sydney Children’s Hospital, Randwick – Stage 1 and Children’s Comprehensive Cancer Centre have delivered an expanded emergency, oncology and inpatient services, supported by a co-located childhood cancer research and treatment facility
- an upgrade to Concord High School including 40 new classrooms, specialist learning spaces, a support unit and a new hall to meet growing enrolments in Sydney’s inner west.

3.2 Climate Change, Energy, the Environment and Water

Table 3.1: *Key Climate Change, Energy, the Environment and Water projects delivered in 2025-26*

Key Climate Change, Energy, the Environment and Water projects delivered in 2025-26

Biodiversity Land Acquisition

Land has been acquired under this project to conserve biodiversity outcomes consistent with the Cumberland Plains Conservation Plan.

Digital Upgrade to the Biodiversity Offset Scheme

A digital architecture upgrade and re-design to ensure the underlying digital infrastructure meets the demands of the Biodiversity Offset Scheme was completed.

Hunter Central Coast Renewable Energy Zone

EnergyCo reached contractual agreement with Ausgrid in December 2025 for the Hunter Central Coast Renewable Energy Zone. This is the first distribution renewable energy zone with 1.8 Gigawatts of generation capacity, of which the first phase of 350 Megawatts has already been delivered.

3.3 Communities and Justice

Table 3.2: Key Communities and Justice projects delivered in 2025-26

Key Communities and Justice projects delivered in 2025-26
Fire Station Upgrades The 2023 election commitment of \$5.0 million for the Heathcote Electorate supported upgrade works at Coledale Fire Station and minor works at Sutherland and Thirroul Fire Stations, with approximately \$4.6 million allocated to the acquisition of land for the replacement Engadine Fire Station, supporting improved firefighter safety, operational capability and compliance with modern station standards.
Minor capital works Upgrades and enhancements across a large range of assets in metropolitan and regional areas. Major achievements include upgrades to the Downing Centre in custodial and public areas, AVL upgrades, Digital Court Reform improvements, Tweed Heads Courthouse roof replacement, Sherwood House upgrades, upgrades to the Land & Environment Courthouse and opening of a new Sheriff's Academy in Parramatta.
Moree Bail Accommodation Program Refurbishment of a new residence in Moree to support a new initiative that provides temporary and safe accommodation for young people on bail.
Moss Vale Fire Station Upgrade Upgraded facilities that enhance firefighter safety and emergency response capability and provide the station's 14 firefighters with modern amenities.
Sustaining Critical Infrastructure Program Phase 2 This project has delivered critical infrastructure works across Communities and Justice assets including frontline service centre upgrades in Tuggerah, Ballina, Glen Innes, electronic and perimeter security upgrades across a range of courthouses, youth justice centres and frontline service centres and the establishment of a new and contemporary NSW Civil and Administrative Tribunal in Tweed Heads.
Engadine Fire Station Land Acquisition The acquisition of a second parcel of land for the replacement Engadine Fire Station, supporting delivery of the Heathcote Electorate election commitment.
Bega Police Station State-of-the-art police station at Bega providing officers with the infrastructure and resources required to continue their important work of fighting crime and keeping the community safe.
Moama Police Station The completion of the new police station at Moama on the existing site serves as a central regional policing hub for the entire district, fitted with modern technology and facilities to support local officers to better serve the district and reduce crime.
Cladding Remediation Project The remediation of cladding to improve NSW Police Stations at Raymond Terrace, Liverpool, Granville and Wyong.
Digital Evidence First Responder Program Phase 3: Digital Evidence Cloud The expansion of cloud storage capacity for digital evidence to enable rapid collection and storage of evidence to assist with fighting crime.

3.4 Creative Industries, Tourism, Hospitality and Sport

Table 3.3: Key Creative Industries, Tourism, Hospitality and Sport projects delivered in 2025-26

Key Creative Industries, Tourism, Hospitality and Sport projects delivered in 2025-26

Art Gallery Critical Asset Maintenance – Non-Collections

Critical upgrades to the Art Gallery of NSW's non-collection items are complete, including essential building and safety maintenance works. This project ensures New South Wales state assets are preserved and maintained for future years.

Brett Whiteley Studio Upgrade

The Brett Whiteley Studio Upgrade involved a series of capital works to maximise the use of available space. The works included the replacement of the roof and plant, as well as the installation of a lift to improve accessibility. This project was partially funded through philanthropic donations.

State Library Critical Asset Maintenance Program

The State Library critical asset maintenance program included replacement of seven elevators over a period of two years, maintaining safety and compliance standards and continued building access for visitors and staff. It also rectified high-risk safety, compliance and collection security issues identified during condition assessments. These works included upgrades to security and CCTV systems, fire detection and sprinkler system improvements, building code compliance upgrades and replacement of roof membranes to resolve ongoing water ingress issues.

Powerhouse Parramatta

The NSW Government is delivering Powerhouse Parramatta, establishing the largest museum in New South Wales and the first state cultural institution in Western Sydney. Construction of the main building is complete, with exhibition fit-out and final public domain works underway ahead of its opening in late 2026.

3.5 Customer Service

Table 3.4: Key Customer Service projects delivered in 2025-26

Key Customer Service projects delivered in 2025-26

Parking Space Levy System Enhancements

A remediation program in 2024-25 and 2025-26 to address current IT, data and administration issues.

3.6 Education

Table 3.5: Key Education projects delivered in 2025-26

Key Education projects delivered in 2025-26

Concord High School

The Concord High School upgrade delivered 40 new classrooms across three new buildings by Day 1 Term 1 2026. While external work is still progressing, the removal of existing 17 demountables is underway. The upgrade also included specialist classrooms and learning spaces for visual arts, performing arts and PDPHE, a new support learning unit with three classrooms and a new school hall. The installation of new courts and landscaping are expected to be completed by mid-2026.

Key Education projects delivered in 2025-26

Darcy Road Public School

This school upgrade was delivered by Day 1 Term 4 2025 with the removal of all demountable buildings from Darcy Road Public School. In total, 44 demountables were removed from the school following the opening of the upgrade. The upgrade delivered new teaching blocks equipped with advanced technology to enhance student engagement and diverse learning needs, a new covered outdoor learning area, administration buildings and library. The final stage of works is expected to be complete by mid-2026 with a refurbished and extended hall.

Newcastle High School

As part of the redevelopment project, Newcastle High School upgrades have seen refurbishment works in Building A for new student administration completed and opened by Day 1 Term 1 2026. The high school has also officially opened its new learning hub and multipurpose hall. The new learning hub includes a library, canteen, covered outdoor learning area, classrooms, science labs and hospitality facilities. The new multipurpose hall includes a gymnasium, stage, fitness lab, classrooms and indoor sports court. The delivery of four new outdoor courts by mid-2026 will bring the project to full completion.

Riverbank Public School

Riverbank Public School upgrade was completed by Day 1 Term 1 2026 to ensure the growing communities of Western Sydney get access to world class public education. This project delivered a refurbishment and extension of the existing hall, a replacement covered outdoor learning area, upgrade to amenities, a refurbished and larger canteen, and a new outside of school hours care office with a kitchenette and storeroom. This upgrade provides improved spaces for students and staff to enhance their capacity to support learning and wellbeing.

Schofields Public School

The upgraded Schofields Public School delivered a new permanent multi-storey building with 24 classrooms, student and staff amenities, new staff spaces, accessibility features including a walkway and a lift. Classrooms are equipped with advanced technology to support best practice teaching and a variety of learning needs. The delivery of this project also sees the removal of demountables, that accommodated almost half of the students, and frees up 4,300 square metres of play space for students to enjoy.

Tallawong Public School

This project delivered a new permanent site for a primary school to address the growing suburbs of Western Sydney. The new primary school accommodates 600 students, with 24 classrooms, three support learning classrooms, a hall, library, canteen, sports courts and play areas. The opening of this school also enables the removal of 15 demountables at Riverstone Public School.

Wollumbin High School

The Wollumbin High School project saw upgrades delivered by Day 1 Term 1 2026. These included three new support classrooms, two new specialist music classrooms with a recording studio and two practice rooms, new industrial equipment for the Technological and Applied Studies (TAS) rooms, and stormwater and landscaping work. Removal of all demountables is underway with a new sports court to be installed when complete.

3.7 Health

Table 3.6: Key Health projects delivered in 2025-26

Key Health projects delivered in 2025-26

Broken Hill Acute Mental Health Inpatient Unit Upgrade

Delivered as part of the Statewide Mental Health Infrastructure Program, the co-designed facility has expanded the capacity of the Far West region to treat mental health conditions.

Broken Hill Emergency Department Upgrade

The project delivered an expanded emergency department with full internal refurbishment and reconfiguration, providing upgraded treatment spaces and improved patient flow with a new dedicated external entry with spacious waiting area, new triage space, interview/consult room and treatment bays.

Key Health projects delivered in 2025-26

Concord Forensic Mental Health Unit

Delivered as part of the Statewide Mental Health Infrastructure Program, and located adjacent to Concord hospital, the new 'Burudyara' facility expands on the Concord Centre for Mental Health's existing forensic rehabilitation services. The new facility provides low and medium secure mental health beds in an environment designed to feel safe and homely, with special domestic features and comforts, while also providing a secure and safe environment for all.

Cowra Hospital Redevelopment

The project delivered a new hospital building with new and enhanced healthcare services including the hospital's first CT scanner, upgraded inpatient beds and purpose-built modern facilities. Final works including demolition of the old hospital and landscaping are underway.

Goulburn Hospital Redevelopment

The project delivered a new four-storey Clinical Services Building (opened in 2021) including purpose-built clinical spaces such as a new emergency department, intensive care unit, medical imaging department, and a maternal and newborn unit. Spaces in the old hospital building were renovated and refurbished, and included a new MRI service.

Griffith Hospital Redevelopment

The project delivered a new three-storey Clinical Services Building (opened 26 June 2025), housing all key clinical services under one roof to support contemporary models of care. The project included an Emergency Department, operating theatres and medical imaging, inpatient units and Ambulatory Care Hub. New services included aged care and rehabilitation beds, and outpatient care which includes expanded renal, oncology, clinics and outpatient rehabilitation gym, and a clinical link to the adjoining private hospital. A new non-clinical services building houses linen, maintenance, kitchen and other support services to meet the new hospital's needs.

Gunnedah Hospital Redevelopment

The project delivered enhanced health care facilities to support the current and future health care needs of the local community. A new acute services building has been constructed on the hospital campus connected to the existing building, with an expanded emergency department, modern birthing, maternity and inpatient unit and dedicated ambulance entry and bays.

Nepean Hospital Child & Adolescent Mental Health Service (CAMHS) Unit

Delivered as part of the Statewide Mental Health Infrastructure Program, the new CAMHS unit at Nepean Hospital supports young people aged 12 to 17 who live in Western Sydney and the Blue Mountains. Designed in collaboration with young people, their families and carers, the new unit creates a supportive environment that prioritises recovery and delivers high-quality care tailored to each young person's unique needs, supporting their ongoing health and wellbeing. The unit features 10 single bedrooms with ensuites, a light-filled communal area, secure outdoor spaces, learning and recreational spaces, consultation rooms, a media room and carer suites.

Orange Health Service Palliative Care spaces

Delivered as part of the World Class End of Life Care Program, the expansion of inpatient palliative care spaces includes three new dedicated palliative care bedrooms with support spaces, enhancing comfort and privacy for patients and families. The new palliative care rooms are designed to create a peaceful, home-like environment to support patients and families. The spaces feature access to natural light, fresh air, and communal indoor and outdoor areas.

Sydney Children's Hospital, Randwick – Stage 1 and Children's Comprehensive Cancer Centre

The project delivered a new 12-storey building with an expanded emergency department (ED), new medical short stay unit, a neurology research facility, inpatient units for medical, surgical and oncology, a day oncology centre, a dedicated bone marrow transplant unit and sleep study services. The new, bigger ED is positioned close to critical care, imaging and specialist services, strengthening the hospital's ability to respond to complex and time-sensitive presentations. Families now also have access to private, single-patient bedrooms, which include a bed for a parent or carer to stay with the child. Co-located Children's Cancer Institute laboratories support the Minderoo Children's Comprehensive Cancer Centre, a combined research and treatment facility for childhood cancer, which features state-of-the-art research laboratories, treatment centres and education and training facilities for clinicians, scientists, and allied health workers. Refurbishment works of existing hospital spaces are underway.

Key Health projects delivered in 2025-26

The Children's Hospital at Westmead Stage 2 Redevelopment

The project delivered a purpose-built 14-storey building providing new and enhanced critical care and acute healthcare services for children, including a significant expansion of paediatric and neonatal intensive care facilities and specialist health services. The new building features inpatient units with single-patient bedrooms, each with a carer bed and private ensuite. In addition, funding from the NSW Government and philanthropic support from the Sydney Children's Hospitals Foundation has enabled the fit-out of an inpatient unit providing dedicated care for children and their families living with chronic and complex medical conditions.

Viral Vector Manufacturing Facility

The project delivered a world-leading commercial-scale viral vector manufacturing facility, the first of its kind in Australia, at Westmead Health Precinct, and design and fit-out of a viral vector suite at the Kids Research Institute at Westmead. The new viral vector manufacturing facility will provide patients across New South Wales access to ground-breaking therapies. The new facility will support domestic and international clinical trials, therapeutic production for healthcare delivery and growing industry collaborations and help save lives by securing viral vector supply for Australian researchers.

Wentworth Health Service Redevelopment

The project delivered a new purpose-built health service including a 19-bed inpatient unit with a direct view of the Darling River from all bedrooms, a palliative care suite, dining room, family gathering room, patient gym, courtyards, community health rooms and a new Urgent Care Centre.

Westmead Hospital Redevelopment Stage 1

The project has transformed the Westmead Health Precinct, delivering a new 14-storey Central Acute Services Building (opened in 2021) with more operating theatres, patient rooms and new and expanded healthcare services. The staged refurbishment of existing hospital buildings has resulted in upgraded and purpose-built facilities including additional operating theatres, ambulatory care unit and dermatology, an expansion of the intensive care unit, an aged care inpatient unit and a new Cystic Fibrosis Specialist Services Unit.

Wyang Hospital Redevelopment

The project delivered a new acute services building including emergency department, intensive care unit and medical imaging department (completed in 2021), additional operating theatres, an expanded medical day unit and a new transit lounge (completed in 2022). A new women's outpatient service, expanded pathology laboratory, dedicated spaces for the Nunyara Aboriginal Health Unit, the carer support unit and new medical workspaces were delivered as part of the final stage, completed in 2025. The completion of the new facilities means more services are available locally, reducing the need for travel and helping people stay connected to their families and communities during treatment.

Wyang Cancer Day Unit

The project delivered an expansion of the Cancer Day Unit featuring eight new consultation rooms, one interview room and a multidisciplinary team meeting room.

The completion dates identified in Chapter 4 are the financial completion dates, which involve the finalisation of all commercial payments and confirmation that all contractual obligations have been met. This may occur 12-18 months after the building has become ready for commissioning and occupied by patients and staff.

3.8 Planning, Housing and Infrastructure

Table 3.7: Key Planning, Housing and Infrastructure projects delivered in 2025-26

Key Planning, Housing and Infrastructure projects delivered in 2025-26

Australian Institute of Botanical Science

Completion of improvements to a state-of-the-art facility to protect the Royal Botanic Garden's collection of more than 1.4 million plant specimens at Mount Annan.

Callan Park Revitalisation

Completion of waterfront upgrades to provide more open space and accessible community facilities and improve walking and cycling links for the Bay Run.

Centennial Park and Moore Park Trust – Asset Renewal Program

Completion of \$3.3 million of priority infrastructure and asset maintenance across Centennial Parklands and Callan Park from the 2025-26 Budget.

Fifteenth Avenue Business Hub

Completion of works to deliver a business hub in West Hoxton that will support jobs in the Western Sydney economy and provide revenue to fund works in the parklands estate.

Royal Botanic Gardens and Domain Trust – Asset Renewal Program

Completion of \$3.4 million of priority infrastructure and asset maintenance for the Botanic Gardens of Sydney from the 2024-25 Budget.

3.9 Premier

Table 3.8: Key Premier projects delivered in 2025-26

Key Premier projects delivered in 2025-26

RNA Research and Pilot Manufacturing Facility

The Office of the Chief Scientist & Engineer has delivered the new RNA Research and Manufacturing Facility, comprising of advanced laboratories and supporting infrastructure designed to enable the production of a broad range of RNA therapeutics within a single facility. Built by NSW Health Infrastructure, the Facility will be operated by industry partner Aurora Biosynthetics, who will work with researchers and clients to support the progression of therapeutic innovations from laboratory research towards clinical trials.

3.10 Primary Industries and Regional Development

Table 3.9: Key Primary Industries and Regional Development projects delivered in 2025-26

Key Primary Industries and Regional Development projects delivered in 2025-26
Avian Influenza Biosecurity Response Capability The project has enhanced High Pathogenicity Avian Influenza (HPAI) preparedness and bolstered national response capability through the successful procurement of specialist equipment for biosecurity surveillance and response. These investments have strengthened the sector's ability to manage outbreaks in both the production industry and Australian wildlife. The completed capital works now provide improved HPAI detection, diagnosis, response and help prevent the spread of the disease.
Offshore Artificial Reefs The construction of multi-component, purpose-built artificial reefs off the NSW coast has now been completed. This successful delivery yielded significant returns on investment through new fishing tourism opportunities alongside ecological benefits. The completed reefs have enhanced fishing and tourism by establishing additional habitats for local aquatic organisms and fish, including Kingfish, Trevallies, Snapper, Flathead, Whiting and Morwongs species.
Orange Agricultural Institute Upgrade The project has upgraded facilities at the Orange Agricultural Institute following damage caused by a natural disaster. Works included the restoration and enhancement of houses, administration buildings, the State Emergency Centre, sheds and glasshouses.

3.11 Transport

Table 3.10: Key Transport projects delivered in 2025-26

Key Transport projects delivered in 2025-26
Ferry fleet refurbishment - First & Rivercat fleet - MV Me-Mel MV Me-Mel was purchased in September 2025 to operate between Barangaroo, Pirrama Park and Blackwattle Bay. The Pirrama Park and Blackwattle Bay wharves have load/weight restrictions and only Me-Mel could be used to operate the route.
Great Western Highway, Medlow Bath Upgrade The Medlow Bath Upgrade, funded by both the NSW and Australian governments, has improved community safety and public transport access in the Blue Mountains with a 1.2 kilometre highway upgrade and duplication to two lanes in each direction, a new shared pathway, increased safer access onto and off the highway and a signalised intersection. The project was permanently opened to traffic on 27 February 2026.
Heathcote Road, Infantry Parade to The Avenue Heathcote Road between Infantry Parade, Holsworthy and The Avenue, Voyager Point is now a four-lane divided road, following the duplication of a 2.2 kilometre section previously operating as two lanes (NSW and Australian Government funded). The project reduces traffic congestion, improves safety, meets future traffic volumes and improves pedestrian and cyclist connectivity within the surrounding areas. The project was open to traffic on 1 October 2025.
Henry Lawson Drive Upgrade - Tower Road to Auld Avenue Bridge Stage 1A of the Henry Lawson Drive upgrade improves a critical corridor between the M5 South Western Motorway at Milperra and Beale Street at Georges Hall, easing traffic for more than 43,000 vehicles using the route daily. Key features of the upgrade include widening Henry Lawson Drive to two lanes in each direction between Tower Road at Bankstown Aerodrome and Auld Avenue at Milperra and enhanced pedestrian access, footpaths, and shared paths at key intersections. The project opened to traffic on 29 August 2025.

Key Transport projects delivered in 2025-26

Hexham Straight Widening

The NSW and Australian Governments have invested in the upgrade of the section of the Pacific Highway (Maitland Road) known as Hexham Straight between Newcastle Inner City Bypass and Hexham Bridge to improve safety and traffic flow for the 50,000 motorists who use this road every day.

Hexham Straight now has three lanes in each direction along the entire six-kilometre length with a posted speed limit of 80km/h, from the Newcastle Inner City Bypass to north of Hexham Bridge.

The project was opened to traffic in February 2026.

King Georges Road between Stoney Creek Road and Connells Point Road (Stage 1)

The upgrade of King Georges Road Stage 1 is complete with improved safety, reduced congestion and faster travel times delivered for commuters travelling on one of the oldest arterial roads in Sydney's south (NSW and Australian Government funded).

The road has been widened to three lanes separated by a concrete median in each direction, delivering better traffic flow while also boosting safety.

The project was open to traffic on 30 September 2025.

M12 Motorway - M7 to The Northern Road

The M12 Motorway is a 16-kilometre east-west, toll-free motorway connecting the M7 Motorway at Cecil Hills to The Northern Road at Luddenham (NSW and Australian Government funded).

The motorway is a four-lane dual carriageway, delivering a critical new connection within Sydney's motorway network. The M12 provides direct access to Western Sydney International Airport at Badgerys Creek, supporting the long-term growth and accessibility of Western Sydney. The motorway significantly increases road capacity and is expected to reduce congestion and travel times across the region. It also enhances the movement of freight in and through Western Sydney, improving network efficiency and reliability.

The project opened to traffic on 14 March 2026.

Mulgoa Road Stage 1

The Mulgoa Road Stage 1 upgrade between Jeanette Street and Blaikie Road has widened Mulgoa Road to three lanes in each direction, improving access to and from the M4 Motorway and delivering safer, more efficient connections to surrounding retail and residential precincts (NSW and Australian Government funded).

The upgrade to Mulgoa Stage 1 will improve road capacity, managing congestion and delays along Mulgoa Road during peak periods and reduce travel times and transport costs.

The project opened to traffic on 30 March 2026.

Newell Highway, Narrabri to Moree Heavy Duty Pavement

The Newell Highway between Narrabri and Moree upgrade is now complete, with all sections of the highway and a new formal rest area now open to traffic (NSW and Australian Government funded).

In addition to the rest area, the project has delivered more than 20 kilometres of new road pavement along this important regional freight route. This includes intersection improvements, wider road shoulders and five new overtaking lanes, improving safety and efficiency for all drivers on this key regional route.

The project was open to traffic on 8 September 2025.

Parramatta Class Ferries

The final two vessels of the new Parramatta River Class fleet were handed to Transport: MV Norman Selfe in July 2025 and MV Jack Munday in October 2025. All seven vessels of the Parramatta River Class fleet are now in operation.

The operation of the new fleet enabled disposal of the final two Rivercat vessels: MV Shane Gould in December 2025, and MV Dawn Fraser in May 2026.

Return Freshwater Class Ferries to Circular Quay-Manly - Freshwater Docking: MV Narrabeen

MV Narrabeen docking was returned to service in October 2025 following major capital maintenance. This refurbishment project included the scheduled five-year maintenance docking, as well as upgrades to control systems, customer and operator amenities and safety features. The vessel was refitted and repainted alongside essential works completed to the hull and operational equipment.

Key Transport projects delivered in 2025-26

Safe Accessible Transport Program

The Safe Accessible Transport program aims to make public transport safe, inclusive and easy to use for all passengers, especially people with disability, older people, people with prams or luggage and others who may be experiencing mobility problems.

Key upgrades in 2025-26 include improved accessibility upgrades at Moss Vale Station in July 2025 and Queanbeyan Station in September 2025.

Sydney Harbour Bridge Cycleway Access

The Sydney Harbour Bridge's long-awaited cycleway ramp creates a continuous north-south route across the Harbour Bridge with links into the city centre via Kent Street, out to the east via the Oxford Street Cycleway, and out to the west via the ANZAC Bridge.

The ramp connects to a new cycle route extending along Alfred Street South to Middlemiss Street at North Sydney, including new crossings on Alfred Street South and Lavender Street. The ramp fills a major gap in the city's bike infrastructure network.

This project was completed on 6 January 2026.

Transport Management Centre – Transport Operations Room Upgrade

The Transport Operations Centre (TOR) upgrade in the Transport Management Centre (TMC) was completed in October 2025 to meet the needs of a modern, multimodal transport network. Works included a major facility and technology upgrade including a new 25-metre-long digital video wall and new fit-for-purpose communications room to accommodate an increase in staffing, capacity and additional noise suppression to enable live broadcasting.

Wallendbeen Bridge Approaches

The construction of the approaches to the new bridge over the Main Southern Rail line at Wallendbeen, on Burley Griffin Way, was completed in 2025-26.

3.12 Treasury (including Infrastructure NSW)

Table 3.11: Key Treasury projects delivered in 2025-26

Key Treasury projects delivered in 2025-26

New Sydney Fish Markets ¹

The construction of the New Sydney Fish Market is complete and opened to the public in January 2026. The Fish Markets precinct, provides state-of-the-art public spaces and modern facilities that support Sydney's seafood industry, boost tourism and enhance community access to the waterfront. The revitalised precinct now provides a vibrant destination for locals and visitors, with improved amenities, expanded retail, waterfront dining options and greater opportunities for public enjoyment along Sydney's iconic harbour.

¹ Long-term ownership and operation of the New Sydney Fish Market will transfer to Placemaking NSW, under the Department of Planning, Housing and Infrastructure, from 1 July 2026.

Not allocated to an agency	(2,209.5)	23.4	(4,277.7)	(4,301.1)
Total	22,359.8	22,892.7	21,911.0	(981.7)

(a) This table only reports infrastructure investment, excluding inventory expenditure, by agencies and does not include capital grants to public and private bodies to fund infrastructure.

(b) General government sector investment published in Table A1.1 of Budget Paper No 1 may not sum to the totals of agency programs published in Table 4.1. The difference represents intra-sector eliminations.

(c) The variation is from 2025-26 revised to the 2026-27 Budget. Discrepancies between totals are due to rounding.

Transport for NSW (cont)

- (a) Estimated total cost (ETC) is the announced cost. ETCs are identified for projects that have delivery contracts for main works in place.
- (b) Start dates are not shown since each project is an amalgamation of individual works. ETC and completion dates are not available (n.a.) at this stage for some projects as they are in the planning phase. Completion dates refer to when the project is operational or opened. Further works may be undertaken and costs incurred after the completion date.
- (c) Project is partially funded by Urban Roads Fund.
- (d) Project is partially funded by Regional Roads Fund.
- (e) Estimated total cost (ETC) for Hillsborough Road, Warners Bay to Charlestown (Stage 1) includes planning expenditure, which was not included in the ETC of previous Budget Paper.
- (f) Project is partially funded by Road Safety.

Inventory Expenditure

The following projects are being delivered by NSW general government agencies on behalf of another entity.

As the delivering agency is not expected to be the long-term owner of the completed project, the expenditure is classified as inventory rather than property, plant and equipment, consistent accounting concepts within Australian Accounting Standards AASB102. On completion these assets will be transferred to the intended owner.

Total^(h)	10,763.1	9,095.7	10,984.9	1,889.2

(a) The variation is from 2025-26 Revised to the 2026-27 Budget. Discrepancies between totals are due to rounding.

(b) The difference in 2026-27 between Sydney Ferries' total investment in Table 5.1 and the total of agency programs in the project list represents capital expenditure on fleet maintenance.

(c) The difference in 2026-27 between Sydney Trains' total investment in Table 5.1 and the total of agency programs in the project listing is due to Right-of-Use assets.

(d) The difference in 2026-27 between NSW Trains' total investment in Table 5.1 and the total of agency programs in the project listing is due to Right-of-Use assets.

(e) The difference in 2026-27 between Sydney Water's total investment in Table 5.1 and the total of agency programs in the project listing is due to capitalised interests.

(f) The difference in 2026-27 between Water NSW's total investment in Table 5.1 and the total of agency programs in the project listing is due to capitalised interests.

(g) Effective 1 April 2026, Newcastle Port Corporation changed its name to Port Authority of New South Wales.

(h) Public non-financial corporations investment published in Table A1.9 of Budget Paper No.1 Budget Statement may not sum to the totals of agency programs published in Table 5.1. The difference represents intra-sector eliminations.
